Representative Meek Talks With Black Media After TV Debate

BY GWEN HAYES
Sentinel Editor

After an hour-long TV debate, Representative Kendrick Meek spoke with members of the Black press via conference call.

With less than a month remaining to campaign before Election Day, Tuesday, November 2, 2010, Rep. Meek told those on the conference call that he intends to keep the African-American media informed because he "knows of the challenges of the African-American media."

Sharing comments on the debate, he pointed out the hypocrisy of candidate Marco Rubio and the weakness of Governor Charlie Crist.

Rep. Meek shared that he stood up for class size, stood with teachers to save their jobs, stepped in to save jobs for the middle class and was the only one who did not vote to privatize Social Security.

Meek urged those on the line to continue to encourage their listeners, readers and viewers to go to the polls. One of those on the call, Charles Ellison asked Meek what is his ground game to get voters to the polls. "People know that I am a fighter, I understand the issues, issues that face the Black community, struggles for financing... and I will stand up when someone needs to stand up. My name is Meek, but I am in no way meek," he said.

He added that he hopes his presence on the ballot will be the driving force for many to go to the polls. "I'll only need 3% of the vote in Florida to win the race," he said.

Ellison also asked about the support for class size, stood with teachers to save their jobs, stepped in to save jobs for the middle class and was the only one who did not vote to privatize Social Security.

Meek expects from the White House. He told those on the line that he expects to get with President Barack Obama sometimes next week. He also expects to get additional help from former President Bill Clinton and Vice President Joe Biden. He hopes additional resources from the Democratic Party will be directed to Florida.

Linda Walters of the Florida Sun, Orlando, asked Rep. Meek if he felt there is the need for another debate. "Most people want action," he replied, "and I will stand up for the people." Daphne Taylor of the South Florida Times said candidate Rubio seems to be attracting those who are fed up, Crist appears to be appealing to those fed up with both parties, and there doesn't seem to be any spark among Democrats. What will he do to generate fire under Democrats? He's sharing the same kind of interest generated in 2008. "The people of goodwill will win this race," he stated.

The Republican Party is so confident that they will dominate the mid-term election until they believe all they have to do is sit back and wait for their constituents to cast the winning votes. They feel that Democrats won't vote and Independents are so snowed they will vote with the Republicans. They further believe that all they have to do is avoid debates, avoid all media but Fox News and just blame President Barack Obama for everything bad that is going on in America and in the world.

Elected officials in Congress do everything they can to block the president's efforts to restore America in prosperity. Let me emphatically remind voters that the economy was going downhill when Pres. Obama took office. People were losing jobs, small businesses were having trouble borrowing money. Homes were going into foreclosure. People were losing their healthcare coverage and America was already fighting the same two wars. I certainly hope that voters aren't going to put the same politicians back in the White House. Congress. Voters, think, what are Republicans telling you that they will do to create jobs, to end the two wars that are driving up deficit spending, to provide healthcare for most Americans, to make money available for small businesses, to improve public education and to make life better for all Americans? If you vote with the resistance from Republicans and even some Democrats, Pres. Obama reformed healthcare. Certainly the reform isn't perfect, but it is a step in the right direction. Pres. Obama got a bill passed that guarantees women equal pay for the same job. He got some Wall Street reforms passed, got a small business loan and tax break package passed, along with a host of other bills.

The President has achieved these things in spite of stiff and stubborn opposition by Republicans.

Will you join this solution? Or will you remain part of the status quo? If you vote for candidates that will team with the President to bring about the change we want and need.

Voters, you have a real reason to vote in this election. Your very survival may rest on your vote.

Let us tell you what you CANNOT see, come the morning of November 2nd. You cannot see the cushions hidden under pillows and feet wrapped up in blankets refusing to move, yet, realizing full well that the clock has struck 8:30 and the owners of those feet and heads have not made one move to get ready to go out and vote!

No excuses! No explanations, save the fact that physical disability has kept whoever is in question from making an effort to fulfill his or her constitutional, humanitarian, and civil rights.

However, for relatives who have refused to participate in an initiative for which many thousands of Americans - Black, White, Latin Hispanic, Native American and Asian American - have given their lives to be a part of, let us tell you what you CANNOT see, come the morning of November 2nd. You cannot see the cushions hidden under pillows and feet wrapped up in blankets refusing to move, yet, realizing full well that the clock has struck 8:30 and the owners of those feet and heads have not made one move to get ready to go out and vote!

Let everyone who is without transportation know that neither he nor she will be using your vehicle unless it is to take him or her to the voting poll. No monies shall be lent. No favors shall be done unless the people in your household live up to their commitment as Americans. This, we ask of you, as not editorialists, but as friends and fellow citizens, who are no longer willing to sit back and watch our country, state and country drown in apathy.

Will you join the solution? Or will you remain part of the problem? Come November 2nd, may the people in your household (your children included) force you to make a choice.

**Vote No On Amendment 8**

The last proposed revision to the State of Florida Constitution for which you have been asked to vote is Amendment 8, Revision of The Class Size Requirement for Public Schools. Now, while we acknowledge the State of Florida's attempt to balance its budget, we have always argued that Florida children should not be short-changed to save money.

While refusing to end billions of tax exemptions for large corporations and for hundreds of nonessential items, such as luxury yachts, tickets to sports events, private Lear Jets, farm equipment and animal feed, legislators expect voters to increase the number of children in a classroom as remedy to a budgetary boil over. We think not.

We consistently have reported on research data that reveals children learn more effectively in smaller class-rooms, especially children in lower grades and Black children. Therefore, vote NO on Amendment 8. Voters decided in 2008 that we wanted our children to benefit from having a classroom maximum of 18 students in Pre-K through third grade, maximum of 22 students in fourth to fifth grade, and 27 students in ninth to tenth grade.

Because Amendment 8 would increase classroom size for Pre-K through 3rd grade, such legislation is terribly flawed. Our children cannot afford another FCAT.
State Senator Discusses New Child Support Laws

BY IRIS B. HOLTON
Sentinel City Editor

Last week, more than 30 new laws went into effect on October 1st, the first day of the fiscal year for many local, state and federal agencies.

One of those laws that underwent changes pertains to child support and the new guidelines instituted. State Senator Arthenia Joyner, a long time practicing attorney, recently explained the new laws.

Portions of the new laws went into effect on October 1st. The entire act is effective as of January 1, 2011.

Senator Joyner said, “One of the changes addresses the termination of support on the child’s 18th birthday unless the court finds or previously found certain statutory circumstances exist such as a disabled child, the child has not graduated from high school, or the parties have otherwise agreed.”

She explained that many times agreements are made during divorce proceedings that the courts could take into consideration. “The vast majority of child support orders didn’t specify a termination date. Now, every child support order must specify that date.”

Additionally, the new law provides the automatic reduction of support payments after an older child is removed after reaching adulthood, referred to as a step down.

In the past, the parent would be required to petition the court to reduce the amount of child support required once the older child reaches the age of maturity. The new law requires the payment to be automatically determined, eliminating the parent from having to return to court to receive the adjustment.

The changes also address the issue of determining payments. “If a party does not participate with discovery or provide adequate financial information, then the Court shall automatically impute that party to have the income equivalent to the median income of a year-round, full-time worker as derived from the current population reports or replacement reports published by the United States Census Bureau.”

Senator Joyner said this change means that if a parent does not appear in court or respond to requests pertaining to income, the judge can order support based on the income of a full time employee in the median income range.

If the parent is unemployed or under employed, he or she must provide documentation, she said.

Groups To Host Candidate Forum On 10/10/10

Over 40 Candidates Confirmed and Over 700 Voters Expected

A coalition of Tampa Bay minority groups announced that on Sunday, October 10, 2010 (10/10/10), they are uniting to host one of the largest political candidate forums in the state in order to impact the 2010 midterm elections.

The United Voices 2010 Tampa Bay Candidate Forum is designed to inform and mobilize people of color and minority voters ahead of the general election in November. Over 40 candidates are confirmed to speak and over 700 are expected to attend.

The forum will cover federal, state and local races from the four counties of Hillsborough, Pinellas, Pasco and Hernando. In 2008, the same event drew over 600 constituents and more than 30 candidates; organizers expect an even larger turnout at this year’s event.

“The economic crisis and real estate crash have impacted people of color more than anyone else. Yet, most candidates won’t address this forum to ensure that our issues are addressed,” said Dr. Sam Wright, Sr., Co-Chairman of the Forum and First Vice President of the NAACP Hillsborough County Branch.

“I won’t allow candidates and politicians to use immigrants and immigration as a tool to score political points and votes,” said Edwin Cisneros, Florida State Director of Democracy.

The 5:30 p.m. event will be held at the Embassy Suites Hotel - USF, 5705 Spectrum Blvd., Tampa, (at Fowler Ave and Spectrum Blvd.)

The forum is free, but requires RSVP. Constituents may visit http://www.tampaforum.org to reserve their seats and/or get information and updates.

The coalition partners who have organized the forum include United Voices for America, NAACP Hillsborough County Branch, Florida Consumer Action, College Democrats, and College Republicans.

The Forum sponsors include The Tampa/Hillsborough Human Rights Council, United Voices for America, and La Gaceta.

FAMU Receives $1.5 Million To Establish Center For Training And Jobs

TALLAHASSEE – Florida A&M University (FAMU) has received nearly $1.5 million in a grant from the U. S. Department of Commerce to establish the FAMU Center for Public Computing and Workforce Development.

"We would like to thank Congressman Allen Boyd for his support and the U. S. Department of Commerce for selecting FAMU for this initiative," said FAMU President James H. Ammons.

According to the U. S. Department of Commerce, the three-county region of northern Florida targeted by Florida A&M University has poverty and unemployment rates well above the state and national averages, and many residents lack the 21st century skills necessary for industry certifications and job preparation.

"FAMU has a long and proud history of providing our students with the skills they need to be successful. This new workforce center will allow them to turn their talents toward helping our local small businesses succeed in a challenging environment," said Congressman Boyd.

Through the grant, the FAMU Enterprise Information Technology Division and the FAMU College of Education Department of Workforce Education and Development will establish a new Center for Public Computing and Workforce Development on the FAMU campus to serve the public of Tallahassee and surrounding Gadsden and Jefferson Counties. The center also plans to serve as a resource to other public computing centers in the region.

"We are extremely pleased that the concept we developed for the FAMU campus was viewed favorably by the evaluators of the many grant applications that were submitted in the national competition for establishment of Public Computing Centers," said Robert Seniors, principal investigator and vice president for FAMU Division of Enterprise Information Technology.

FAMU's Small Business Development Center plans to provide business development training and counseling services through videoconferencing technology, and offer workshops to small businesses with an emphasis on minorities, women, and veterans.

Seniors said that through the center they plan to train 14,500 residents with approximately 87,000 hours of teacher-led training annually over the three years of the project.

"The co-principle investigator is Dawn Holley-Dennis, associate professor and chair of the Department of Workforce Education and Development in the FAMU College of Education."

As election time approaches on November 2, the Supervisor of Elections Office has released a list of more than 2,500 people in Hillsborough County who will not be eligible to vote.

The names that appear on the list have been purged from the list of eligible voters.

Travis Abercrombie, Public Information Specialist with the Supervisor of Elections Office, said as soon as the names appear on a list to them, they send each individual a letter advising them to contact their office.

"If they haven't responded within 30 days, their names are put on a list of those not eligible to vote. If someone has paperwork saying their rights have been restored, they need to bring that to us."

Abercrombie said the list will grow as felonies are committed, and they also get a list from the state of people who have passed.

"We've worked on this with the ACLU and NAACP. We met with them prior to the list being published, and they were told at that time the list would be made public."

The last day to register to vote was October 4th.

Rev. Timothy Kemp and his wife, Yvette, have a unique son. Their son, Nazim, will be celebrating his 12th birthday next Sunday, but it's his love of animals that makes him unique.

Nazim is the only African American at Sailwind Stables learning to ride horses, and will be participating in the Harvest Days Horse Show November 5, 6, and 7 at the Florida State Fairgrounds.

Rev. Kemp said Nazim's love of animals started when he was 7 he expressed an interest in his love of all animals. He later asked if he could take riding lessons and learn more about horses.

Rev. Kemp said Nazim wants to own a horse one day, and in the future he may have to get a ranch home.

"We are very comfortable with him riding horses, and we understand the risks, but we know he's being trained properly."

"Our initial reaction when he told us he wanted to ride horses was ‘WOW,’ but we decided to give him the opportunity."

Nazim has had all kinds of pets, including hamsters, turtles, cats, dogs, gerbils, birds, and any other animal he could get in the house.

The event will take place on February 16th, beginning at 9 a.m. Registration for the march begins at 7:30 a.m. The "March for the Forgotten Children" will be held at the Curtis Hixon Park in downtown Tampa. Ms. Yvonne Marrone, of Guardian ad Litem, said, "The hope is to increase awareness, raise needed dollars, and encourage people to volunteer and become a Guardian ad Litem."

"The program is based on the belief that every child has a right to a safe, permanent, loving home. Volunteers advocate for children who have been removed from their home due to abuse, abandonment, or neglect. They lend their "voice" to a child who otherwise would not have one."

Currently, more than 800 children in Hillsborough County are currently in the foster care system. For additional information, contact Betsy Smith at (813) 377-9300 or Yvonne Marrone at (813) 307-3365.

Attorney Seeks Dismissal Of Charges Against Woman In Police Murder Case

BY IRIS B. HOLTON  
Sentinel City Editor

Wednesday evening, Attorney Grady Irvin filed a motion to dismiss charges against Ms. Cortnee Brantley. Ms. Brantley, 22, faces a federal charge of misprision of a felony.

She was booked into the Hillsborough County Jail on July 24th on concealing a person from arrest - federal. Recently, the federal prosecutor amended the wording of the charge to include a firearm and ammunition. Her arraignment on the new charge is set for Friday morning. Attorney Irvin said the arraignment hearing is for change in wording and that Ms. Brantley is not facing a new charge.

The amended indictment said, Ms. Brantley, "A strict reading of the superseding indictment only tells Ms. Brantley that on June 29, 2010, a convicted felon possessed a firearm and ammunition against Ms. Cortnee Brantley) was aware of concealment of a firearm and ammunition in civil authority." He stated in the motion to dismiss the charges against Ms. Brantley, "A strict reading of the superseding indictment only tells Ms. Brantley that on June 29, 2010, a convicted felon possessed a firearm and ammunition and that she (Ms. Brantley) was aware of this." He also wrote that the federal government apparently ignores the fact that "the underlying indictment is not constitutionally sufficient and that the disclosures complained of can only be remedied by a bill of particulars." Attorney Irvin wrote, "As stated by the Supreme Court, as well as the Eleventh Circuit, misprision of a felony offense requires both knowledge of a crime and some affirmative act of concealment or participation."

The document further stated it is impossible for Ms. Brantley to fulfill the requisite of the law without making herself a principal of the first degree, or an accessory after the fact. "Ms. Brantley cannot then be prosecuted federally because she refused to give up her Fifth Amendment right against self-incrimination as it pertains to State criminal laws regarding 'principal of the first degree' or 'an accessory after the fact.' The underlying indictment should be dismissed," he wrote.

The charge is linked to an early morning shooting in June that left two Tampa Police Department officers dead. The shooting sparked a nationwide manhunt that ended when the alleged shooter, Dontae Morris, surrendered to police nearly a week later.

According to police, at approximately 2:15 a.m., Tuesday, Officer David Curtis, 31, observed that the license plate on a 1994 Red Toyota Camry was not visible. Officer Curtis conducted a traffic stop at N. 50th Street and E. Dr. M. L. King, Jr. Blvd. Officer Jeffrey Kocab, also 31, was his backup unit. The vehicle stopped at N. 50th Street and E. Dr. M. L. King, Jr. Blvd. Ms. Brantley was reportedly driving and Morris, 25, was the passenger, police said.

The officers learned that an active warrant existed for Morris and attempted to make an arrest. Morris allegedly shot both officers in close range. He fled on foot. Ms. Brantley fled in the vehicle, police said.

Morris is currently being held without bond at the Hillsborough County Jail.

Community Invited To
Round-Table Discussion

On Saturday, October 9th at 10 a.m., a round-table discussion will convene at the HOPE Center, 4902 North 22nd Street, on the need for atonement.

Brother Rasul Muhammad, the son of the late Elijah Muhammad, founder of the Nation of Islam, will be the opening speaker.

Guest panelists that will be a part of the roundtable are Attorney Delano Stewart, Sister Connie Burton, and Rev. W. G. Dixon.

Also, invitations have been sent out to Candy Lowe, Elder Michelle B. Patty, and the Rev. Dr. Henry Lyons.

Over the past five decades, more African Americans have been killed by African Americans than what was perpetrated by the Ku Klux Klan. The need for atonement is essential in today’s society, especially when you see the peril it has cast African American families into.

The community is encouraged to attend this discussion and voice their opinions for the need for atonement.

Zora Neale Hurston Novel
Performed By Students

In Zora Neale Hurston’s “Spunk,” there is a conflict between Joe Kanty and Spunk Banks. Spunk is having relations with Lena, Joe’s wife. Joe seeks revenge and Spunk kills him. Ultimately, Spunk is killed supposedly by Joe’s evil spirit.

The language captures the tone in the story, which strengthens the saying, “What goes around, comes around.”

On October 13, 14, and 15, students from the Drama Department of Tampa Bay Vo-Tech High School will be performing “Spunk” at the school’s cafeteria. The production will begin at 7 p.m.

The Culinary Arts Program of TBT will serve a 3-course meal during the course of the production, sponsored by the school’s Drama Department.

For more information about this production, call (813) 810-0382.

Tennis Pro Offers Program For Youth

BY IRIS B. HOLTON
Sentinel City Editor

David Shaw was introduced to the game of tennis while in middle school. He recalls watching a game while at Riverfront Park. After learning first how to play and then how to teach, Shaw realized that the sport offered benefits that others would enjoy.

Now, Shaw hopes to teach the sport to other youngsters who have the desire to learn. He recently reached an agreement with the City of Tampa that will allow him to utilize the area parks to work with young athletes.

Classes will be taught at Copeland Park, Al Barnes Park, and Rowlett Park. The target base is for youngsters ages 3 and up. Shaw said that tennis is a sport for anyone with the desire. "I encourage teenagers who want to play or who have aspirations of playing as well as adults to participate."

Other sports are seasonal, but Shaw said he offers a year-round program. "Traditionally, we play certain sports, but tennis is not promoted in the Black community. My intent is to let tennis be considered as another option."

While all sports require certain skills, Shaw said tennis requires critical thinking, hand to eye coordination, coordination, patience, determination, and other characteristics that contribute to life skills.

A Tampa native, Shaw withdrew from Plant High School and joined the U. S. Marine Corps, where he earned his GED. After completing a 4-year stint, he enrolled at Florida Memorial College, where he earned credits towards a degree in Business Administration.

Shaw, 50, became a professional tennis instructor at the urging of friends in 2007. He completed the necessary requirements that included testing of knowledge, the ability to play, the ability to teach, and several other criteria. He is currently rated as a professional.

Shaw is a member of Joy Tabernacle and an employee of the Hillsborough County Parks & Recreation. During his spare time, he enjoys chess, basketball, and exercising.

David Shaw, left, and his doubles partner, Jack Spencer, of Daytona, recently won the Men’s 8.0 Division during a competition.

**Tiger Woods Discovers Tiger?**

Tiger Woods just finished playing in the Ryder Cup where he represented the United States against the Continent of Europe. There were those who said Tiger should not have been on the Team. It is history now that America lost the Cup by a score of 141½ points to 131½ points.

It wasn’t Tiger’s fault. In four matches, Tiger’s record was 3-1-0. In fact, Tiger Woods may have rediscovered Tiger at the Ryder Cup match. In Sunday’s singles match, Tiger was brilliant. He was the Tiger of old. Tiger destroyed his Sunday opponent 4 up with three holes to play.

It was not the fact that Tiger won on Sunday, but it was the way he did it. With booming drives down the fairways, pin seeking iron shots into the greens and a putter that rolled true, Tiger had seven birdies and an eagle in 15 holes for a 9 under par score for 15 holes.

Last Sunday, Tiger put on a golf clinic. The question now is, is Tiger back to his old golf playing self?

**Bucs To Visit Bengals**

The Tampa Bay Buccaneers have had two weeks to work on their weaknesses, to correct their mistakes and to prepare for a road game with the Cincinnati Bengals. Unfortunately, this will not be enough for the Bucs to win their 3rd game. While a win is desired, how well they play the game against the Bengals is just as important.

**Buffalo Soldiers Plan Annual Golf Tournament**

Members of a local chapter of the Buffalo Soldiers will host their Legends Golf Tournament. The event will take place on Sunday, October 17th, beginning at 11 a.m., at MacDill Air Force Base. The 2nd Annual Golf Outing — Four Man Scramble, sponsored by the Woods & Wanton Chapter, Inc., of the Buffalo Soldiers 9th & 10th (Horse) Cavalry Association, will begin registration at 11 a.m.

The event includes 18 holes of golf, riding cart, lunch and dinner.

There will also be plenty of opportunities to win a variety of prizes for the Putting Challenge, the Longest Drive, the Closest to the Pin, the Chip ‘N Challenge and Hole-In-One.

Proceeds from the tournament will benefit Infants & Young Children of West Central Florida, Inc., and the John Henry Padgett Scholarship Fund.

For additional information call (813) 886-1275.

**No Chance Of A Blackout As Bucs Go On The Road To Face The Bengals**

No team enjoys entering a bye week after a humiliating loss, but that’s exactly what the Tampa Bay Buccaneers did.

The Bucs were humbled 38-13 by the Pittsburgh Steelers after winning their first two games against Cleveland and Carolina. Now, they will take their 2-1 record on the road to face Chad Ochocinco and Terrell Owens in a 1 p.m. kickoff against the Cincinnati Bengals.

The Bucs are 6-1/2 point favorites entering the game, but Buc head coach Raheem Morris feels good about his team’s chances. A couple of Buc rookies, running back LeGarrette Blount and wide receiver Arrelius Benn, will see more action as the Bucs try to add more punch to their offense that is averaging 16-points and 288 yards per game.

The Buccaneer defense will also have to play better as they will enter the contest allowing their opponents 19 points and 355 yards per game. The Bengals (2-2) average 19 points and 257 yards per game and this will be only their second home game of the season.

Quarterback Josh Freeman will try to improve on his performance in the Steelers game that produced 20-of-31 passes for 184 yards, no touchdowns and 1 interception.

Randy Moss Had Altercation With Patriots' QB Coach

It should not come as a surprise that Randy Moss wasn't thrilled that the Patriots threw in his direction just once in Monday night's 41-14 win over the Dolphins. But even though Moss hadn't been shy about his feelings towards how the team has treated him this season, there was speculation that something had happened to push him and the Patriots over the edge and set off Wednesday's trade with Minnesota.

Well, that something reportedly was a heated exchange that took place between Moss and the Patriots' quarterbacks coach, Bill O'Brien, at the half - shortly after Moss was unable to hold onto Tom Brady's pass late in the first quarter. According to Mike Reiss of ESPN Boston, there was an "outburst" witnessed by numerous players, during which Moss and O'Brien went back and forth. Moss obviously had issues with not being targeted enough and O'Brien reportedly called Moss out on the incompleteness.

Less than 48 hours later, Moss was a Minnesota Viking for the second time in his career.

Former Patriots players like Teddy Bruschi and Troy Brown have weighed in on the move and intimated that perhaps Moss had finally been showing his true colors after behaving admirably since coming over to New England from the Oakland Raiders prior to the 2007 season. Bruschi felt that the lack of veterans like himself, Brown and Rodney Harrison might have played into that negative change in attitude.

Revis Uncertain For Monday; Takes Shot At Moss

FLORHAM PARK, NJ - Darrelle Revis is ready to play, and you can bet Randy Moss hopes the Jets cornerback is out there defending him Monday night.

Revis added another chapter to their personal rivalry, saying Moss - now with the Minnesota Vikings - eased up in the second half of New England’s 28-14 loss to New York three weeks ago.

“He came out full force, early in the game,” Revis said. “In the second half, you could tell he was putting his foot on the brake. But everybody knows that’s Randy: sometimes he plays 100%, sometimes he doesn’t.”

Revis was limited at practice Wednesday, but hopes to play after missing the last 2 1/2 games with a strained left hamstring. He was injured defending Moss on a touchdown catch late in the first half of the game in Week 2.

Panthers Release Jarrett After Second DWI Arrest

CHARLOTTE, NC -- The Carolina Panthers released receiver Dwayne Jarrett on Tuesday, hours after his second arrest on a charge of driving while impaired in less than three years.

The Panthers replaced him with David Clowney, who was claimed off waivers from the New York Jets to help a depleted receiving corps.

Jarrett did little to boost before his latest legal trouble. Jarrett managed only 35 catches and one touchdown in four seasons in Carolina.

Portis Says Groin Injury Will Sideline Him vs. Packers

ASHBURN, VA -- Clinton Portis doesn’t think his injured groin will allow him to play in the Washington Redskins’ game this week against the Green Bay Packers.

Portis said he’s waiting for the results of an MRI on his left groin, which he injured in Sunday’s 17-12 win over Philadelphia.

“I don’t think the team is going to take my time and make sure I’m healed.”

Portis said Sunday he felt a “pop” in his groin before leaving the game.

“It’s bothering me,” he said Tuesday. "It’s stiff.”

NEW YORK — Lil Wayne is facing the music after being accused of breaking jail rules by having gear for listening to tunes: He can expect to go solo for the rest of his time behind bars in a gun case. Grammy Award-winning rapper was moved Monday into what city jail officials call “punitive segregation” for a month, until his expected November release date, Correction Department spokesman Stephen Morello said.

It’s his punishment for stashing a charger and headphones for a digital music player in his cell earlier this year, officials said. Lil Wayne generally will now be confined to his new cell 23 hours a day, with such exceptions as visits and showers, instead of being allowed to mingle with other inmates most of the day. He’ll eat in his cell and won’t get to socialize even during his hour a day of recreation, Morello said. Lil Wayne also will have to forego TV, and he’ll be limited to one phone call a week instead of a chat a day or more, except for calls to his lawyer, Morello said.

Lil Wayne Gets Solitary Confinement For Stashing Headphones, Charger

LIL WAYNE

NEW YORK — Usher and his mother have reconciled, but he still wishes she hadn’t boycotted his wedding three years ago.

In an interview with Vibe, the 32-year-old says he was “very disappointed” that his mother decided not to witness his marriage to his former stylist, Tameka Foster. The two divorced in last year. Usher says he “wouldn’t do that to my child.” The singer says “parents should be able to have unconditional love for their children and their decisions, regardless of how they feel.”

Usher and Foster have 2-year-old and 1-year-old sons. Usher’s mother used to manage his career.

T.I. To Face Drug Charges In Federal Court Oct. 15

ATLANTA — Rapper T.I. is headed back to federal court in Atlanta next week to explain why his probation shouldn’t be revoked after his recent arrest in Los Angeles. U. S. District Judge Charles Pannell Jr. has set the hearing for 2 p.m. on Oct. 15 for T.I., whose real name is Clifford Harris. The same judge sentenced Harris for firearms violations.

An earlier summons signed by Pannell lists three possible violations of his bond: possession of the drug ecstasy, testing positive for opiates and associating with a convicted felon.

Dick Griffey, SOLAR Records Founder, Dies At 71

NEW YORK — Dick Griffey, a key figure in black music whose record label SOLAR churned out classic R&B hits including “Fantastic Voyage” and “Rock Steady,” has died. He was 71.

Dick Griffey died Friday in Los Angeles of complications from quadruple bypass surgery, according to a family statement released Tuesday. The Nashville, Tennessee-born entrepreneur was instrumental to soul and funk music and in black entertainment. Island Def Jam Chairman and CEO Antonio “L.A.” Reid, who got his start with SOLAR as a member of the group the Deele, said Wednesday that SOLAR made Black pop music for the 1980s and was a cultural force.

“When we look at Motown as an example, the nearest competitor was SOLAR,” he said in an interview Wednesday. “The talent under that roof was insane.”

Rapper Yung Berg breaks the silence about reports that he was once again the victim of a chain snatching.

When asked about his latest chain, a replica Batman face that was stolen by a UK man, Berg seemed to sidestep straightforward answers but offered this statement, "This Batman chain is not important to me. I got chains...The biggest issue for me was that I gave it away to charity, to a kid that loves Batman."

**Waka Flocka Flame And BET Exec Stephen Hill Clash**

Waka Flocka Flame and BET Exec Stephen Hill had a war of words after the rapper's performance at the tap- ing of this year's BET Hip-Hop Awards.

Hill, BET's VP of Music Programming, tweeted after Waka's performance, "The show was going so well...and then Waka Flak-ed. Yeah. I said it. Waka. Flocka. Flamed. Out..."

When the exec was asked why he invited Waka to perform, he responded, "Like it or not, he's popular...wanted to give a shot #mistake."

Waka, was nominated for this years' "Rookie Of The Year" award, took to the stage for a performance of "No Hands" and "Hard In The Paint" before jumping off the stage into a crowd, an unrehearsed move.

Waka obviously caught wind of the exec's rant and issued a response of his own on Twitter, dubbing Hill "P***y Hill" warning him that he "kicks a**, he doesn't kiss it."

**BIRTHDAY MEMORIAM**

**SYDNEY MCCALLA, SR. 'MACK'**

It's been one sad and lonely year since you left us.

Each of us is given precious time to spend on earth. But we know the journey leads us to a home safer with God.

Sometimes the Father takes us down a path not of our choice, but when it leads to heaven, how our hearts and soul rejoice! And earthly cares all vanish when at last we hear God say, welcome home my precious child, I lead you all the way."

Sadly missed by your beloved Dulsie, Kareen, Kenielle and Stefan, and other relatives and friends.

**BIRTHDAY MEMORIAM**

**NATASHIA CHINON DALE**

Our Dearest Boobie, we love and miss you each and every day of our lives. Our thoughts are always of you and how special you were. Our lives are now so very different without you, but you will always be in our hearts.

In God's trust we will see you again "someday."

Loving you always: Mom, Dad, Brandon, Lesa, Leonardo, Jeff, Genine, Chris, Reese, Alex, Roman, Celine, Anthony and family.

**REMEMBERING**

**SARAH WALKER SIMS**

December 23, 1930 - October 9, 2009

To have, to love and then to part, is the greatest sorrow of our hearts. If all the world were ours to give, we would give it all and more; to see the face of the one we love, come smiling through the door.

May she always walk in sunshine, God's love around her; for the happiness she gave us, no one will ever know.

We miss you and love you. Your loving husband, Willie B. Sims; daughters, Arndreeta Harris and Carrie Nathan; grandchildren, great grandchildren, sister, nieces, nephews, cousins and all family members.

FLORIDA SENTINEL BULLETIN PUBLISHED EVERY TUESDAY AND FRIDAY
Teenager Shot While Waiting At Bus Stop

A teenager is recovering from a gunshot he received early Thursday morning. He was waiting at the bus stop with another juvenile when the shooting occurred.

According to the Hillsborough County Sheriff's Office, thirteen-year-old Algermon Green and another student were at 13402 Coastal Key Road, waiting at the bus stop. Shortly after 9:30 a.m., a four-door Nissan, possibly an Altima, occupied by two black males passed.

Green was taken to St. Joseph's Hospital, with non-life threatening injuries. He was shot in the forehead. Investigators were originally told by the victim that one of the occupants is alleged to have leaned out of the window with a gun and shot in the direction of the victim. The alleged shooters are said to have then fled the scene.

But as the investigation continued, police said discrepancies have developed in the victim and the witness accounts of how the shooting took place.

There was no additional information available at press time. However, the investigation is continuing.

Green and the unidentified witness are students at the North Tampa Alternative School, police said.

Murder Suspect Surrenders To Police

JODY GORDON

On Monday evening, Tampa Police report that a man walked up to the front counter at Tampa Police Headquarters, and told the officer he wanted to turn himself in for a crime.

The officer ran his name through the computer system and saw that he had a warrant for murder out of Broward County. The suspect, later identified as Jody Gordon, 41, was arrested and detectives in Davie, Florida were contacted.

According to news reports out of Davie, Florida, Maiya Nelson, 9, was inside a minivan with three other children and her mother, 32-year-old Shawana Newson.

Police report that Gordon arrived at an apartment complex in a car driven by a woman early Monday, and fired several shots into the mini-van. One of the bullets struck Maiya in the head.

Police said Newson, in an effort to escape the gunfire, drove to a nearby Publix Store to get help. Maiya was taken to a hospital in Hollywood, Florida and was pronounced dead.

Police said Gordon and Newson had been dating, and the shooting was likely the result of a violent argument they had the night before.

Authorities said after a series of hearings, Gordon will be extradited to Broward County to face first-degree murder charges.

Supermarket Burglarized Twice By Same Suspect

Tampa Police said that within a six-hour period Wednesday morning, Mega Supermarket, 4407 North Nebraska Avenue, was burglarized twice by the same suspect.

Police said the suspect broke into the store by smashing the front door glass with a rock. Surveillance video shows him taking cigarettes and other items, putting them into a backpack. The suspect tried covering his face with his shirt during the second burglary attempt.

The suspect is described as a Black male, 18 to 23 years old, 6 feet tall and weighing between 150 and 160 pounds.

Judge Rules Man Competent To Stand Trial

ANDRE WATKINS

On Wednesday, a judge ruled that Andre R. Watkins, 53, is competent to stand trial for murdering one person and wounding two others in February 2010.

On that day, Hillsborough County Sheriff's deputies said Watkins attacked a truck, killed 19-year-old Alyssa Arachiel, wounded two other people, and fired several shots at a neighbor.

After his arrest, Watkins had been evaluated and it was determined he was not competent to stand trial on the murder and attempted murder charges. However, a judge has now ruled that Watkins has been re-evaluated, and is now competent to stand trial.

Prosecutors said they will seek a jury less than an hour to find 19-year-old Kendrick Morris guilty of all charges in the 2008 rape and beating of a student outside a library in Bloomingdale.

The jury found Morris guilty of kidnapping, sexual battery with great force and aggravated battery with great bodily harm.

The jury listened to more than a week of testimony, and prosecutors left them with the image of an 18-year-old East Bay student who was the victim.

The victim suffered a broken nose, fractured skull, and was allegedly strangled. She lapsed into a coma and still cannot speak, walk, or remember what happened to her.

Morris had been found guilty last month for the 2007 rape of a daycare center employee. At that time, the judge said he would delay sentencing until the conclusion of the second trial. His first trial ended in a hung jury.

A new Supreme Court ruling states that since the crimes were committed when Morris was a teenager, he cannot be sentenced to life.

A sentencing hearing has been scheduled for next Tuesday on both rape convictions.

Argument Leads To Two People Being Shot

ST. PETERSBURG—St. Petersburg Police report that at 2:40 p.m. Wednesday, officers were called to the 2500 block of 3rd Avenue, South for a report of a person shot.

When officers arrived, they found Matthew Leaks, 19, with a gunshot wound to the foot. An earlier report indicated he was wounded in the hip and hand, but that was not the case. He was hospitalized with non-life threatening injuries.

Investigators said from the information they've received, a large crowd had gathered on 3rd Avenue, South when an argument started between several people who apparently exchanged gunfire.

Aside from Leaks, police said a second male was seen hobbling away from the scene after the shooting, possibly with a leg wound.

Police said it appears several shots were fired at the scene, and no suspects have been identified at this time.

Guilty Verdict Returned In Second Rape Trial

The Pure Poets Society and the Ybor Art Studio are hosting "Poetry With A Purpose," a contest that involves area students. Although the competition has started, entries are still being solicited and must be received no later than November 1st. Students, 8-17 years old, are required to submit their poem, rhyme, essay, video, or sketch about their thoughts on the environment for a chance to win a Dell computer, or one of many other prizes. An award ceremony will be held November 4th from 3 p.m. to 7 p.m. at the Ybor Art Studio, 2702 East 7th Avenue.

John Fisher, with the Ybor Arts Studio, said they will continue to distribute flyers with hopes of attracting more students to participate in the contest.

"We have six Dell computers that have been donated by Hillsborough Community College, as well as several sponsors who have provided us with gifts. We will also be setting up saving accounts for some students and provide them with $25.00 to open the accounts. We want to inspire children to continue expressing themselves through poetry."

Local Doctor Nominated
For Prestigious Award

BY LEON B. CREWS
Sentinel Staff

Dr. Husain Nagamia has been unanimously nominated by the Hillsborough County Medical Association Board (HCMA) to receive the prestigious Dr. Fredrick Reddy Award for 2010. The award was established in 2006 by the HCMA and is given on a yearly basis to a physician who exemplifies the ideals set by Dr. Fredrick Reddy, a past president of the association in 1994-1995.

Dr. Fredrick Reddy passed away July 27, 2005. Dr. Nagamia sees Dr. Reddy as an African American surgeon of exemplary qualities, who set the standards of compassion, generosity, philanthropy, and care given as an additional to his professional medical practice, one of excellence and dedication.

"Dr. Reddy was known for his bold new innovations and is remembered as the one that led the integration of the all-white "Ye Mystic Krewe of Gasparilla" in 1992."

Dr. Nagamia is a life member of the HCMA and has been practicing as a cardiovascular and thoracic surgeon for the past 34 years in Hillsborough County. He served as the chief of that departament at Tampa General Hospital in 2000-2002, and during his term, offered his services selflessly to all indigent patients admitted to his care.

"Dr. Nagamia was born in India, but migrated to the United States in 1970, to become a heart surgeon and did his training at the prestigious Boston University and Harvard School of Medicine. He became a U.S. Citizen in 1975."

Dr. Nagamia pioneered the annual Charity Festival in Tampa for the last 13 years. "The Charity Festival is a way of helping poor, indigent, and homeless residents. About 3,000 to 5,000 indigent people are fed annually at the festival."

"About 2,000 toys and bicycles are given away annually and distributed to deserving kids. Over 200 medical tests are also performed for free."

Dr. Nagamia has served as the President of the Florida Association of American Physicians from India, and is the past president of the Islamic Medical Association of North America. He presently serves as the chairman of the International Institute of Islamic Medicine.

There are many people who want to make a positive change in their lives, but often times do not know how. Many people make their life changes based upon the world’s standards only to discover that the world has changed again. If a person really wants to change, he or she needs to change, I recommend the Word of God.

Psalm 19:7-14, which is this week’s lesson, demonstrates the perfection of God’s laws and its ability to make a difference in the life of the believer. The writer writes that God’s laws, testimony, statutes, and commandments are perfect, sure, the best thing to help a person of one’s life can change. God’s word.

These are vital aspects of each individual’s life. God’s word. Its ability to make a difference in the life of the believer. The lightens the eyes makes the heart rejoice, and enables one to know that God is sovereign, and that the laws of God will protect and guide one through life. When it is all said and done, the law of God is valuable to the one who desires to change their life. The law is more desirable than gold and sweeter than honey. Honey is a natural sweetener. The word of God is sweeter than honey. The word of God is useful. God’s laws are clear and can be applied to any situation. God’s laws are written in a book, and are available to all people. The law of God is a rule, a code, and a standard that we can choose to follow or disobey. If we choose to obey the law in all areas of our lives, we will be blessed with the blessings that God has promised for those who obey his laws.

Red Cross Urges Apartment Fire Safety

Members of the Tampa Chapter of the American Red Cross respond to emergencies to provide help to the victims. Most of those emergencies within the urban areas pertain to house fires.

Fires that occur in multi-unit apartment buildings and high-rise units are especially injurious and cause more damage than all other structure fires, according to the National Fire Protection Association. The American Red Cross is urging residents to consider fire safety when choosing a place to live and is offering resources to empower renters to reduce their risk of fire.

The Tampa Bay Chapter is there to provide relief to those whose homes are affected by fires in Tampa Bay. But Tampa Bay is also committed to providing residents with vital preparedness information so they can take action to reduce their risk of home fires,” Ms. Linda Carbon, Chief Executive Officer, said.

In the first four days of October, the chapter has responded to six fires, opened 35 cases and served 52 clients.

The Red Cross recommends that all renters conduct an on-site inspection of the property before signing a lease to make sure there are no visible fire hazards and that fire safety equipment is present and in working order.

Renters should ask to see a copy of the building’s evacuation plan and find out who is responsible for maintaining the fire safety systems.

The American Red Cross shelters, feeds and provides emotional support to victims of disasters; supplies nearly half of the nation’s blood; teaches lifesaving skills; provides international humanitarian aid; and supports military members and their families.

Mt. Pleasant’s boys basketball team is really turning up the heat. The girls and boys basketball teams traveled to Dowdell Middle School on Thursday, October 7. The boys’ team was on a mission to defend its undefeated standing. We appreciate everyone for coming out and supporting our teams.

The next basketball games are scheduled for Tuesday, October 12 at Progress Village Middle Magnet. Game time is 6 p.m. (girls followed by boys). Go Diamonds!

Congratulations to Mt. Pleasant for winning the Dollar General Literacy Grant. This grant will help the school’s effort to take learning outside the classroom. Ms. Wynn stated, “The program will help students read to learn. Students will be able to link prior knowledge to text, improve critical thinking skills, and develop an appreciation for reading.”

The Diamonds went on a field trip to the Hillsborough County Center. Students attended the County Commissioners meeting and watched local government in action. Mrs. Mallard, social studies teacher stated part of the field trip was to increase students’ knowledge of how local government affects our days-to-day lives.

Thanks to all the parents that attended Parent-Teacher Conference on Wednesday, September 29. Our success as students depends on the strong communication maintained between school and home.

Each year new laws are passed on the federal and state levels. The laws generally take effect on January 1st, July 1st, and October 1st. This year, more than 30 bills became law at the beginning of this month. The laws range from changes in crime and punishment to traffic.

Although several states now have laws regarding text messaging while driving or cell phone use while driving, no legislation pertaining to cell phone use was signed into law during this legislative session.

Legislators will meet again in March 2011. Some representatives plan to introduce legislation pertaining to cell phone use at that time.

Some of the bills that went into effect on October 1, 2010, as well as others that took effect earlier in the year are reviewed below.

SB 0704 — Additional penalties can be imposed against a defendant if additional aggravating circumstances exist pertaining to an injunction or protection order related to a capital felony, if the victim is the original petitioner, or any spouse, child, sibling, or parent of the petitioner.

SB 0868 — Provides a person can be charged with first-degree murder if a person dies resulting from unlawful distribution of methadone by a person 18 or older when the drug is proven the cause of death of the user.

HB 0011 — Relates to offense against the homeless. The new law creates a definition for “homeless” and amends penalties to include offenses evidencing prejudice based on the homeless status of the victim.

HB 1455 — Prohibits a person from falsely representing himself or herself as a member of the U. S. Armed Forces or the National Guard for the purpose of solicitation of charitable contributions or participation in charitable or sponsor sales promotion.

The bill also prohibits a person from wearing the uniform of or any medal or insignia authorized for use by the military or veterans while soliciting for charitable contributions. The new law makes the violation a third degree felony.

Effective January 1, 2010

HB 1484 — This bill creates a Medicaid and Public Assistance Fraud Strike Force within the Division of Financial Services to oversee and coordinate state and local efforts to eliminate Medicaid and public assistance fraud and to recover state and federal funds. The Strike Force serves in an advisory capacity to the Chief Financial Officer. It will consist of 11 members.

Sex Offender And Predator Laws Effective May 2010

HB 0119 — On May 26th, HB 0119 that relates to Sexual Offenders and Predators went into effect. The legislation created a statute that prohibits loitering or prowling by certain offenders within a specified distance of places where children are congregating; it also prohibits certain actions toward a child at a public park or playground; and it prohibits certain offenders from being present at a childcare facility or pre-K through 12 schools without notice and supervision.

Effective January 1, 2010

SB 1012 — This bill defines the term of “ordinary medical care” for Department of Juvenile Justice facilities. It ensures that effective delivery of health care services are provided to children in the care and custody of DJJ.

HB 0951 — This bill deals with the sale and delivery of firearms. This legislation creates a new subsection that allows a person who has been so adjudicated to petition the Circuit Court that made the adjudication or commitment, for relief from the firearm disability. A copy of the petition must be served on the State Attorney.

HB 0615 — Permits the state attorney to request the sentencing court to reduce or suspend the sentence of a person who has been convicted of any felony and who provides substantial assistance in the identification, arrest, or conviction of any accomplice, accessory, co-conspirator, or principal of that felon or another felon. The law provides that the judge may reduce or suspend sentence if the judge finds that the defendant rendered substantial assistance.

HB 1493 — Went into effect on July 1st and provides that a person can be charged with a first-degree misdemeanor if he or she performed specified acts with the intent to assist a career offender if that person is being sought by law enforcement to question or to be arrested.

HB 0525 — Eliminates statutes of limitations to the institution of criminal or civil actions relating to sexual battery on a child if the child is less than 16 years of age at the time of the offense.

Effective September 1

HB 0971 — This bill allows that a person who has had his driving privilege permanently revoked because of 4 or more DUI convictions, may, 10 years after the date of the last conviction or the expiration of 10 after the termination of any incarceration for DUI, whichever is later, petition the Department of Highway Safety & Motor Vehicles for reinstatement of their driving privileges.

New Tattooing Law Effective January 1, 2012

HB 0729 — Goes into effect on January 1, 2012. It prohibits the practice of tattooing except by a licensed person of registered DOH. It provides penalties involving violations of tattooing, and prohibits tattooing of a minor except under certain circumstances.

October Is National Breast Cancer Awareness Month

What Causes Breast Cancer?

Although the exact causes of breast cancer are still unclear, doctors do understand the main risk factors.

Family

A woman whose mother, sister, or daughter has had breast cancer is two to three times more likely to develop the disease, particularly if more than one first-degree relative has been affected.

Age/Race

Generally, women over 50 are more likely to get breast cancer than younger women, and African-American women are more likely than Caucasians to get breast cancer before menopause.

Estrogen

The greater a woman’s exposure to the hormone estrogen, the more susceptible she is to breast cancer.

Diet

Obesity is a noteworthy risk factor, in postmenopausal women, because obesity alters a woman’s estrogen levels.

Alcohol

Drinking alcohol regularly—more than 2–3 drinks a day—may also promote the disease.

Symptoms And Risks

Not To Be Ignored

• A painful lump or thickening in the breast tissue.
• Changes to the skin covering your breast.
• Changes to your nipple.
• Discharge from your nipple.

5. You Carry Your Entire Life In Your Purse.

Fix: First, carry the lightest bag possible. Alternate which shoulder you carry the bag with from day to day, and consider splitting your stuff between two bags (one for each arm), which will painproof your load by distributing it more evenly.

Fix: When you do replace your mattress, pick one that’s not too squishy or too hard.

7. You Have A Thing For High Heels Or Flip-Flops.

Fix: You don’t have to forgo trendy footwear—just don’t walk long distances in them. Commute in comfy flats or supportive sneakers, and consider adding cushioning inserts to uncomfortable shoes.

8. You Hold A Grudge.

Fix: Forgiveness isn’t a once-and-done act; it involves choosing, again and again, to replace anger and resentment with understanding.

Fix: Sometimes even just re-arranging the physical space in your life can help. Then you can prioritize ways to calm down each day, be it exercising, laughing with a friend or partner, reading a good book, etc. One particularly helpful therapy is listening to music.

10. You Watch Too Much TV.

Fix: Limit TV to shows you really want to watch, instead of idly channel surfing. And instead of fast-forwarding through commercials, do some stretches or strength moves during the breaks, which will prevent muscle strain from sitting still too long.

Habits That Are Hurting Your Back

1. You’re Glued To Your Desk.

Fix: Make sure your office chair supports the curve of your spine and your lower back. Also, get up and walk around for a couple of minutes every half hour.

2. You Have A Long Commute.

Fix: Be sure you sit at a 90-degree angle, close to the wheel so you don’t have to stretch. Extending your leg puts your back in a compromised position, but many people don’t even realize they’re doing it.

Fix: Most sufferers would benefit from more exercise—particularly frequent walks, which eases stiffness. For instant relief, stretch your hamstrings and hips.

4. You’re Not The Healthiest Eater.

Fix: Avoid excess caffeine and processed foods. Eat more whole grains, soy, nuts and seeds, protein (chicken, fish, lean meat), vegetables and fruit.

Heart Disease

Healthy monounsaturated fats in peanuts and peanut butter may lower LDL (“bad”) cholesterol.

By eating 1 tablespoon or 1 ounce of peanut butter, five times a week, you are 44% less likely to develop heart disease.

Eat To Beat Bad Moods

The Blues

Carbs — Carbohydrates help increase concentrations of the neurotransmitter serotonin in your blood, lessening the effects of depression.

Black-Eyed Peas - Legumes (Black-Eyed Peas in particular) deliver folate, which leads to the development of new brain cells which transfers information faster. This makes it easier to react to whatever your day throws at you.
Family Commitment

"In family life, love is the oil that eases friction, the cement that binds closer together, and the music that brings harmony." - Eva Burrows

PART II

Wining families also understand that each family member adds value to the family unit as a whole. Whenever someone in the family is not operating up to their potential, the family is missing out on what they have to offer because every person, in every family has a purpose for their existence. So the family commits to ushering each other to greatness.

I like the way Brad Henry puts it, our "Families are the compass that guide us. They are the inspiration to reach great heights, and our comfort when we occasionally falter."

As I close remember that every family has some failure in the way they function, but stay committed to positioning your family to win by standing the storms and communicating through the chaos.

Ed Welburn, GM Global Design Leader: A Remarkable Man Doing A Remarkable Job

BY CATHERINE KELLY
(Publisher – The Michigan Citizen and Special Contributing Editor to the NNPA)

Innovative design, understanding, and the importance of diversity are guiding philosophies for General Motors Vice President of Global Design, Ed Welburn. "Exposure, reading, travel, whenever possible...and don’t be afraid to take risks," says Welburn about the preparation for living and working in an increasingly global world.

Since 2003, Welburn, 59, is only the sixth design leader in General Motors’ history and leads what may be the largest design organization in the world. He leads 10 design centers in eight countries and manages 1,500 creative personalities.

After the well-publicized news of General Motors’ financial woes, subsequent bailout and new stock offering, the company is maintaining its commitment to design. Welburn, one of the highest-ranking Black automobile executives in the world, says much of his inspiration comes from his background.

Welburn received his art training from Howard University in Washington, D.C. “Life began to open up quite a bit for me when I went to Howard University. The School of Fine Arts was a fascinating place [to be.] Art, music and drama...with students like Debbie Allen, Roberta Flack, Phylicia Rashad and Donny Hathaway,” said Welburn in an interview with the Black Press.

Welburn said studying sculpture at Howard made his drawings much “looser” and him a better designer. “Some of my favorite courses were the life drawing classes. Some of my first drawings were stiff and mechanical but by the time I left, my work had more emotion, passion...good car design has passion.”

Along with his everyday work, Welburn is still involved in the arts. Welburn believes that creativity offers value and opportunity. While many parents may encourage their children to stay on more traditional career paths, he believes there is opportunity in creative fields such as design.

Welburn, who regularly travels to Brazil, Columbia, Argentina and China, also says cultural fluency and diversity are important. Although, it’s sometimes hard to try new things, adventure and being open-minded are important aspects of his work.

Welburn says the future of General Motors is in global collaboration. “It is the future,” says Welburn.

Gunman Kills Self, 1 Other, And Wounds 5

GAINESVILLE -- A gunman who had a history of mental illness fatally shot one man, then drove through his Gainesville neighborhood on a 13-minute shooting spree that wounded five others before killing himself.

Gainesville police Cpl. Tscharna Senn identified the gunman as Clifford Miller Jr., 24.

The shooter was targeting specific people at each location and shot the men he was looking for, Alachua County Sheriff’s Office spokesman Lt. Steve Maynard said. Multiple rounds were fired at each spot, and one gun was found with the shooter.

Court records show Miller had a lengthy criminal history.

In 2010, an Alachua County judge declared him incompetent to stand trial on a criminal mischief and petty larceny case. That same year, Miller was also deemed mentally or physically unable to stand trial on reckless driving and resisting an officer charges. His criminal record also included a conviction for felony possession of a weapon of mass destruction and attempting an act of terrorism.

The American citizen originally from Pakistan told the court before his sentencing, "Brace yourselves, the war with Muslims has just begun," and added that the defeat of the U. S. is “imminent.”

Shahzad was arrested on May 3 while attempting to board an International flight out of John F. Kennedy Airport.

His arrest came just two days after authorities found a crudely made car bomb inside a smoking Nissan Pathfinder in the middle of Times Square.

Making This Right

I was born in New Orleans. My family still lives here. We have to restore the Gulf communities for the shrimpers, fishermen, hotel and restaurant owners who live and work here.

No oil has flowed into the Gulf for weeks. But we know this is just the beginning of our work. BP has taken full responsibility for the cleanup in the Gulf and that includes keeping you informed.

Restoring Gulf Communities
We can't undo this tragedy. But we can help people get back on their feet. We have been working with impacted communities since day one.

Partnering with local governments and community organizations, my job is to listen to people's needs and frustrations and find ways to help. We have 19 community centers and teams in four states, listening and helping.

Restoring The Economy
BP is here in Gulf communities with shrimpers, fishermen, hotel and restaurant owners, helping to make them whole.

More than 120,000 claim payments totaling over $375 million have already gone to people affected by the spill. We have committed a $20 billion independent fund to pay all legitimate claims, including lost incomes until people impacted can go back to work. And none of this will be paid by taxpayers.

BP has also given grants of $87 million to the states to help tourism recover and bring people back to the Gulf beaches.

Restoring The Environment
We're going to keep looking for oil and cleaning it up if we find it. Teams will remain in place for as long as it takes to restore the Gulf Coast.

And we've dedicated $500 million to work with local and national scientific experts on the impact of the spill and to restore environmental damage.

Thousands of BP employees have their roots in the Gulf. We support over 10,000 jobs in the region and people here are our neighbors. We know we haven't always been perfect, but we will be here until the oil is gone and the people and businesses are back to normal. We will do everything we can to make this right.
