Since its opening in September of 1960, the University of South Florida has been in constant motion. When USF was founded in 1956, it was placed in one of Florida's most dynamic and prospering metropolitan areas. It was given the awesome responsibility of providing higher education services to the people within a fifteen-county area.

The four campuses form a network along the West Coast of South Florida. They provide an optimal environment for academic pursuit to more than two million people.
Many changes have occurred during the past 28 years. An increase in enrollment of students, staff, and faculty from that of 2000 to one now of greater than 25,000 has shown a motion towards USF's motto of "Accent on Learning." As a result of this movement, additional campuses were constructed at St. Petersburg, Sarasota and Fort Myers. Recent building and improvement at all four campuses has been required for USF to maintain its pursuit of knowledge.
Students are also continually in motion. They spend hours within the classroom and in studying each day. Many students find jobs as store clerks, office helpers, and waitresses or waitors to further occupy their time. Some even find time to participate in sports, clubs or hobbies. With whatever time is remaining, the Tampa Bay area offers students a wide selection of activities in which to participate.
Modon by the Ocean
The University of South Florida was conceived and constructed in the 20th Century and is meeting the needs of the 20th Century. A look ahead indicates that USF is still in motion by our ocean and is progressing towards a better future.
Student Life

by: Julie Gonzales
Rob King
Student Life

The Tampa Bay area offers an abundance of activities available to the University Community. The numerous beaches and pools that exist in the area permit students to relax, visit with friends or just take in the sun. A day of fun and enjoyment can be found at various attractions which include Busch Gardens, the Hillsborough River State Park, Ybor City and the local museums. Night clubs offer an evening of dining and dancing. The Rowdies, Bandits, Buccaneers and other professional teams which have their spring training in the area provide year-round sports entertainment. With these and many more attractions, the Tampa Bay area offers something for everyone.
Fun in the Sun

Homecoming was a time of festivities, spirit and partying. This year’s theme “Fun in the Sun”, was a perfect choice because Homecoming Week was highlighted by excellent weather and a lot of fun.

A benefit basketball game between the USF Greek All Stars and the Residence Halls kicked off the celebrations for Homecoming. The Homecoming Show featuring singer Marilyn McCoo and comedian David Brenner drew a very large crowd. The Bulls delighted the crowds with a Homecoming victory by defeating the University of North Carolina-Charlotte. A parade, festival, pep rally, bonfire, Alumni Bull Roast, Bud Light Bull Stampede and King and Queen Fashion Show highlighted the rest of the Homecoming Week activities.

Doug Trueblood and Valerie Vasti were crowned the Homecoming King and Queen and presided over the week’s events.
Page 16: TOP RIGHT: Homecoming King and Queen, Doug Trueblood and Valerie Vasti reigned over the parade. FIRST and SECOND CENTER RIGHT: The parade featured various USF and community organizations. BOTTOM RIGHT and TOP LEFT: Decorated cars and floats paraded around the campus. BOTTOM LEFT: Coach Lee Rose demonstrated his spirit during the half time intermission. Page 17: TOP LEFT: Runners in the Bud Light Bull Stampede Road Race competed for the top positions in the 5000 and 10000 meter races. TOP RIGHT and MIDDLE RIGHT: The Greeks turned out in full force, demonstrating their never ending spirit. BOTTOM RIGHT: Singer Marilyn McCoo entertained a packed house during the show. BOTTOM LEFT: A USF cheerleader and the USF Mascot cheered the Bulls on to victory.
The Flea Market

The Flea Market, held every Wednesday on the Martin Luther King Plaza, offers vendors an opportunity to sell low-priced, quality goods to the USF community. Plants, jewelry, artwork, sports wear, books, tapes, records and posters are just a few of the items one can find there. Student organizations also make use of the Flea Market as money raising events or to pass out literature and information. Various special events also occur during the Flea Market. These include mini-concerts, public speeches and pep rallies.
USF Productions

The College of Fine Arts offers the University and the Tampa Bay communities a wide variety of cultural activities. Each semester the departments of Art, Dance, Music and Theatre combine the talents of a distinguished faculty and students from both the performing and visual arts to provide a comprehensive series of events representing a broad spectrum of artistic creativity.

The Department of Art sets up exhibits in various buildings around campus to display the works of students, faculty and well-known artists. Shows by George Pappas and MFA candidates were only a few of those seen this year.

The Department of Music offers a variety of programs, such as performances by the USF Symphony Orchestra and the USF Wind Ensembles. Other performances included those by the faculty in the form of recitals and chamber music concerts.

The Department of Theatre and Dance present various productions each semester. Some of the Theatre productions included the plays "The Diviners" and "Orpheus Descending." Dance productions, such as the Fall Studio Performance and the USF Dance Ensemble Concert, included performances which span the dance spectrum from classical to modern works.
Children’s Festival

Each year, the College of Education sponsors a Children’s Festival open to the children of Hillsborough County. This year’s festival attracted more than 5000 children and adults. The children, ranging from 2 to 14 years of age, participated in creative activities designed for fun and learning. Activities were provided to involve both parent and child interaction. Events offered at the festival included jazzercise, clown-face painting, obstacle courses, finger printing and various arts and crafts projects.

Expo ’84

This year marked the 12th anniversary of the Engineering Expo. The annual event was originally started by Dolly Gooding to climax Engineering Week. The Expo which was started as a one-day event has now been expanded to two days. USF students and staff, local school children and the general public are invited to participate in the event. The Expo offers student organizations and local and national companies a chance to exhibit and display recent innovations in engineering and technology. The exhibits ranged from computers programmed to play games and print out calendars to talking with Cecil the Robot. Demonstrations such as rappelling by the Army ROTC and operation of the hovercraft highlighted the day’s activities.
OSP Presents

The purpose of the Office of Student Programming (OSP) is to provide quality entertainment for the USF community. OSP concentrates its efforts in music and film entertainment.

Ongoing programs such as the New Slappy Hour in the Empty Keg and the OSP Film Series are quite popular, along with big name concerts and special events which are offered each semester.

The New Slappy Hour, the Cavern Club, Time Out and Video Disc Jockey features bands and groups which play a variety of music ranging from New Wave and Top 40 to Jazz and Blue Grass.

OSP offers a variety of movies in its OSP Film Series. Movies such as "Star Trek," "Alien," "Risky Business," "Reds" and X-rated films are offered to satisfy the tastes of the movie-goers.

The Andre Cymone Concert and the Final Exam Jam are only a few of the concerts the OSP offers each semester. Special events, such as Thriller Night and Halloween Ball on the Mall, are sponsored by the OSP with the assistance of other campus and community organizations.
The University Center

The University Center (UC) could not be more appropriately named, for it is the center of University life as USF. Located at the heart of the campus, it serves as a focal point of daily activity for students, faculty, staff, alumni, guests and visitors. It provides a multitude of facilities, services and programs designed to enhance the social, cultural and recreational life of the University.

The UC has meeting and conference rooms available for use by student organizations and provides facilities for the various services which it offers. These include the recreational areas and various student organization offices. A ballroom is available for social and formal activities. It has special lounges for relaxation and a gallery for exhibition of student art work. An information desk, cafeteria, snack bar, bookstore and health service are also located within the building.

Something for everyone is found in the basement of the UC. Located here are the TV lounge, game room, craft shop, bike shop, vending machines and photography lab. In the TV room one can relax and watch their favorite soap opera or show. In the game room, patrons are invited to test their skills at billiards, table tennis, darts, chess, checkers, cards, football and the latest in pinball and video machines. The craft shop offers those with creative talents a place to experiment and create in areas such as leather making, ceramics and macrame.

The weekly flea market and special events are staged primarily around the UC for increased participation and input. The University Center Activities Board functions as the organizer for these special events. Lectures, concerts, talent shows, leisure classes, tubing and white water rafting are just a few of the programs available. With assistance from other organizations, the board is able to sponsor a variety of special activities. These include events such as the Valentines Party and the "Spirit of Tampa Bay Cruise."
Organizations

by: Kathy Morrell
Student organizations provide the backbone of University social life. They create an outlet for social service and involvement within the University and the Tampa Bay community. There are over 300 different organizations formed to meet the wide variety of interests at USF. Included in these organizations are those which are oriented to academic majors, departments and colleges; groups which provide programs, information and governmental experience; and associations of students with a common interest in specific ideological, recreational and technical areas of special concern.

by Eric Taylor
President John Lott Brown is the University of South Florida's third president. He came to USF in 1978 with a background in psychology and visual science. His duties and responsibilities vary from day to day. From meetings with the faculty and his staff to public celebrations, such as officiating at the annual graduation ceremonies and being the Grand Marshal of this year's annual Gasparilla Parade, he is on the move continually. He creates a lot of motion by our great ocean.
The administrators serve with President Brown as the principal policy making officials for the University. TOP LEFT Steven G. Wenzel, Vice President for Employee Relations & Legal Affairs. CENTER LEFT Gregory M. O’Brien, Provost of USF. BOTTOM LEFT Joseph F. Busta, Vice President for University Relations. TOP RIGHT Albert C. Hartley, Executive Vice President. BOTTOM RIGHT Daniel R. Walbolt, Vice President for Student Affairs.
The College of Arts and Letters is housed within the Russell Cooper Building. The College offers its students a sense of themselves and their world through courses and programs involving human expression and communication. The College itself is made up of nine departments: Communications, English, American Studies, Foreign Languages, Humanities, Mass Communications, Philosophy, Liberal Studies, and Religious Studies.

Many different foreign language groups along with the Oracle and the 20th Century Yearbook have their offices here as well. This year a new computer terminal room, the Carleen Scutieri Computer Center, was opened to provide for student computer needs.

The College offers nineteen fields from which to obtain a bachelor’s degree.

The dean of the College of Arts and Letters is James Strange.
Chester H. Ferguson Hall with its modern design is home to the College of Business Administration. The programs offered through the College are designed to prepare the students for careers in business and public service.

The College concentrates in the areas of Accounting, Economics, Management, Finance, Marketing, International and General Business.

Professional and honorary societies within the College enable the student to develop both professionally and socially.

Dean of the College of Business Administration is Robert G. Cox.
The College of Education concentrates its efforts on teaching its students what is relevant in today's world and getting involved in their own educational process. There is special concern within the College for developing in the student a deep interest in intellectual inquiry and the ability to inspire this interest in others. Many educational societies and associations are available to the student who wishes to participate. An annual event, the Children's Festival, is sponsored by the College and provides enjoyment for the students and the children of the community.

The College offers programs leading to the bachelor of arts degree in 26 fields. Dean of the College of Education is William Katzenmeyer.
The College of Engineering is a growing college of students working toward the betterment of our technological future.

The College insists on a strong foundation of engineering classes to best prepare its students with a broad base of fundamental and technical knowledge.

The programs offered by the College have been developed with an emphasis on three broad aspects of engineering activity — design, research and the operation of complex technological systems. The College offers 16 degree programs from its five departments.

Each year the College holds a festival, open to the entire community, called the Engineering Expo. Numerous displays and exhibits highlight the event demonstrating the latest developments in science and electronics.

The dean of the College is Glenn A. Burdick.
The College of Fine Arts offers programs of study, theatres of practice and programs of events for the University and the surrounding community. The College offers its students an opportunity to enrich and enhance their creative talents.

A broad selection of courses and degree programs are found in the departments of Art, Dance, Music and Theatre.

Students can become involved in the Fine Arts Events program which features a variety of local and international talent, offers exhibitions and shows films.

Faculty and student productions are presented each semester for both the University and the Tampa Bay Community.

August L. Freundlich is the Dean of the College.
Integrity, character, motivation and dedication are some of the qualities required of medical students. Students seeking a M.D. degree from the USF College of Medicine must complete a minimum of three years of pre-med college courses and pass the Medical College Admission Test.

The students in this College strive to upgrade the health care standards in the community and to become an integral part of university life. They continually learn new ideas, procedures, methods and techniques which improve their medical knowledge. The curriculum provides a close and on-going experience for the student in the day to day health care system.

The Dean of the College of Medicine is Andor Szentivanyi.
The students in the College of Natural Sciences are trained in methods of logical analysis and the modes of experimentation in a continuing attempt to better understand the nature of man and his relationship to the universe. The College is dedicated to fostering a spirit of inquiry and intellectual growth.

The College offers programs in Biology, Microbiology, Botany, Zoology, Chemistry, Biochemistry, Geology, Marine Science, Mathematics, Physics and Medical Technology. These programs are designed for students planning scientific careers in these fields or for those planning professional careers involving the components of science.

The College has a planetarium, a botanical garden and a comstar satellite.

The Dean of the College of Natural Sciences is Leon Mandell.
The College of Nursing is committed to the improvement of nursing and health care services through educational programs, community service and research activities.

The program provides two curricula: one for non-nurses and another for registered nurses who are graduates of diploma or associate degree nursing programs.

The practice of professional nursing involves problem solving and decision making based on knowledge from the humanities, natural sciences and the behavioral sciences.

The Dean of the College is Gwendoline R. MacDonald.
The College of Social and Behavioral Sciences is concerned with human beings and their development, problems, behavior and institutions. The study of man helps the student to understand the world of which he is a part, to become a more informed citizen and to prepare for a role in society. The social and behavioral sciences provide the student with knowledge, experience and background for future application in business and industry, government, human service professions and further education.

The College offers fifteen fields of study, leading to a bachelor's degree.

The students also have the opportunity to react and interact with others through the various organizations and honor societies of the College.

The Dean is Wallace A. Russell.
USF at Fort Myers, established in 1974, has come a long way. It was originally located in downtown Fort Myers, in the Gwynne Institute Building, but is now located on a 55-acre site adjacent to Edison Community College. Since Edison and USF share the same facilities and services, students are able to complete their first two years of undergraduate study at the Edison campus and then complete their degrees at the USF campus.

Upper level courses and bachelor degree programs are offered in Business, Teacher Education, Nursing and Liberal Arts. Graduate programs in Business and Education are also offered.

Linda Lopez McAlister is the Campus Dean.
USF at Sarasota was established in 1975. It is located on a 100-acre site in north Sarasota, which includes the former waterfront estate of Charles Ringling. The elaborate Ringling Mansion is now home to the campus library.

US 41 bisects the campus into the East Campus and the Palmer Campus. Located on the East Campus is the Hamilton Student Center which serves as the center of activity for students and others in the campus community.

Upper level courses and baccalaureate degrees are available in Education, Fine Arts, Arts and Letters, Natural Sciences, Business Administration, Social and Behavioral Sciences and Nursing. Several graduate programs are also offered.

Sarasota is also home of the New College. It is a residential liberal arts honor program. It is designed for students who seek the atmosphere of a small college with its accompanying individual instruction.

The Campus Dean is Robert V. Barylski.
USF at St. Petersburg or the Bayboro Campus was established in 1968. It was originally housed in the former Merchant Marine training facility and is the oldest regional campus.

It is now located on a 24-acre site on Bayboro Harbor in downtown St. Petersburg. It is within walking distance to many cultural and recreational facilities, such as the Bayfront Center and the Salvador Dali Museum.

The campus is currently undergoing extensive expansion and construction.

The campus is gaining national recognition for its marine science program. It is also home for the Florida Institute of Oceanography, a special research institute for the State University System.

The St. Petersburg campus offers upper level courses and bachelor degrees in Accounting, English, Business, Elementary Education, History, Psychology, Management, Political Science, Engineering Technology and Criminal Justice. Graduate programs are available in Business, Teacher Education, and Rehabilitation Counseling.

John Hinz is the St. Petersburg regional Campus Dean.
Graduation

Graduation highlights a special event in everyone’s life. It is the climax to four or more years of hard work to obtain one’s degree. It signifies a turning point in one’s life. Many paths are now open, but the decision and choice is up to you. Dr. James L. Fisher, the Soring Commencement speaker, urged the graduates “to go out and make a life for yourself, not just a living. You can do and be virtually anything you want to be. Be as bold as you are educated.”

Honored during the Commencement ceremonies were Dr. Navita Cummings James, the Senior Class Outstanding Professor Awardee, and Seniors Dorothy Loomis and Kim Pena, who received the Outstanding Senior Award for the Winter and Spring ceremonies.
Torchlight

The Torchlight Ceremony is a special ceremony held the night prior to the actual Commencement Ceremony. The candlelight event is held to symbolize the future course of a senior's life. The candles symbolize the awakening to knowledge and goals that the seniors have set for themselves. It is an event at which the seniors have an opportunity to wear their newly acquired caps and gowns for the first time. It is also a chance for the senior's friends and relatives to gather together to celebrate the momentous occasion.

The Outstanding Senior Leaders and the Faculty Honor Guard are announced for the first time. The Outstanding Senior Special Award is also presented to its recipient. The 1984 Awardee was Jay Patouillet.
University of South Florida Alma Mater

Hail to thee, our Alma Mater
May thy name be told,
Where above thy gleaming splendor,
Waves the green and gold.

Thou our guide in quest for knowledge
Where all men are free,
University of South Florida
Alma Mater, Hail to thee!

Be our guide to truth and wisdom,
As we onward go.
May thy glory, fame and honor
Never cease to grow.

May our thought and prayers be with thee
Through eternity,
University of South Florida,
Alma Mater, Hail to thee!
Outstanding Senior Leaders

The following Outstanding Senior Leaders for 1984 were chosen on the basis of their honors, academic success, leadership ability, personal integrity and their participation and involvement in campus and community activities.

Julie Bjorklund  Kim Pena
Alisa Goldsmith  Allen Stalvey
Miguel Ortiz  Douglas Trueblood
Jay Patouillet  Valerie Vasti
Marty Pelham  Jane Wilson

Faculty Honor Guard

The Faculty Honor Guard was selected by the Senior Class of 1984. The following faculty were chosen on the basis of their ability to involve the student in the learning process, develop the student's potential, be fair and just, and communicate learned knowledge effectively to their students.

Dr. Robert L. Anderson  Dr. Navita C. James
Dr. Jack W. Belt  Dr. Bernard Lax
Dr. Max C. Dertke  Dr. Arthur B. Levy
Dr. Jack E. Fernandez  Dr. Wiley P. Mangum
Dr. Juanita L. Garcia  Dr. Carleton E. Nelson
1983-1984 Bulls
Basketball

The 1983-1984 Basketball Season was very impressive. The Bulls played twenty-three inter-sectional and Sun Belt Conference games, three tournaments and one exhibition game against the Czechoslovakian National Team.

With an overall record of 17-11 and a Conference record of 9-5, the Bulls were ranked fortieth in the nation. The Bulls had a successful season with wins over teams such as Texas A&M, University of Alabama-Birmingham, Niagara, Old Dominion and University of North Carolina-Charlotte.

USF placed first in the Miller High Life Classic and third in the Sun Belt Conference Tournament. Charlie Bradley was named the Most Valuable Player in the Invitational.

Charlie Bradley and Jim Grandholm were both chosen during the season as Sun Conference Player of the Week. Bradley also led the Conference as leading scorer with an average of 22.3 points per game. Grandholm was also honored with the Variety Club Award for his achievements in sports and his involvement with the USF community.

The Bulls during their final game honored Seniors Jim Grandholm, Keith Douglas and Dave Bastian as they retired from USF basketball play.

Coach Lee Rose feels that the team has come a long way, but they still have a way to go. However, if there is a continuation of the support that was shown during this year, the Bulls will surely give the fans something to be happy about.
Basebulls

The 1983-1984 Baseball Team had a tough but successful season. They placed fourth in the West Division of the Sun Belt Conference Tournament and ended the year with a 35-25 record. The Bulls, coached by Robin Roberts, were ranked 29 in the nation. Another achievement for the Bulls was their record-breaking attempts in areas such as most double plays and home runs. Bull players Tony Alfonso, Ralph Gali and Jerry Comellas also set records in most games hitting streak, most grand slam home runs and most straight pitching victories.

Comellas was honored with the MVP Al Lopez Trophy and Mark Rose received the Outstanding VFY Award.
Soccer

The 1983-1984 Bulls were a determined and experienced squad. The Bulls began their season with an impressive ten game winning streak, overcoming such teams as Central Florida, Eckerd and Flagler. The team, under the direction of head coach Dan Holcomb and assistant coaches Derek Smethurst and Ken White, included six seniors, eight juniors, three sophomores and seven freshmen.

Although the squad did not fare well in the Sun Belt Conference Tournament, they did take the championship in the South Carolina Invitational. Forward Roy Wegerle was named the Most Valuable Player for the Tournament. Wegerle, Kelvin Jones, Raymond Perlee and Rosario Giambrone were named to the Invitational’s All Tournament Team.

USF ended their season with a 15-4-1 record. They were ranked 4th in the Southern Region and 17th in the Nation. Despite USF’s outstanding record, the team did not receive a bid to the NCAA games.

All-American Roy Wegerle was selected as USF’s Outstanding Male Athlete of the Year for 1984.

During the last game of the season, the Bulls paid tribute to their six seniors, Shaun Clinton, Arnold Corneal, Garnett Craig, Rick LaBrode, Andy Houghton and Nigel Armorer-Clarke, who made their final appearance in USF uniform.
Cross Country

Improvement over last year was the main accomplishment of the Bulls Cross Country team.

The team has been in existence now for six years, but each year the coach, Jerry Slavin, and his players gain the experience needed to have a noticeable effect on the team's rank.

The Bulls ran for a first place title in the Run for the Stars Invitational, a second in the Florida Invitational and a third in the Sun Belt Conference Tournament.
Men's and Women's Tennis

Winning the Sun Belt Conference and bringing the cup back to USF the goals of both the Women's and Men's tennis teams this year. The teams practiced three to four hours a day and played in many tournaments during the fall months to prepare for the Spring season.

The schedules for both the Bulls and the Brahman were very tough and included teams that were ranked nationally in the top twenty.

Bulls Head Coach Bill Perrin described his squad of three newcomers and five veterans as a tough and solid team. They finished the season with a record of 16-8, beating teams such as Old Dominion and Western Carolina. The Bulls also played in numerous tournaments during the season. They placed first at the Florida Intercollegiate Championship and second at the Sun Belt Conference Tournament.

Necvet Demir earned the honor as USF's top singles player. Juan Roura was chosen as USF's Outstanding Scholar Athlete of the Year.

The young but talented Brahman Tennis Team consisted of five veterans and four newcomers. Under the coaching of Sherry Bedingfield, the team amassed an outstanding record of 27-10 and was ranked 14th in the nation. The Ladies also had an impressive record in tournament play. They took the championship position in both the Clemson Invitational and the Sun Belt Conference Championship. They beat such teams as Clemson, Georgia, Oklahoma State, Old Dominion and the University of Alabama — Birmingham. They are the first Women's Tennis Team to be extended an invitation to the NCAA National Championship.

Renee Tamborello was selected as USF's Outstanding Scholar Athlete of the Year.
Men's and Women's Golf

The 1983-84 USF Golf teams fared well in season play. The Men's team was under the direction of Coach Bob Shriver, while the Women's team was coached by Merry Blount.

The women had an impressive record. They were ranked ninth in the nation. They placed first at the Memphis State Invitation and the Peggy Kirk Bell Invitational and second at the Lady Tar Heel Invitational, the Pat Bradley Invitational and the Florida State Championship.

The Bulls also had a good season. They once again for the sixth time defended their Sun Belt Conference Title. They placed fifth in the Orange Lake Invitational, seventh at the Seminole Golf Classic and at the Pepsi-Budweiser-USF Classic and eighth at the Hall of Fame Invitational and the Gator Invitational.
Swimming

The USF swimming teams were in top form as both men and women performed well on an individual and a team basis. Both teams faced a tough schedule competing against other teams such as Georgia State, University of North Carolina at Charlotte and University of North Carolina at Duke. Head Coach Bill Mann of the Bulls and the Brahmans led teams to season records of 9-4 and 7-5.

The women’s team had six swimmers qualify for the nationals. They also set two new national records and placed third in the NCAA. Alicia McHugh set a record in the 100-yard freestyle and the team consisting of McHugh, Nancy Bercaw, Merit Greaves and Maggie Mortell set a new record in the 400-yard freestyle relay.

Alicia McHugh received the honor of being named USF’s Outstanding Women Athlete for 1984.
Softball

For USF Softball Coach Hildred Deese, this year may have been one of her best seasons as she led the Brahmans to an overall record of 31-7.

The team also had an outstanding season in tournament play. They defended their championship title at the National Collegiate Women's Slowpitch Softball Tournament and the University of West Florida Invitational Tournament. They also placed first at the Jacksonville University Invitational Tournament and at the State Championship at Florida Southern College.

Leading the Brahmans in batting average, home runs and RBI's was USF's Anna Goodnough. Goodnough was also voted Most Valuable Player at the Jacksonville, West Florida and National Tournaments.
Women’s Basketball

Youth and a mixture of new and experienced players was what Coach Ann Strusz had to work with for the 1983-1984 women’s basketball season.

Besides being a young and inexperienced team, the Brahmans played a tough schedule with most of their opponents near the top of the division.

The ladies finished their season with a 7-20 record, with victories over teams such as Stetson, Florida A&M, and Alabama State.

For Coach Strusz and the team, it was a season for rebuilding. The Brahmans hope for a better season next year.
The 1983-1984 Brahman Volleyball team started the season on a slow pace, but made a strong comeback by the middle of the season to end with a record of 22-19. Head coach Hildred Deese worked the team, consisting of four veterans and nine newcomers, long and hard.

The squad took a first at the South Florida Round Robin Tournament and made it to the single elimination bracket in the Sun Belt Conference tournament.

Coach Deese commented that the team had problems, but felt that they had gained confidence and experience. With the entire starting squad returning, the Brahmans have high hopes for a better season next year.
USF Cheerleader

Providing the USF teams with spirit, the USF Cheerleaders and the Sun Dolls have spurred them on to many victories and have peppe them up after defeat. By encouraging crowd participation at pep rallies and spectator games, the squads have increased support for the USF teams.
USF believes that a complete education includes a proper balance of work and study with physical activity. Therefore it provides a variety of opportunities for active participation in recreational sports and competitive athletics. Multiple facilities including swimming pools, gymnasium, golf course, baseball and softball diamonds, track and soccer fields, and modern equipment are available to the USF community.

The sport clubs and the intramural sports program represent a broad selection of sports ranging from those of a highly competitive nature to those of a non-competitive type and include individual, dual, team and aquatic sports. Through participation, students, faculty and staff are provided an opportunity to increase their physical fitness.
The 20th Century Yearbook Staff would like to extend its sincere thanks to the following people and organizations for their help and support in the production of this publication:

The Alumni Association
Educational Resources
The Oracle
Kathy Carty
Marlene Gonzalez
Feliz Gonzalez
Ricardo Gonzalez
Lynn Ledford
Dawn Livingston
Phyllis Marshall
Andree Martin
John Renneker
Lillian A. Perzia
Leo Stalnaker, Advisor
Special Thanks

As this school year draws to an end, it gives me a chance to look back and reflect on the past few months.

Since so much has occurred over the past ten months, it was difficult to find space within the book to cover all the events. As a result a great deal of time, effort, sacrifice and cooperation was required to put together this publication.

As the year progressed, the ranks of our staff diminished. We finished the book with a total of seven dedicated and loyal members and one "slightly" worried advisor. But thanks to our advisor Leo Stalnaker for his continual support, we were able to complete the book on time.

I would like to once again thank all the concerned people who helped so much in putting together this book. We couldn’t have done it without you. You will always have my deepest appreciation.

Sincerely,

Julie Gonzalez
