New Middleton High School Principal Has Special Tie To Classic Game

BY LEON B. CREWS
Sentinel Staff Writer

There is no rivalry in high school football that can come close to the annual Blake-Middleton game. For the African American community, this game means more than just wins and losses. It is one of the few remaining parts of Black history in Tampa that hasn’t been destroyed.

For new Middleton High School principal, Owen Young, the game holds a special place in his heart.

Not only was Young a student at Middleton when it was a middle school, his dad, Arthur Green, is a Middleton alumnus from the era when the rivalry was at its peak.

"I'm very clear about the competitive nature of the schools. Although some students don't know the history, there was a lot of love between the two schools in spite of the heated rivalry," Young said.

Young said both schools stand as iconic standards and represent the struggle and what Black people had to go through. "Today, none of us can imagine what it was like being told if you were Black, you could attend only two high schools in Tampa at that time."

Although those conditions did exist, it did not diminish the quality of education the students received, or the quality of the teachers providing that education. Young said he sees another Tiger victory and for Blake principal, Jackie Haynes, to bring it on.

This year’s contest will be Thursday, September 17th, 7 p.m. at Raymond James Stadium. Tickets can be purchased at The Hope Center, Monday through Friday from 3:30 p.m. until 7 p.m.; after school at Middleton in front of the main office from 3 p.m. until 4 p.m.; at the Plant City/Middleton home opener September 11th at 7:30 p.m., from Blake High School by contacting the school’s Athletic Director, Jessie Salters, at (813) 272-3422, or the Florida Sentinel Office, Monday through Friday from 8 a.m. until 5 p.m. Tickets are $8.00 per person.

Children’s Board Chair Announces Candidacy For Kevin White’s Seat

MS. VALERIE GODDARD

On Tuesday, a consulting firm executive announced her candidacy for the office of County Commissioner, District 3. The seat is presently held by emboldened County Commissioner Kevin White.

Ms. Valerie Goddard made the announcement during a press conference at Chester Ferguson Law Center, Stetson Law School, 1610 N. Tampa Street.

An honors graduate of Whittier College with a Bachelor of Arts degree in Political Science and Social Work, Ms. Goddard has devoted nearly two decades of her professional career working to ensure that all children and families have the resources needed to maximize their potential. She served as an Executive Director of a non-profit United Way agency for 12 years, and is now the President of her own consulting firm.

Ms. Goddard was raised in a career military family that traveled extensively throughout the United States and abroad. These experiences helped shape her global and multi-cultural perspective on life, and have equipped her to address the needs of this diverse county.

In her current role as a two-term gubernatorial appointee and Chair of the Children’s Board of Hillsborough County, Ms. Goddard views her life’s work as a higher call to service.

As the granddaughter of the late Mrs. Altamese Brodie, an education icon serving generations of Tampa families, she learned the importance of community service. Ms. Goddard continues her family’s legacy of exemplary leadership and innovation in her daily work.

She believes one person can make a difference, and each of us should live our lives NOT by how much we can get out of life, but by how much we can give. She firmly believes “We have a common ground, and we will work for the good of the greater community.”

It is with this foundation that she now plans to embark upon this journey to represent and serve the citizens of Hillsborough County.

Father Of Twins Surrenders After Murdering Their Mother

SaQuanda Simon, 30, figured she had endured enough turmoil in her life, and it was time for her to concentrate on raising her four children and her medical career. But she never thought her failure to return calls to the father of her twins, Cedrick Salter, 28, would result in her death.

According to the Hillsborough County Sheriff’s Office, Salter came over to Simon’s Grant Park home Tuesday night to confront her about her failure to return his phone calls and some pending court action.

Investigators said Salter forced his way into Simon’s home through a laundry room, and confronted her. The couple argued while Simon held one of their 18-month-old twins. As Simon turned away from Salter, he reportedly fired three shots, striking Simon twice. He fled the home after the shooting.

Simon’s aunt, Debra Jackson, rushed over to the home after the shooting.

“Her 10-year-old daughter, Shareece, woke up asking for her mother. This is really painful for all of us.”

SaQuanda’s mother, Arlene Jackson, said all that matters to her is they have her 10-year-old daughter, Ashanti (7), and twins Cedrick Salter, Jr. and Cenesia, whom she was holding when Cedrick ‘Woogie’ Salter...turned himself in for shooting the mother of his twins.

Ms. Mae Jackson’s eldest grandchild.

Ms. Jackson said Salter’s mother came by the house and told her what happened.

“I just didn’t believe Woogie would do something like this. When we formed the U-Haul Boys with David Bullock, this is not the end we expected. Now, Bullock is in prison and Woogie will be joining him. I feel bad for Saquanda’s family and the children.”

Debra Jackson said now that Salter is in jail, she feels he needs to get the death penalty.

“He didn’t care that she was holding one of their children when he shot her. I don’t want him breathing the same air as the rest of us. There’s still a long way to go, but at least he’s in jail and off the streets.”

The family has contacted Everett, Derr, and Anderson Funeral Home to assist them with funeral arrangements.

SaQuanda Simon, 30, was a registered nurse. She had attended the Galen Nursing School, and a year ago she got her certification as a registered nurse. She had been working at the Moffitt Cancer Center and the South Tampa Nursing Home.

“SaQuanda had gone through a lot in her personal life, and being a registered nurse was a big turnaround for her,” said Debra Jackson.

“She just wanted to be a good mom for her kids. Cedrick gave no thought to the children when he did this. She was holding one of their twins when he shot her.”

“Her 10-year-old daughter, Shareece, woke up asking for her mother. This is really painful for all of us.”

Saquanda’s mother, Arlene Jackson, said all that matters to me is they have any mercy on him.

“If my daughter had warned us she was having problems with him, maybe we could have prevented this.”

Ms. Simon has two brothers and a sister, and was turned away from Salter, he reportedly fired three shots, striking Simon twice. He fled the home after the shooting.

Ms. Simon’s four children are Shareece (10), Ashanti (7), and twins Cedrick Salter, Jr. and Cenesia, whom she was holding when Cedrick ‘Woogie’ Salter...turned himself in for shooting the mother of his twins.

Students Were Motivated By President Obama’s Speech

BY IRIS B. HOLTON
Sentinel City Editor

On Tuesday afternoon, President Barack Obama addressed the nation’s school children via webcast or C-Span, advising them to study hard, stay in school, and develop their talents so they can grow up to solve the country’s problems.

Prior to the speech, President Obama’s distractors accused him of attempting to indoctrinate students into his socialist plans. Many parents refused to allow their children to hear the speech.

During the speech, President Obama talked about being raised by a single mother and how she impressed the need of a good education upon him. President Obama said, “Every single one of you has something you’re good at. Every single one of you has something to offer. And if you have a responsibility to yourself to discover what that is... and want to do it, I guarantee that you’ll need an education to do it.”

Some Middleton High School students listened to President Obama’s speech and shared their opinions.

Kylii Bullard, 17, said, “I thought his speech was very inspiring. It gave kids more of a purpose to do well in school. It also shows how much of a difference each one of us can make.”

Kylii is a senior who plans to attend West Point and earn a degree in Computer Science. Her future plans include working in the Cyber Space Security field. Of the controversy she said, “I think that just proves that America is still racist. Other presidents have addressed students, so why make such a big deal when President Obama does the same thing? He is doing more than anyone to try and help everybody and keep the people informed.”

William Cross, 17, is also a senior and plans to attend Florida A & M University. His future plans are to major in business administration and minor in political science. His future includes entering the political arena. William said, “I thought it was very moving, motivational, and informative to us students as to what we need to do to become successful in life.”

Concerning the controversy William said, “I think people may have received the wrong ideas and thought his speech would be full of subliminal messages about his health care plan because other presidents have done that before.”

Seventeen-year-old Naya Young said, “I thought it was very motivational and it was a good speech, some kids need a little push. You can hear it from your parents and teachers, but coming from the President, it’s more motivating.”

Naya, who plans to attend Howard University as a Pre-Medicine student said, “I really thought the controversy was very unnecessary. It was blown up and it shouldn’t have been. There was no need for people to take it the way they did. He just wanted to motivate us.”

Mia Carr, 17, who is a junior, plans to become a business owner in the future. After graduation, she wants to become a cosmetologist with her own shop. After accomplishing that goal she plans to continue her education.

Mia said, “I think the speech was encouraging and helpful. It really showed that President Obama is concerned about all students at all schools.”

Of the controversy she said, “It was unnecessary. Parents should have accepted it as the helpfulness President Obama was trying to offer.”

NAACP President Resigns, Citing Family Time

CURTIS STOKES
...Resigns as President of Hillsborough County Branch NAACP.

BY IRIS B. HOLTON
Sentinel City Editor

Curtis Stokes, President of the Hillsborough County NAACP (National Association for the Advancement of Colored People), has resigned as head of the organization. He stated his reason for resigning was to spend more time with his family. He said, “I need to spend more time with my family. My son is in middle school now, and I just need to concentrate on the family. I enjoyed my time as president and I hope that I had a positive impact. I believe that Carolyn Collins will do a great job.”

The resignation took effect on Tuesday, September 8th. Dr. Carolyn Collins, who is currently the First Vice President, will succeed him.

Stokes was elected to a second term of two years as the President last year. He began serving his second term in January 2009.

In his letter of resignation Stokes said, “It is with great sadness that I submit this letter of resignation as the President of the Hillsborough County Branch of the National Association of the Advancement of Colored People effective September 8, 2009. I have faithfully served the organization in a variety of leadership roles since 2004. "I have served as membership chair, 1st Vice President and as President since November 2006. As you all know the financial services industry has changed considerably since I became president, coupled with my responsibilities as a father and husband I do not have the capacity to fulfill my role at this time. I want to personally thank you for allowing me to serve.”

According to the NAACP by-laws, Dr. Carolyn Collins will be elevated to the position of president. Dr. Sam Wright, who is currently the 2nd Vice President, will become 1st Vice President, and Ms. Dorothy Nettles, who is 3rd Vice President, will become the 2nd Vice President. The 3rd Vice President seat is open as a result of Stokes resignation.

Dr. Carolyn Collins said, “When you accept the position of 1st vice president, you’ve got to be prepared to step in if necessary. We’ll move forward and do what needs to be done. If you don’t believe it’s necessary for the NAACP to continue to exist, all we have to do is just look at the things that have transpired over the past year. It looks like we have done more regression than progression. Someone has to be the conscience for all mankind.”

“Curtis will still be with us and we need people in the community to come to us and work with us to make it better in their communities. There is still work to be done in housing, education, health care, and making sure our children have the tools they need.”

The NAACP has been in existence for more than 100 years and we will continue using our call to action to do what we have to do locally,” Dr. Collins said.

Because He Is A Democrat

Or Because He Is Black

Many Republicans want President Barack Obama to fail as President of the United States. How do I know? Because so many of them have publicly so said. I know that to be true and you know that to be true, too.

The question is, do they want him to fail because he is a Democrat or do they want him to fail because he is Black?

I have come to believe that it is a combination of the two. Politically, the majority of Republicans are opposed to anything the Obama Administration tries to do. It is a fact that President Obama went to the White House determined to create a bi-partisan atmosphere, but in reality, Republicans came with a determination not to be a part of any bi-partisan movement.

The majority of whatever President Obama has been able to do to this city, so far, has been done without any Republican support. Republicans have opposed his appointees, his stimulus package, his auto industry bailout, his health care overhaul, his Supreme Court nominee, his foreign policies, his handling of the wars in Iraq and Afghanistan, among other things.

They have opposed his healthcare reform efforts, and they didn't want him to talk to our children. They have accused President Obama of not being an American citizen in spite of definite proof. They have compared him to Hitler, painted his face white, compared him to an ape, and, in general, criticized his every move.

Republicans have also developed a selective case of amnesia. They can remember the mess this country was left in by the last President, Republican George W. Bush. Instead, they feel themselves into believing that this whole economic, political, military, and social mess is the fault of President Barack Obama.

I attribute all of the propaganda by Republicans to be because of a Democrat. But let's look at the slandering propaganda a little closer and see that yes, that some of this is because he is Black.

So why do Republicans don't refer to Mr. Obama as our president, our president or the President of the United States. Instead, they refer to him as a "simple Obama" or 'this president.' That is both intentional and disrespectful.

Republicans constantly make race-based remarks and create race-based politics around President Obama. Many of these comments and drawings just drip with hate. It is hate-based upon the President being Black.

The First Lady, Michelle Obama, wearing a short of a sweetheart since she became the lady of the White House. She has developed an impression statement for style and fashion. Most everybody, Black and white, love her. Still, there are those who cannot see past her skin color for her reason at all.

But confused people please don't count it in. If President Barack Obama will not fail as President of the United States! Also, come to grips with the fact that he is not a simple Obama or simply a Democrat! President Of The United States Of America.

The Sole-Man Speaks

When The People Speak!

If you ask historians, they'll tell you. It isn't the big things that get done, but the little so-called insignificant things that set the world on its ear. Take, for instance, what happened at County commissioners' Commission meeting, last week.

Wearing sneakers and kitchen aprons...sporting shorts and T-shirts, a motley crowd of senior citizens and community activists of all stripes, colors and con-

cerns converged on already overburdened County Commissioners - Commissioner Kevin White included - to tell them that the County listen and then save the citizens' North 22nd Street road widening project.

No, they did not come to talk about county commissioners' aides assaulted in a sexual harassment suit. Nor did they come questioning the logic nor wisdom of county employees' pay raise, which is a distance seemed more personal than fiscal. Instead, citizens raised a hue and cry about raising an increasing load. The load included new schools, and a slew of new community service centers, parks and apartment complexes. Without widening, not only has 22nd Street become a joke for them, it is piffling in the pool with a civil court fine that could cost County something round.

And to add to this growing comedy of fiscal errors, County commissioners...well, county commissioners; the current culprit in causing the crowd of 22nd Street. As Kingfish would say, "LAWD HAVE MERCY!!"

During the past 15 years, the backbone of 22nd Street as it stretched above Fowler Avenue, had found itself carrying an increasing load. The load included new schools, and a slew of new community service centers, parks and apartment complexes. Without widening, not only had 22nd Street become a joke for them, but it had deteriorated into a traffic hazard to be avoided whenever possible.

Consequently, the recent recent conversion by North Tampa and so-called "Suitcase City" residents on the County commission meeting was more than simply an exercise in good citizenship. It was indeed, a cry for help.

Assured an intense and unablinking Commission Chairman Ken Hagan, "One way or the other, this board is going to fulfill its commitment and complete this project." a, the County will spend more almost $6 million dollars to expand a gaunt and trembling 22nd Street that resembles what Tampa used to look like, twenty years ago.

But how and where? With a deficit of more than $144 million, where is the money coming from?

And now, to add even more insult to injury, one of the County's own commissioners is being looked at by the county civil fine that could cost the County well over half a million dollars, come to grips. And to add to this growing comedy of fiscal errors, Commissioner Kevin White, the current culprit in question, happens to be the representative of the area, which includes North 22nd Street. As Kingfish would say, "LAWD HAVE MERCY!!"

Could it get worse? Could the County fail to keep its promise and not widen 22nd Street, causing the County to break its commission meeting to come back with rotten eggs rather than rough language.

And to this growing comedy of fiscal errors, Commissioner Kevin White, the current culprit in question, happens to be the representative of the area, which includes North 22nd Street. As Kingfish would say, "LAWD HAVE MERCY!!"

Citizens Respond To President Obama’s Healthcare Speech

BY IRIS B. HOLTON
Sentinel City Editor

On Wednesday night, President Barack Obama addressed the nation about his healthcare plan. He dispelled the myths that have been circulating and clarified points of concern.

Some citizens shared their comments about the proposed healthcare plan with the Sentinel.

Ms. Antonia Barber said, “I was quite impressed with the plan President Obama outlined. Up until last evening I was unaware of just what the plan consisted of, but now that he has spelled it out and made assurances where the funding more people will see the light and embrace it.”

“This country has waited too long for healthcare reform. The citizens of Hillsborough County have been blessed with the Indigent Healthcare Plan for years, but think of all the counties across this nation where there is none. Without insurance across the board.”

Howard Harris said, “The President finally stopped being nice. He said, ‘They claim... that we plan... that we come down with a catastrophic illness, and to make sure insurance companies are regulated.’”

“Let’s dispel the fact that there is no such thing as death panels and he explained that even with the $900 billion it would cost, it is still less than what we were spending in the Iraq War and it’s less than the tax breaks given to the rich during the previous administration. He’s just trying to give people insurance across the board.”

Ronnie Moorer said, “I’m actually impressed with the fact that President Obama is trying to deliver so early on something the whole country is so desperately in need of, and have waited years to get.”

Les Miller, Jr., said, “I thought President laid out exclusively what he wanted for the people of this country, access to doctors, insurance that will not drop them if they come down with a catastrophic illness, and to make sure insurance companies are regulated.”

Les Miller, Jr., said, “I thought it was a sound, cost conscious and effective plan and so badly needed. The most important thought that I have is that the plan calls for additional services for the insured and the uninsured.”

“The plan does not require one to change doctors, those with pre-existing illnesses cannot be cancelled, and the plan will call for more coverage in examinations, tests, x-rays, etc. It will offer affordable insurance for all citizens and small businesses will not pay large amounts for their employees.”

“Was proud to hear him talk about the myths. The plan will not fund abortions, and it’s not a death panel. Another clarification he gave was that there are public options. Healthcare would be what the private and public section has offered to education. I thought it tremendous that everyone will be offered a choice whether public or private.”

Congresswoman Kathy Castor issued this statement: “Health insurance reform is vital to Florida families and businesses. The status quo is not working for too many of our neighbors and is too expensive. We need to bring competition to lower costs for our hard-working families and make insurance available to many more. No longer will insurance companies be able to deny you coverage if you get sick, they won’t be able to charge you higher premiums because of medical history or current illness, if you change jobs, you can carry your policy with you, and you won’t have to pay co-pays or deductibles for preventative care. And if you like your health insurance, you can keep it.”

Prostate Cancer Month Strives To Create Awareness

BY LEON B. CREWS
Sentinel Staff Writer

September is Prostate Cancer Awareness Month. The Men's Health Network is urging men to talk to their doctors about prostate cancer. They also encourage women to get involved and urge their husbands to request prostate screening, including a PSA test, from their doctor.

Prostate cancer is the most common form of cancer in men, striking approximately 200,000 men each year. Every year, more than 27,000 African American men die from the disease, making it second only to lung cancer as the deadliest cancer in men.

Caught early, prostate cancer can be treated, usually successfully. But because many men experience no symptoms, it is often identified only by an abnormal result on a basic prostate cancer screening.

Bob Samuels, a prostate cancer survivor and leader in the area where it comes to outreach and creating awareness, said a lot of people still don't know prostate cancer exists.

"I visited the Moffitt Cancer recently, and it's sad an frustrating to see that no real progress has been made on this health issue. It needs personalized attention. I get several phone calls a week, and I have nowhere to refer them."

Mr. Samuels said prostate cancer is not being taken seriously.

"Women have done a great job creating awareness about their diseases, but Black men don't want to talk about it or take part in creating awareness."

"It's that old macho pride that prevents African American men from having themselves checked out."

Mr. Samuels said he's suggested a panel discussion of African American males be put together consisting of high professionals who are now willing to talk about the disease.

"It's not a macho thing to ignore this problem. African American men need to understand that anything is worth sacrificing if it means saving their life. They'd be surprised if they saw the list of popular Black men who've stepped forward and have become spokesmen.

"With all that said, it's still not enough."

East Tampa Resident Says Building Is Public Nuisance

BY LEON B. CREWS
Sentinel Staff Writer

Martinez Wright loves his East Tampa community, and up until a few years ago, he never had any complaints. However, a building on the northeast corner of 34th Street and Dr. Martin Luther King, Jr. Boulevard has threatened the peace and safety of the area.

"I've called police, complained to Councilman Thomas Scott, contacted code enforcement, and just about anyone else I could think of."

"The problem is that during the early morning hours, young people have been gathering at the building, and they are at a loss as to what can be done."

"Some people have nowhere to refer them."

Mr. Samuels said prostate cancer is not being taken seriously.

County Commissioner

On Tuesday, members of the Hillsborough County Board of Commissioners voted to attempt to settle a sexual harassment lawsuit against a fellow board member. The board decided to offer a $100,000 settlement inclusive of all fees.

During the meeting, commission members wanted to know the range of money the county could face while attempting to settle the lawsuit. They were told the case could cost as much as $325,000 if the case is appealed and lost and $220,000 to settle.

They also discussed the cost of Attorney Ronald Frazey fees of $375 per hour, totaling $190,000. He represented Abyss Ogden in the lawsuit against Kevin White for sexual harassment. The jury found White guilty and awarded Ogden $75,000.

Assistant County Attorney Steven Todd said, through negotiations, Attorney Frazey had agreed to subtract $5,000 from his fees.

After much discussion Commissioner Rose Ferlita said, "The timing is horrible for this mess. Let's cut our losses, move along and pay it."

She also asked County Attorney Renee Lee if it was possible for the county to settle the case and then sue Commissioner White. She stated that they could, however, Commissioner White could file bankruptcy and the county would not receive any thing.

Commissioner Mark Sharpe said he was against the county not fighting the claim and then taking legal action against Commissioner White. He also stated that Attorney Frazey's fees were excessive.

Commissioner Jim Norman made the suggestion that the county authorize the attorneys to offer up to $100,000, that would be inclusive of the settlement for Ogden and her attorney's fees. This would still leave the board the option to file the appeal if negotiations fell through.

County Attorney Renee Lee said she felt the offer sent the message that the county was willing to negotiate and settle the issue. She said it also left the door open for Attorney Frazey to counteroffer a settlement.

The board voted 5-1 in favor of offering the settlement. Commissioner Ferlita voted against it and Commissioner White abstained.

Ms. Pat Bean, Hillsborough County Administrator, informed the board that she had received an offer of representation for the appeal on behalf of the County from Tampa attorney Frederick H. L. McClure, of the law firm of DLA Piper without charge. The County would only be responsible for court cost. Attorney Todd said on Wednesday that he had no additional information pertaining to the offer.

Attorney McClure said during a telephone interview, "I made the offer and that's kind of where it is now. I'm sure we are going to have a discussion and we can take it from there."

When asked why he made the offer, Attorney McClure said, "I've got the ability, I've got the time, my firm believes in public service, and this is an opportunity to serve."

Dr. Lyons: ‘Lawsuit Is Our Only Option’

On Tuesday in a Washington, D.C. court, Dr. Henry Lyons filed a lawsuit to prevent the National Baptist Convention, USA, Inc., members from electing a new president. The lawsuit was filed in Washington, D.C., because that is the location of the home office of the organization.

However, a District of Columbia court rejected his petition to stop the election. It took place on Thursday. More than 40,000 of the organization’s 75,000 members are in Memphis for the annual convention. The new president will be chosen before the convention ends.

The National Baptist Convention, USA, Inc., began its conference on Monday in Memphis, Tennessee. Members were slated to elect a new president on Thursday. The lawsuit alleges that new bylaws governing the organization’s election are in violation of its constitution.

During an exclusive interview Dr. Lyons said, “We have been attempting to communicate with Dr. (William J.) Shaw for more than 2 years. We have sent him 7 or 8 registered letters and he has not responded to any of them. He hasn’t even acknowledged receiving them.

“The lawsuit was our only option. We want to sit down and talk. We don’t want to fight. We can reason together because we are brothers.”

“But, I’m not going to go into an election when I already know the results. We’re not just going to sit by when the election is blatantly unfair. The system as it is, is terribly corrupt and we want a fair election and a level playing field. We’re asking for an adjustment of rules to create a level playing field,” Dr. Lyons said.

The election of the new president was originally slated to take place during the weekend convention of the National Baptist Convention, USA, Inc. However, with the filing of the lawsuit, a federal judge must lift the injunction for it to take place.

Currently serving as the Senior Pastor of New Salem Missionary Baptist Church in Tampa, Dr. Lyons served as President of the organization from 1994 until 1997 when he became engulfed in a criminal investigation.

Dr. Lyons is campaigning against Vice President-At-Large, Dr. Julius A. Scruggs, of First Missionary Baptist Church, Huntsville, AL. Dr. Shaw, the current president, can’t seek a third five-year term under convention rules.

Buccaneers Open Regular Season Against The Dallas Cowboys

RAHEEM MORRIS

With a new head coach, quarterback, offensive coordinator, and defense, the Tampa Bay Buccaneers will open their regular season at home this Sunday against the Dallas Cowboys. Kickoff is at 1 p.m.

The Bucs will take the field with Byron Leftwich under center as the starting quarterback, and first-round draft pick, Josh Freeman, waiting in the wings as his backup.

Coach Raheem Morris has decided to have a running back by committee type offense, and will be rotating starters Carnell "Cadillac" Williams and Derrick Ward with Earnest Graham.

Leftwich said he believes new offensive coordinator, Greg Olson, will be smart and to have a downfield passing game and that means he will have to play aggressive and smart.

The Bucs also signed seven players to their practice squad: cornerback Kyle Arrington, wide receiver Patrick Carter, defensive tackle Rasshaad Duncan, running back Raheem Huggins, tackle James Lee, tight end Ryan Purvis, and wide receiver Mario Urrutia. They still have one spot remaining on the 8-member practice squad.

The Bucs' starting wide receivers, Michael Clayton and Antonio Bryant, are still nursing injuries although it appears Bryant may take the field Sunday.

Blake's new head coach, Harry Hubbard receives instructions from game officials.

FAMU Finally Rattles Hornets

BY TED TAYLOR

After going winless against the Delaware State Hornets for the past four games, the Rattlers of Florida A&M University finally broke into the win column, with a 21-6 victory before a hungry home crowd of 17,009, in Bragg Stadium. The victory was a relief for the Rattlers faithful as they have not avoided a Hornet sting since 2003.

FAMU used the arm and legs of senior all-American candidate quarterback Curtis Pulley for an enjoyable home opener. After a scoreless first quarter, the Rattlers reached the endzone on a one-yard run by fullback Mykel Benson, early in the second quarter. Benson followed the hole opened by the Jumbo package of two linemen as lead blockers out of the backfield. The point-after attempt by Trevor Scott made the score 7-0. The 9-play drive of 69 yards was powered by a Pulley to Isaac West pass of 31 yards. Del State followed with a 7-play drive covering 86 yards, with a one-yard pass from Anthony Glaud to wide receiver Zacharri Charles. The point-after kick was no good, leaving FAMU ahead at 7-6.

Not to be outdone, FAMU answered with a 69-yard drive using six plays, as running-back Lavontae Page went in from six yards out. Page started for the injured Philip Sylvester and finished with 61 yards on 20 carries. The halftime score was 14-6, with the conversion of the point-after.

An early second-half touchdown saw the Rattlers increase the lead to 21-6, on a 47-yard run by Pulley as he darted through the Hornet defense. Neither team could muster any more offense until the Hornets tallied on a 4-yard run by running back Jason Vanunu, at the 13:00 mark of the fourth quarter. The two-point conversion was missed on an incomplete pass, giving FAMU a 21-12 advantage. The drive was kept alive by a roughing-the-quarterback penalty against FAMU.

Isaac West out jumps a Greg Ligon for a long Rattler gain as the Delaware State Hornets host the Delaware State Rattlers of Florida A&M.

Ex-Pat Seymour Still A No-Show At Raiders Camp

ALAMEDA, CA — Five-time Pro Bowl defensive lineman Richard Seymour did not report to the Oakland Raiders Monday, a day after being acquired in a trade with the New England Patriots. Raiders coach Tom Cable said after practice that Seymour had to resolve some things with the Patriots before the deal for a first-round pick in 2011 could be finalized.

Patriots spokesman Stacey James said he was unaware of any difficulties surrounding the trade, which was announced by New England on Sunday and confirmed by Cable.

The trade was included on the league’s official transaction list distributed to teams Sunday. All deals are subject to certain conditions, including physicals for players involved, and teams can inform the league if those conditions are not met. Neither the Raiders nor Patriots asked for the trade to be rescinded by the close of business Monday, the person said.

Cable did not want to address the issue further Monday, but said Seymour told him he wants to be in Oakland. Cable did not say when Seymour would have to arrive in order to be able to play in the season opener next Monday night against San Diego.

Wildcats Turn Over Win To Bears

BY TED TAYLOR

In a game that was supposed to be an exhibition for the Wildcats to fine tune things in a game setting, Bethune-Cookman University found itself embarrassed in its home-opener against the Division II Shaw University Bears from Raleigh, North Carolina. The excitement of the opening of the 2009 season soon turned to stunned for the 4-0 turn in attendance at Municipal Stadium, regardless of which team the fans may have been rooting. The Bears capitalized on seven Wildcat turnovers to win 20-6.

Shaw surprised the ’Cats early on a 60-yard touchdown pass from Travis Robinson early in the second quarter. The point-after kick by Caleb Reid made the score 7-0. Later in the quarter Shaw increased the lead to 10-0, on a 46-yard field goal by Lyndon Shepherd. The first quarter lead was helped by Wildcat fumbles on its first two possessions.

Shaw kept the pressure on B-CU on a run of 16 yards by Brian Sumlar early in the second quarter. The point-after by Reid extended the lead to 17-0, which was the score at the half.

Despite the lead, all expect the Wildcats to overcome the Bears in the second-half. However, the turnovers continued and Shaw held its own. The Bears added another field goal of 33 yards at the 9:32 mark of the third quarter for a surprising lead of 20-0.

B-CU finally got on the board early in the fourth on a 12-yard run by Brian Sumlar. The point-after kick by true freshman Kory Kowalski was missed. Sumlar finished with 67 yards on 12 carries but he was also a part of the fumble brigade, losing one at the Shaw 11 in the first quarter.

In all, B-CU lost six-of-six fumbles and had a pass intercepted. The Wildcats lost two of the fumbles inside the Shaw 5-yard line and two more inside the 12-yard line. The interception was at the Shaw 11-yard line.

The ‘Cats outgained the Bears 282-to-240, but could not get the ball in the endzone. Things may go from bad to worse next week as the Wildcats entertain South Carolina State. The Bulldogs are the reigning Mid-Eastern Athletic Conference (MEAC) champions.

Tiger Makes A Belated Run In Boston

NORTON, Mass. — Tiger Woods was 6 under after six holes in the final round of the Deutsche Bank Championship, leaving fans wondering whether they would see an unprecedented comeback.

But Woods never got his own hopes up after starting the day nine strokes back.

Woods, who has never come from more than eight strokes behind to win a pro, shot 70-67-72 over the first three rounds to earn an early tee time Monday - more than three hours before Steve Stricker and Retief Goosen left at 1:40 p.m.

Woods, who won at the TPC of Boston in 2006, birdied the first four holes and eagled No. 6 on Monday morning. But he bogeyed the 11th and 17th, played the back nine in 2-under and finished 12 under for the tournament, five strokes behind Stricker and tied for 11th.

Woods was the leader in the clubhouse for hours, but he knew it wouldn’t last.

Richard Seymour did not report to the Oakland Raiders Monday, a day after being acquired in a trade with the New England Patriots and tied for 11th.

Colts Expect Sanders Back Within Five Weeks

BOB SANDERS
INDIANAPOLIS — Colts coach Jim Caldwell would not say whether Bob Sanders will play Sunday against Jacksonville. He does expect the 2007 NFL Defensive Player of the Year to be back on the field within five weeks.

Caldwell told reporters Monday the team would not have kept Sanders on the active roster unless the Colts thought he would return sooner than the six-week window required if he opened the season on the physically unable to perform list. Sanders had offseason knee surgery and has not yet practiced.

The Colts did make a roster move Monday, adding veteran safety Aaron Francisco, who was cut by Arizona. The Colts then released linebacker Jordan Senn. Caldwell said Francisco, a four-year NFL veteran, could play Sunday.

Merriman Denies Choking Tequila

TILA "TEQUILA" NGUYEN vs. SHAWN MERRIMAN
SAN DIEGO — San Diego Chargers star outside linebacker Shawn Merriman said he did not harm reality TV star Tila Tequila at his home early Sunday and added he was concerned for her safety because she appeared to be intoxicated.

Merriman was arrested and accused of choking and throwing Tequila to the ground as she tried to leave his home in suburban Poway. Tequila signed a citizen’s arrest warrant charging Merriman with battery and false imprisonment. Both are felonies.

Merriman spent about 2-1/2 hours in the downtown jail before posting bail.

Merriman practiced Monday, then said he’s convinced he’ll be cleared. It will ultimately be up to the District Attorney’s office to decide if he’ll be charged.

Tequila, whose real name is Tila Nguyen, is best known for "A Shot at Love with Tila Tequila," which ran for two seasons on MTV. The bisexual dating show featured men and women vying for Tequila’s affections. She has also modeled for Playboy and other men’s magazines.

Merriman said he was limited in what he could say. He kept referring to a statement issued through his attorney Sunday night.

"At the time, I was concerned about her welfare given the intoxicated state she appeared to be in and I encouraged her to stay until safe transportation could be provided," Merriman said in the statement.

Also Monday, the owner of a downtown club where Merriman and Tequila attended a party Saturday night said his staff told him she had been drinking and it appeared Merriman had ordered only bottled water.

"I feel sorry for the guy and I think the truth needs to be told," said James Brennan, who owns Stingaree, one of the city’s top hangouts for celebrities.

Brennan said he normally wouldn’t comment, but felt he should after seeing Tequila’s tweet in which she said she’s allergic to alcohol.

"It sounds like she’s allergic to the truth," Brennan said.

Kent Griffey Jr. is trying to decide whether to retire at season’s end. He entered the weekend hitting .221 but had 14 homers for the Mariners.

Beasley Remains Upbeat In Rehab

MICHAEL BEASLEY

Heat forward Michael Beasley, still at a Houston rehab center, spoke to personal advisor Bruce Shingler by phone last week and “he’s doing well,” Shingler said. “He sounded really upbeat. He accepted responsibility and expects to be ready for training camp. He told me he will do whatever is needed to help the team win.”

Grizzlies, Iverson Move Closer To Deal

MEMPHIS, Tenn. — The owner of the Memphis Grizzlies and the team’s staff met with Allen Iverson on Monday, moving closer to a deal bringing the veteran guard to a young team.

“I want to help them develop a winner,” Iverson said on Twitter on Sunday night.

The meeting was in Atlanta, where the 34-year-old star has been working out recently with former teammate Eric Snow. The Grizzlies confirmed the meeting but declined to comment further.

The Grizzlies last season finished 24-56, last in their divi-
sion. No other NBA team has shown public interest in Iverson.

Seahawks Ink 4-Time Pro Bowl Safety Milloy

RENTON, Wash. — The Seattle Seahawks signed safety Lawyer Milloy to a one-year contract on Sunday, bringing the veteran back to the area where he grew up.

The team made an official announcement one day after cutting Brian Russell, who started at safety for two seasons.

Milloy grew up in Tacoma, Wash., and played for the University of Washington before entering the NFL in 1996 with the New England Patriots. He played seven seasons there and three more with Buffalo, before spending the past three years in Atlanta.

The 13-year veteran has started 196 of 202 career games. He will team with veteran Deon Grant and new cornerback Ken Lucas in Seattle’s revamped secondary.

A Double Standard At The Blue Martini

BY LEON B. CREWS
Sentinel Staff Writer
(An Analysis)

With the economy suffering and so many people being without work, a night out on the town has become wishful thinking for some, and an expensive endeavor for others.

With so many nightspots trying to lure you inside, many have become creative, offering drink specials and themed nights. There is one place, however, that feels it does not need to hype their club, because their clientele is already top-notch and big money spenders.

The Blue Martini has become the favorite spot for Tampa's elite. It is a place where you can run into anyone ranging from a professional athlete to a movie star or national rap artist.

But, the Blue Martini has a hidden secret.

From Monday to Saturday, there is no cover charge to enter the lounge and drinks are offered at their regular price. However, on Sunday when most African Americans attend, there is a $10 cover charge if you arrive early, $20 after 10 p.m., and $40 after midnight. On top of that the VIP bouncer will charge you $40 plus another $20 at the door to skip you in the line. If that's not bad enough, that same bouncer wants $100 after 11 p.m.

If that's not bad enough, the drinks are virtually doubled in price on Sundays, and inside the lounge, prices can vary on the same drink depending on which bar you are served at.

The Blue Martini also claims that no denims are allowed. But if you slip the bouncer an extra $20, you and your jeans are more than welcome.

One patron pointed out that clubs normally close at 3 a.m., but at the Blue Martini, they start clearing the club at 2:30.

Angry Black patrons are outraged, and feel the double-standard is being used out of disrespect to their Black clientele, and to take advantage of the drawing power of the celebrities in the house.

It's a shame that a place as popular and successful as the Blue Martini has to fleece patrons this way. It's also a shame that a bouncer is allowed to take part in the rip-off and turn a huge profit.

Let this be a challenge to the Blue Martini to avoid bad press and a bad reputation by being fair to all of their patrons and treating them equally regardless of what night they attend the lounge.

In saying that one also can't be so naive as to think the owners and managers actually care about the double-standard. They probably think they will pack the house regardless, and could care less about a few disgruntled patrons.

Let this message serve as a protest and message to the patrons who share the belief that this kind of treatment is wrong, unnecessary, greedy, and completely unprofessional.

Motown Turns 50, But The Party's Far From Over

DETOUR -- Jan. 12, 1959, was the day a 29-year-old boxer, assembly line worker and songwriter named Berry Gordy Jr. used an $800 family loan to start a record company in Detroit.

Fifty years later, Motown Records Corp. and its stable of largely African-American artists have become synonymous with the musical, social and cultural fabric of America. The company spawned household names, signature grooves and anthems for the boulevard and bedroom alike that transcended geography and race.

And time.

Motown may be 50 years old, but it isn't any less relevant with current hitmakers - from Taylor Swift to Coldplay - citing the label's signature "sound" as an influence.

Would there be a Beyonce or Mariah Carey had Diana Ross, Martha Reeves and Gladys Knight not come first?

How about Kanye West or Justin Timberlake? What would have become of their musical careers had Motown not blazed a trail with the likes of Michael Jackson?

Michael Jackson's Glove Auctioned In Australia

MELBOURNE, AUSTRALIA -- A bejeweled white glove Michael Jackson tossed to an Australian fan more than a decade ago sold at auction Sunday for $57,600 Australian dollars ($48,400), almost twice the estimated selling price.

Warwick Stone, a buyer for the Hard Rock Hotel and Casino in Las Vegas, beat out five other bidders for the late King of Pop's glove, said Charlotte Stanes, spokeswoman for the Melbourne auction house Bonhams and Goodman. The estimated selling price before the auction was $30,000.

"We were lucky enough to have it," Stanes said. "It's the first glove we know about in Australia." Jackson visited Australia in 1996 as part of his HIStory world tour. While in Sydney, he attended the Australian premiere for the film "Ghosts," in which he had a starring role. At the end of the screening, he tossed the glove.

Rapper Ludacris Gives Away Cars To Contest Winners

MORROW, GA -- Talk about a one-man stimulus package. Atlanta-based rapper Ludacris has given away 20 cars to people who wrote about their struggles to keep their jobs for a lack of wheels of their own.

Ludacris said he was taken aback after reading thousands of essays by people struggling or unable to buy cars needed to get to and from work or find jobs. The 31-year-old rapper felt he could step in and help.

"His story touched my heart," Ludacris said. "He's endured so much in his life and he's still here standing, I'm very proud to have helped him."

Duor, 33, has been able to keep a steady job at a school, but each day he felt stressed about how he was going to get there. That's why he wanted to give back to those who need it.

Each of the used vehicles included free gas for 90 days. Winning contestants were responsible for gas, registration, tax and insurance. About 4,000 contestants submitted a 300-word essay to the rapper's foundation, explaining why they deserved a car.

One of the most touching stories Ludacris read was by Mading Duor.

Duor described how he moved to the United States six years ago after his mother, father, and five brothers and sisters were killed in Sudan. The man also wrote that a son was killed by a drunken driver in Atlanta a few years back.

"His story touched my heart," Ludacris said. "He's endured so much in his life and he's still here standing, I'm very proud to have helped him."

Duor, 33, has been able to keep a steady job at a school, but each day he felt stressed about how he was going to get to work. "I'm so happy, that I'm nervous," said Duor, "who won a Nissian Maxima. "When I look at my new car, I say to myself, 'Is this really happening?'"

Bob Marley Keyboardist Dies In NY At 47

NEW YORK — Jamaican reggae producer Wycliffe "Stu," B. Johnson, a keyboardist for Bob Marley, has died in New York at age 47. Fellow producer Cleveland "Clevie" Browne says Johnson died Tuesday at Brookhaven Memorial Hospital on Long Island, following a heart attack.

"Stu," B. Johnson was diagnosed with kidney failure in December while in New York City. He says doctors told Johnson he had a blood clot in his brain.

Johnson was known for his innovative work on some of the biggest dancehall hits of the 1980s and 1990s. As part of "Steely & Clevie," the two dominated music production in Jamaica for decades. They helped to transform dancehall music by embracing digital technology in the studio.

Robert Cray Gets First Computer, Talks New CD

NEW YORK — Though music has taken a digital turn, Robert Cray didn't recently get his first computer to keep up with industry trends. The Grammy-winning blues singer is just making sure he can see his young son when he's on tour.

"The band just bought me a computer, like three weeks ago," the 56-year-old said in a recent interview. "I just turned it on a few days ago, and I'm getting set up basically so I can see our 2-year-old son when I'm on the road. So I can have video conversations with him."

His family isn't the only thing he's smiling about these days. Cray and his band - including guitarist Richard Cousins, drummer Tony Braunagel and keyboardist Alphonse "Cleek" Pugh - recently released their eighteenth CD, "This Time." Cray says the disc - which fuses blues, soul and contemporary music - is moving on with his life after a massive stroke nearly four years ago that abruptly ended his TV career. He's written a book about his experiences and is trying to raise awareness about stroke warning signs and recovery.

Mark McEwen Loses Medical Negligence Lawsuit

Baltimore — Former CBS "Early Show" personality Mark McEwen is moving on with his life after a massive stroke nearly four years ago that abruptly ended his TV career. He's written a book about his experiences and is trying to raise awareness about stroke warning signs and recovery.

Two days after that hospital visit, McEwen boarded a flight home to Orlando, and suffered a massive stroke. His attorneys claim the stroke could have been prevented if McEwen had been given drugs including aspirin and anti-coagulants.

Mark McEwen, 54, is now dealing with a fresh setback - the abrupt end to a court battle against the doctor who told him he had the stomach flu when he showed up at a Maryland hospital emergency room with stroke-like symptoms.

Nearly two months after Michael Jackson's daughter, Paris, provided a dramatic demoustration to the late pop star's public memorial at the Staples Center by expressing her enduring devotion for the singer, Jackson's children again took center stage on Thursday night at their father's funeral.

Michael Jackson's Kids Lay Golden Crown On His Casket At Funeral

In the forthcoming issue of People magazine, Chris Brown talks about his life since the February altercation that left then-girlfriend Rihanna injured. The issues the pop star discussed included his feelings for Rihanna, his brief reconciliation with her after the incident and how he doesn't think he'll hit a woman again.

But Brown also addressed a domestic-abuse-focused episode of "The Oprah Winfrey Show" that aired just after the assault, saying he thinks the show could have portrayed him in a better light. "I commend Oprah on being like, 'This is a problem, but it was a slap in my face,'" Brown told the magazine. "I did a lot of stuff for her, like going to Africa and performing for her school. She could have been more helpful, like 'OK, I'm going to help both of those people out.'"

In a statement released to TMZ on Thursday (September 3), Oprah responded to Brown's comments about the show. "Oprah is very appreciative that Chris Brown performed at her school, but she takes domestic abuse very seriously," the statement reads. "She hopes he gets the counseling he needs."

In the People interview, Brown said he is meeting with a counselor. "If I do have an anger problem, I will work with my counselor and hopefully channel my anger into something like dancing," he said. "I'm going to counseling. I want to understand my feelings. I don't think that I'd get that mad again. (I'd) walk away. This has matured me."

As for his place now as a role model to his fans, he knows it's going to take time to prove himself again. "Musically, I can still inspire," he said. "But I have a bigger responsibility to show the world I can overcome this, be a better person, and that I'm worthy of being a role model. I'm going to earn that status back."

President Barack Obama told Americans in a prime-time speech Wednesday that his ambitious $900 billion plan to overhaul the nation's health care system is essential to provide uninsured and insured families with quality health care - and keep people alive.

"Everyone in this room knows what will happen if we do nothing," Obama said in a speech to a Joint Session of Congress Wednesday evening. "Our deficit will grow. More families will go bankrupt. More businesses will close. More Americans will lose their coverage when they are sick and need it most. And more will die as a result."

On an average day, Obama said, 14,000 Americans lose their health care coverage. According to the U.S. Census Bureau, nearly 46 million Americans are without health insurance. Many of these uninsured are black.

"Well, the time for bickering is over," Obama said in his speech. "The time for games has passed. Now is the season for action.... Now is the time to deliver on health care." Obama's success in the past few months, claiming falsely that the proposal will ultimately force Americans to pay more for health care and drop their health-care providers.

And he's fighting back against Republican critics. "Some of people's concerns have grown out of bogus claims spread by those whose only agenda is to kill reform at any cost," Obama said.

The best example is the claim, made not just by radio and cable talk show hosts, but prominent politicians, that we plan to set up panels of bureaucrats with the power to kill off senior citizens. Such a charge would be laughable if it weren't so cynical and irresponsible. It is a lie, plain and simple."

On October 23, 2003, Elaine Lanier Caldwell was in her Sulphur Springs home when a man forced his way inside and murdered her. Tampa Police investigated the incident as a home invasion and murder. Since the murder, detectives had been working hard to solve the case, and had gained some information, but not enough to make an arrest. A couple of months later a suspect in Caldwell’s murder, Ronny Walker, was arrested on drug charges. On March 30, 2005, Walker was sentenced to 5 years in prison.

According to the Department of Corrections website, Walker, 31, was scheduled to be released from prison today (Friday). However, thanks to the work of Detectives Dennis Drabinak and Chuck Massucci, Walker won't be going anywhere. The detectives were able to get witness statements and enough evidence to arrest Walker.

The siblings said they plan to attend every hearing involving Walker, up to the day he’s sentenced. “I want to see the look on his face when he realizes he didn’t get away with killing our mother,” said Verónica. Elaine Caldwell was the aunt of NFL wide receivers Reche and Andre Caldwell.

Police Ask For Help In Identifying Suspect

Police said a 94-year-old woman had her wallet stolen at the Publix Store on South Dale Mabry. A woman later used the victim’s debit card to make cash advances at the SunTrust Bank and again at the Wachovia Bank. She reportedly withdrew over $900.

A surveillance camera captured the suspect who is described as a Black female, 25 to 30 years old.

Three Being Sought On Armed Robbery Charges

Tampa Police report that on September 8th, three armed men entered the Cash America Pawn Shop on North Armenia Avenue.

Dressed in heads covered and wearing masks, the trio, armed with firearms, reportedly took over the business. They then put several patrons on the floor and ordered employees to open jewelry cabinets along with cash boxes in the store. They then allegedly forced the employees from one area of the pawnshop to another in order to target the high dollar items.

Along with the jewelry, police said several Ipods were also stolen. The suspects fled the business and were seen in a blue 2005 dodge caravan with Florida tag #239-XAR. The vehicle was listed as being taken from Coleman Elementary School.

All three suspects are described as Black males, 18 to 25 years old.

Polk County Detention Deputy Dies After Altercation With Inmate

The struggle occurred when Barnett was being held for a murder he allegedly committed in Highlands County and was put in isolation due to his conduct and fighting with another inmate.

Jail officials said Barnett became unruly after he was told deputies would not move him from the isolation cell and to a different facility. After Barnett was told he was being put on a suicide watch because he said he had taken muscle relaxers, he broke the sprinkler in his isolation cell, causing it to flood.

Jail records describe Barnett as 6’10” tall and weighing 225 pounds. Barnett was being held for a murder he allegedly committed in Highlands County and was put in isolation due to his conduct and fighting with another inmate.

Jail officials said Barnett became unruly after he was told deputies would not move him from the isolation cell and to a different facility. After Barnett was told he was being put on a suicide watch because he said he had taken muscle relaxers, he broke the sprinkler in his cell. After Barnett’s struggle with Sgt. Brown, deputies tried to deploy pepper balls into the cell. When deputies approached the cell, they discovered Barnett had armed himself with improvised weapons made from broken pieces of plastic. Sgt. Brown is survived by his wife, Tina and a 16-year-old daughter.

A retirement celebration to honor Ruth Jackson Fleming was held July 18, 2009, at the Clarion Hotel and Conference Center. More than 350 people filled the ballroom for the joyous, elegant evening. Levi Fleming, Jr. and Valerie D. Fleming Norman sponsored the event and Mrs. Marie Mosley was the director.

Mrs. Fleming was a Senior Financial Officer for Suncoast Schools Federal Credit Union for 34 years and 11 months. She touched the lives of many as she went about her mission on a daily basis of assisting others.

Entertainment for the evening was provided by the Brotherhood Singers, a special song composed by Lorenzo Green (program coordinator), and a champagne toast by former State Senator Les Miller were among the highlights of the evening. The DJ for the evening was Billy D and Company. Another highlight of the evening was a cameo appearance by Levi Fleming, Jr. as Smokey Robinson, a part of the walk down memory lane.

Mrs. Fleming says her retirement celebration would not have been complete without her pastor, Rev. Dr. Bart Banks (First Lady Vanessa Banks) of St. John Progressive M. B. Church and her deacon, Deacon Isaac Gallmon and Mrs. Gallmon in attendance.

Mrs. Fleming's special wards were Sharon Thompson and Gloria Smart. Abe Brown Ministries Usiers and Woodland Terrace Neighborhood Watch were hosts. The emcee for the evening was Debra Smalls. Among special guests for the evening were former co-workers and managers from the credit union, Mrs. Fleming's only sister from Tallahassee, Ms. Bernice Strawter; cousins from Jacksonville, Marvin Kirkland, Lillian Kirkland, Geneva Kennedy, and William Kennedy were among the special guests.

"Miss Ruth," as she is known, is busy now in her butterfly and vegetable garden and with her work as chairperson for the Woodland Terrace Neighborhood Watch.

On Tuesday, September 11, 2001, shortly before 8:46 a.m., hijackers took control of American Airlines Flight 11 and crashed it into the World Trade Center's Tower. At 9:03 a.m., another group of hijackers gained control of United Airlines Flight 175 and crashed it into the South Tower.

A third group of hijackers flew American Airlines Flight 77 into the Pentagon at 9:37 a.m. United Airlines Flight 93, crashed into a field near Shanksville, Pennsylvania at 10:03 a.m. The passengers had learned about the other crashes and engaged in a fight with the hijackers. The hijackers on that airplane had intended to crash into the U.S. Capitol or the White House.

At this time, the phones on the plane were activated. Shortly, the plane came on again and told us that there was a problem in the DC area and that we would be diverted to Atlanta. I called my office in Tampa and was told about the plane crashing into the Twin Towers.

We were then told where we were circling the Atlanta airport, as many flights were also going there. When we landed, we had to sit on the tarmac for a long time.

Once we were at the gate, the waiting area was full, we could not get our bags, all the Car Rental services were sold out, and only seniors and unaccompanied minors were given hotel rooms. I called a 800 number, and got a Holiday Inn close by, where I stayed until Friday, when I got a ride with a gentleman from Clairmont, Florida, who had rented a car in Dayton, OH, hoping the airport would be open in Atlanta. His car was at the Orlando, FL airport, and he gave me a ride there. I rented a car at the airport and drove to Tampa. I will always remember that day, that week.

Dr. George Fox said, "I was teaching American Government at Gaither High School when the students came into the room stating the World Trade Center had been hit. At first I did not believe them. Then I turned on the television and knew what had happened. It seemed as though everything stopped and time went into slow motion.

"Once the shock subsided, I realized, I had been initially scheduled to attend a meeting that was taking place at the Verizon headquarters a few blocks away from the Trade Center. I remember thinking the Lord kept me home that day.""

Local Business Owner Deserves Recognition

Janice Albury, a successful businesswoman who has run multiple establishments for over 19 years, needs to be recognized. Janice is a Tampa native and a Jefferson High School graduate. After graduation, she went on to earn her B.S. degree from the Springfield C. Massachusetts College (Tampa), graduating 12/19/97. She did not stop there. Although she ran two flourishing daycare centers (See Saw Junction Academy, 1 & II), Mrs. Albury pushed forward and recently received a Masters degree in August 2009. She is actively involved in local charities and can be seen on YouTube sponsoring community events. Visit YouTube.com to search Janice Albury.

John and Veronica

To my husband, John (Tatum), overcoming our obstacles, realizing that no weapon is formed against us shall prosper. Another year has gone by, “never could have made it without God on our side.”

I love you. Your wife, Veronica.

Delivered From Punishment

God is full of grace and mercy. God always gives His people blessings they do not necessarily deserve and will also withhold punishment for some sins they committed.

While He is gracious and merciful He fully expects His people to follow and obey His commands. There are consequences for disobeying God. Even in being punished there is mercy.

In this week's lesson about the Israelites and Gideon God shows punishment and mercy. Judges 6:11-3, 7-13 gives the church a glimpse of what God will do as a result of wilful disobedience. It also shows the mercy of God when the people cry out to Him.

At this time in their life the Days of Israel have sinned against God by following the ways of the Amorites (vs. 10). God instructed them to behavior and what to do, but they would not listen to Him (vs. 11).

As a consequence of disobeying Him and worshipping idols, God delivered them into the hands of their enemies for seven years (vs. 1). Oftentimes your misfortune and struggle are the results of not following the commands of God.

God will punish you for your negative behavior and refusal to obey Him. Just as you may punish your children for a length of time, God also punishes you.

As a result of the oppression in which they had to suffer they had to live in caves, mountains and strongholds (vs. 2). There are many people living a life of scarcity and privacy just to avoid interaction with those who are causing them difficulties.

Sometimes when you wonder why it seems like you are going through, you must stop and check yourself to make sure that you have not sinned against God and are being punished.

When you are being punished or God has handed you over to the enemy to chastise you, you are often times without His protective power. The reason that you are able to withstand the attacks of the enemy in your life is because you are protected by the hand of God.

But we see that whatever they planted crops people came and plundered their harvest and took what they wanted (vs. 9). When God withdraws His hand from you, the enemy comes to take what he wants and do whatever he desires.

God’s anger is but for a moment in life. They cried out to God because of the oppression and He heard them. Sometimes it is in the midst of being mistreated, used, and by the enemy that people get a "DO RIGHT" spirit.

Sometimes to stop the chastisement of God and all it takes is sincere repentance. Surrendering to God’s will and power will bring about a change in your life and situation.

God then raised up a deliverer to fight for them. In His righteousness God informs them of what they did wrong and why He is angry. He lets them know that after He has been good to them, delivered them from the hand of slavery and oppression, they still worshipped other gods (vs 10-11).

It angers God when in spite of all the good and great things He has done for you in your life for you to turn around and worship the god of the world. It angers Him when He sees that you put your trust in man and the things of man after it was Him who saved you, delivered you, and cleaned you up.

Regardless of all they did, God delivered them again. You called Gideon to be the man who would fight for them. Gideon considered himself to be the weakest of his father’s house (vs. 15). God went to the smallest family and called the smallest man (in Gideon’s eyes).

This serves as a notice that God does not have to call the biggest, baddest, and best to do great things. God knows your status and qualifications before He calls you. Your status in society and your family does not determine your usefulness to the Kingdom of God.

What makes the difference to be called by God to fight against those people and things that are big and tough is the revelation that He will be with you (vs. 16). When God calls you and the task seems too big and dangerous for you to handle, just remember that He will be with you.

TAMPA — Well, it appears that we are about to witness another piece of Tampa’s tangible “Black History” bite the dust.” The beautiful edifice with the stained-glass windows, high ceilings, balcony, pipe organ, and spacious sanctuary may soon become loft apartments. How sad… for me anyway. And no, I am not trying to make an idol of “material” things. I am thinking of our history. Period.

St. Paul African Methodist Episcopal Church was the place where almost all of our graduations were held during the era of discrimination and segregation. It was where we gathered to hear outstanding dignitaries speak, even a presidential candidate. A large number of ministers were ordained there and numerous citizens received their early religious nurturing at St. Paul. I am told that it is more than 139 years old and is a registered county and state historical site.

I realize that it is owned by the African Methodist Episcopal Church, a connectional body. As an A.M.E., I know how things are done. It goes far beyond my feelings and the sentiments of those who feel as I do. But with God, all things are possible.

We have watched Central Avenue and all of its proud and independent business owners “go away.” Then Meacham School, and now, St. Paul is on its way out.

With its current small congregation, the worship area could be reduced in size. And then, under the auspices of the church, it could become a permanent site for meetings, local community forums, health screenings, etc. (A large basement is easily accessible from the street.) It can even become a museum.

The mission of the A.M.E. Church is broad, and so much can be done by keeping St. Paul and using it.

The Mission Of The A.M.E. Church

The Mission of the African Methodist Episcopal Church is to minister to the spiritual, intellectual, physical, emotional and environmental needs of all people by spreading Christ’s liberating gospel through work and deed. At every level of the Connection and in every local church, the African Methodist Episcopal Church shall engage in carrying out the spirit of the original Free African Society, out of which the A. M. E. Church evolved that is, to seek out and save the lost, and serve the needy through a continuing program of:

1) Preaching the gospel
2) Feeding the hungry
3) Clothing the naked
4) Housing the homeless
5) Cheering the fallen
6) Providing jobs for the jobless
7) Administering to the needs of those in prisons, hospital, nursing homes, asylums and mental institutions, senior citizens’ homes, caring for the sick, the shut-in, the mentally and socially disturbed, and
8) Encouraging thrift and economic advancement.

Bottom line, retain ownership!

In closing, I know that those who do not agree with me will most likely say that I am “emotion-al,” having a “nostalgia fit,” “not thinking rationally,” or “all of the above.”

As a late, famous, musician put it, “I’m Guilty.” And I have a right to have; and express, my opinion.

Beautifully,

Curtiss Walker Wilson

“My Baby”

What’s up everybody; this is Barbara Jean from East Tampa. I have lived in East Tampa for the last 10 years and have 4 kids and all of them live with my mama. I have been “hitting the pipe” for the last 13 years, and it wasn’t until I found out I was pregnant with my 4th child that things got worst. Not only was I pregnant, but I found out I had full blown AIDS! I don’t know how I caught it, because I was not doing drugs and drinking. But I knew I had to make some changes. After I had my baby I put myself in treatment, it was hard at first because my baby’s daddy was still using and I wanted him to be a part of our life. But with help and a few months I have managed to stay clean for 5 years. I only have sex with a condom and I won’t have it any other way, I don’t want anyone going through what I’ve been through. I may have missed all the “baby years” with my kids but beautifully through my mistakes, they have learned a valuable lesson.

...brick by brick, block by block, callous hand by callous hand... together ordinary people can do extraordinary things...”

PRESIDENT BARACK OBAMA
Microsoft is officially set to release Windows 7 on October 22 of this year. Windows 7 regardless of a Slow economy is expecting to make quite a splash in the retail market. Here are a few nice upgrades to expect from Windows 7.

If you are infected by a mild virus in the past system restore would not tell you which programs will be affected by the restore command. Now Windows 7 will provide a list of programs before you decide to restore your computer to an earlier date when your computer was virus free.

Windows 7 will also make it easier to burn DVD/CD data and ISO images. ISO burning means you will be able to make backup copies of both Windows XP and Windows 7 that are bootable in case your PC crashes. No need to buy additional software such as POWISO.

If you are one of those people who found the user account control panel in Vista annoying this time around Microsoft has decided to provide a sliding bar to adjust the effectiveness of the UAC warning levels.

Windows 7 will also offer better search parameters by offering a drop down list of all your previous searches in windows explorer. The new operating system will also run faster, more stable with less of a demand for memory and processing power. You will find as well when you install Windows 7 for the first time, most if not all your drivers are already loaded to your PC.

**Disability Insurance 101**

One in three individuals will experience some form of disability in their working lifetime, according to the National Association of Insurance and Financial Advisors. Your most valuable asset -your present income earning ability, must be protected! Oftentimes we purchase insurance to protect all of our golden eggs, yet we forget to cover the goose. Also, the smaller your savings, the more you need disability insurance.

There are three main questions to ask concerning disability insurance. How much? How quickly? How long? How much, refers to the benefit amount. For incomes under $100k the limit is usually about 40-60% of your gross income. The higher the benefit amount, the more you pay for the policy. How quickly, points to the waiting period or the time you must wait before the policy pays. This is normally between 30 and 90 days. A 90-day waiting period is less expensive for obvious reasons.

How long, refers to the benefit period; typically policies pay for two years, five years, or until age 65.

When you shop for disability insurance look for these guarantees: fixed monthly payments, the opportunity to buy more benefits without having to prove your continued good health, and a policy that stays in effect as long as you pay your premium (even if you are sick).

**5 S.T.E.P.S To Success (Part 2)**

By The Queen Of Success Selphenia Nichols Simmons

"Never look back and regret, look back and smile at what you have learned."

Michelle C Ustaszeski

Empowered greetings, This week's column will focus on Step 1: Stop and Start. Focus on your past and start focusing on your strengths that will lead you to a successful future.

View poor choices, ill decisions and failures of your past as learning experiences. Henry Ford said "Failure is the only opportunity to begin again more intelligently." I say "If you don't plan on going back, Stop looking back; because you will never be rich enough to buy back your past."

Start focusing on your strengths by identifying what you do well. What is it that makes you uniquely different from anyone else, from any other business or any other ministry?

Now define in writing, how you can utilize the strength is and unique attributes to create new levels of success in pursuing your passions and purpose.

Then as the Nike slogan says, "Just Do It." Do what only you can do, because there is no one else like you. No one else can uniquely perform what you do. They may imitate but they cannot duplicate, for there is only one you. Chosen and designed to do what you do.

There is no other business like yours. There is no other ministry quite, like yours. For you are fearful and worry fully made. When you, your business and your ministry were created the mold was broken. And I believe that nobody but God can conceive the endless possibilities that you have to offer the world. So GO OUT AND DO YOU!

I am doing me, by using my strengths and attributes to EMPOWER YOU through this column. Use yours to EMPOWER YOURSELF, then go out and EMPOWER OTHERS!

Join me again next week, as I take another empowerment to focus on Success Step 2: Take Control. Until then BE EMPOWERED!

CRAB LEGS... Easy To Make and Delicious To Eat!

CRAB & SHRIMP BOIL

2 clusters of snow crab legs
½ lb. peeled & deveined shrimp
2 ears of corn, halved & 4 or 5 small red potatoes, cut

Crab & Shrimp Boil (dry)

DIRECTIONS: Using the recipe on your Crab Boil, you'll want to cook the corn and potatoes first, give the crab about 20 minutes, and the shrimp about 5. Enjoy!

DIRECTIONS ON THE GRILL: Marinate in Italian dressing or brush on olive oil right before grilling. Heat the grill to medium (300-350 degrees). Cook about five minutes on each side. The end meat part will look white and still be soft. Shells will turn a little brighter in color and have some grill marks. Just don't overcook or they will be rubbery.

Color Palette For Healthy Eating

Phytonutrients—powerful plant chemicals present in fruits and vegetables—offer a host of disease-fighting properties. Yellow, orange, and red foods like carrots, corn, sweet potatoes, squash, bell peppers, tomatoes, apricots, and melons are rich in antioxidants. Green and white vegetables offering antioxidants include asparagus, broccoli, spinach, turnips, onions, garlic, and collard greens. Their sulfur compounds activate protective enzymes. Indoles found in cabbage help inhibit cancers of the digestive tract, breast, and lung. Purple, blue, and magenta foods are rich in flavonoids and vitamin C. Choose berries, cherries, red apples, beets, eggplant, tea, and red wine. For fighting age-related symptoms, "The blueberry is king." Its antioxidant and anti-inflammatory properties help protect the brain from free-radical damage and support cognitive skills.

Tan foods supply B vitamins, fiber, minerals, and vitamin E. Enjoy whole grains, beans, brown rice, tofu, and moderate amounts of nuts. Some of the phytochemicals in these foods work to suppress carcinogenic processes. Besides plant foods, fill your diet with other healthy choices. Poultry, fish, eggs, and dairy are rich sources of protein, essential fatty acids, and vitamins. Omega-3 oils in fish reduce the risks of cardiovascular disease, cancer, and autoimmune conditions.

Once again, the numbers are in our favor.

Out of nearly 5,000 hospitals evaluated by U.S. News & World Report, only 174 were recognized in one or more specialties. We’re one of them.

TGH is again proud to be named to U.S. News & World Report’s list of “America’s Best Hospitals” in seven specialties:

- diabetes & endocrine disorders
- geriatric care
- gynecology
- heart & heart surgery
- kidney disorders
- orthopedics
- urology

We would like to thank our outstanding team of healthcare professionals for their continued commitment to exceptional patient care.
Today’s Birthday — Travel looks good this year, with minor complications. The hardest part is showing up to things you love. Instead of being sad, make it a celebration. Re-establish family roots. If you can’t get the house together at any of your homes, pick a camp-ground or hotel somewhere in the middle.

Virgo (Aug. 23-Sept. 22) — If you’re unsure, talk to your spirituality. Sometimes it’s good to get an outside perspective.

Libra (Sept. 23-Oct. 22) — You’re slow today, but steady. Set up your accounts so you won’t have to look at them for a while.

Scorpio (Oct. 23-Nov. 21) — Be careful about what you pass along. Some of the information is from a slanted point of view.

Sagittarius (Nov. 22-Dec. 21) — The work slows down, letting you do the apart-ment things like the money you’ll earn from this endeavor.

Capricorn (Dec. 22-Jan. 19) — If you start a new business now, there will be confusion, but only if you obey the rules. Don’t spend it yet.

Aquarius (Jan. 20-Feb. 18) — Keep pushing against an invisible barrier and you’ll get past. It’s not an easy row to hoe.

Pisces (Feb. 19-March 20) — Stock up on provisions for a rainy day. You may feel like it’ll never rain, but it will. Be prepared.

Aries (March 21-April 19) — You’re onto new ways to make money and gain security. Use your natural enthusiasm and fol-low through on an old dream.

Gemini (May 21-June 21) — Something’s coming due; better check your in-box. You can use the extra money this will generate. Don’t spend it yet.

Cancer (June 22-July 22) — Your friends will have some-thing to tell you. This could get you agi-tated. Remember: It’s what they do now.

Leo (July 23-Aug. 22) — The boss wants to give you a raise, but only if you obey the rules. Don’t bother asking if you’ve been habitually tardy.

Taurus (April 20-May 20) — You’re very decisive now. Make decisions and choices you can live with for a while. Declarations made now will last.

Gemini (May 21-June 21) — Something’s coming due; check your in-box. You can use the extra money this will generate. Don’t spend it yet.

TAMPA PORT AUTHORITY

INVITATION TO BID (ITB) B-013-09

REK PIER PHASE 1 IMPROVEMENTS

TPA Project No. 10-08109-03

The Tampa Port Authority (TPA) is soliciting sealed bids from qualified marine contractors interested in providing TPA with emergency repairs of Berths 226/227 (REK Pier) and Berth 230. The repairs to Berth 226/227 consist of installation of ten new mooring bollards on existing portions of the concrete pier, demolition of the existing pipe bollards, and installation of six new mooring points comprised of 60-inch diameter drilled shafts with pipe bollards. Repairs to Berth 230 consist of repair of the existing bulkhead with a new steel pile bulkhead immediately landside of the existing sheet pile bulkhead, with a change in alignment at the western end.

A Pre-Bid Conference will be held at 1:00 p.m. on Thursday, September 17, 2009 in the Board Room on the first floor of 1101 Channelside Drive, Tampa, FL 33602.

The ITB is available through a link on the TPA’s website (www.tampaport.com) and the DemandStar System (www.demandstar.com). Interested firms shall submit the completed response to the Tampa Port Authority, 1101 Channelside Drive, 4th Floor, Tampa, FL 33602. Sealed Bids are due by 2:00 p.m. on Thursday, October 8, 2009 at which time all bids received will be publicly opened and read aloud.

Firms failing to submit required ITB documents as outlined on Form BI-1 may be deemed non-responsive to the ITB. TPA encourages qualified registered Small Business Enterprises (SBE) firms to the greatest extent possible on TPA projects, and has a goal of nine percent (9%) SBE participation per contract. TPA will consider SBE participation when evaluating the bids.

This project is partially funded with a U.S. Department of Labor - Economic Development Administration (EDA) grant with funds from the American Recovery and Reinvestment Act (ARRA). The successful bidder will be required to comply with all of the EDA/ARRA grant conditions, including but not limited to, Federal Equal Employment and Opportunity Act, Davis-Bacon Act, and “Buy American” requirements. The federal goal for women and minority participation on the project is 6.9% female participation and 17.9% minority participation. This federal goal is in addition to the TPA SBE goal. Some SBE firms may qualify and be counted towards the federal goal of women or minorities participation.

Questions concerning this ITB should be directed to Donna Casey, TPA Procurement Department, at (813) 905-5044, or e-mail dcasey@tampaport.com, or faxed to (813) 905-5050.

NOTICE OF FUNDING AVAILABILITY
HILLSBOROUGH COUNTY
FY 2009-2010
STATE HOUSING INITIATIVES PARTNERSHIP PROGRAM

Hillsborough County is estimated to receive $716,936 in grant funds under the State Housing Initiatives Partnership (SHIP) Program during State Fiscal Year (FY) 2009-2010 Florida Homebuyer Opportunity Program Year which began on July 1, 2009. These funds are part of the approved State FY2007-2010 Local Housing Assistance Plan (LHAP), which are approved by the Board of County Commissioners in August 21, 2009, and by the State of Florida in August 2009. State funding for the State Housing Initiatives Partnership (SHIP) Program is based upon the amount of revenue generated through the local documentary stamps and the State-approved budget through the Florida Housing Finance Corporation.

These funds will primarily be used for down payment assistance loans to first time homebuyers for owner-occupied primary residences, that can be repaid by the income tax refund the homebuyer is entitled to under the First Time Homebuyer Credit. The state program shall be called the "Florida Homebuyer Opportunity Program."

The County will make funds available at various times throughout the year for those approved activities as outlined in our LHAP, that do not have waiting lists. The notice of funds will be posted in newspapers of general circulation, periodicals serving ethnic and diverse neighborhoods and/or on the County’s Affordable Housing Department Website at: www.hillsboroughcounty.org/affordablehousingoffice.

For additional information on the County’s SHIP Program, please contact Aracelis Guzman at 813-246-3171 or email at: guzman@hillsboroughcounty.org.
NOTICE OF FUNDING AVAILABILITY
FOR MULTI-FAMILY HOUSING ACQUISITION AND REHABILITATION

Hillsborough County was awarded $19,132,978 in funding for the Neighborhood Stabilization Program (NSP) under the Housing and Economic Recovery Act of 2008 (HERA). HERA requires the County to allocate 25% of its NSP funds for housing that serves lower income persons. These set-aside funds are limited to abandoned or foreclosed upon homes or residential properties. The Hillsborough County Affordable Housing Department (AHD) announces the availability of $6,300,000 in NSP set-aside ($5,000,000) and State Housing Initiatives Partnership Program ($1,300,000) funds for the acquisition and rehabilitation of multi-family rental housing for households whose incomes are at or below 50% of the Area Median Income.

Eligible Applicants: Eligible applicants include non-profit and for-profit organizations that have been operating in good standing with the State of Florida for a minimum of two years. Any party on the Excluded Parties List System (https://www.epis.gov/) is considered ineligible for funding. Additional requirements are listed in the RFP.

Deadline for Submission: October 12, 2009

Technical Assistance Workshop: A non-mandatory Technical Assistance Workshop will be held at the Affordable Housing Department located at 1208 Tech Blvd., Suite 300, (813) 246-3151.

See HCC Employment website https://jobs.hccfl.edu/ to review job description and instructions to (1) create/save application and (2) apply for position. The job close date is September 21, 2009.

Hillsborough Community College is seeking applications for the position of Financial Aid Manager on the Ybor City campus to manage and supervise the daily operations of the Financial Aid Office in Student Services. The position: (1) assists in the development, implementation, and maintenance of Federal financial aid programs and (2) monitors program compliance according to Federal, State and Institutional regulations. The position requires at least a Bachelor's degree and at least three years of prior financial aid experience in higher education. There is no substitution of experience for education permitted. Prefer applicants with: (1) at least three years of managerial experience in a financial aid or related work environment and (2) extensive familiarity with Federal Financial Aid processing requirements.

For more information and application forms, please visit the Affordable Housing Department web site at http://www.hillsboroughcounty.org/affordablehousingoffice/hsp/ or by contacting Joe Ann Lowden at (813) 246-3151.

Applications are available beginning September 11, 2009 on the web site listed above; at the Hillsborough County Affordable Housing Department located at 1208 Tech Boulevard, Suite 300, Tampa, FL 33619; or by contacting Joe Ann Lowden at (813) 246-3151.
