Attorney Alleges Client Beaten During Police Interrogation

BY IRIS B. HOLTON
Sentinel City Editor

According to documents filed in federal court earlier this week, police allowed a family member to strike a woman in their custody. The incident reportedly took place during a 7-hour interrogation in June.

Attorney Grady Irvin, Jr., filed a motion for a continuance in the trial of Ms. Cortnee Brantley. Ms. Brantley's trial charge of "having knowledge of the actual commission of a felony cognizable by a Court of the United States, that is, possession of ammunition by a convicted felon, did knowingly and willfully conceal and not acquiesce to." Attorney Irvin wrote, "It appears that continuously present during the interrogation were numerous law enforcement officers, at various times during the interrogation, members of Ms. Brantley's family. It also appears that during the interrogation, members of law enforcement appeared to acquiesce to Ms. Brantley being repeatedly struck in the chest by a member of her family."

"Following the marathon interrogation, Ms. Brantley was not offered a ride back to the location she was originally handcuffed, nor any other location; instead she left the downtown headquarters of the Tampa Police Department and began the 14-mile walk that would lead her past two highway interstates and multiple dark streets and roadways," the document stated. Attorney Irvin stated during a telephone interview, "The filings speak for themselves. No one should ever be subjected to any type of violence or intimidation, even if it is not being done by law enforcement."

"How do you put someone in handcuffs and not allow them to get a pair of shoes, interrogate them for 7 hours and then don't even offer them a ride?"

"I've never met Chief (Jane) Castor, but I don't think she would ever allow this to happen. Based on what I've seen, I believe that if this kind of stuff did happen, she wouldn't tolerate it," Attorney Irvin said.

The Tampa Police Department led the initial investigation and the U. S. Attorney's Office filed the federal charge against Ms. Brantley. Neither agency would comment on the allegations filed in the court document.

Ms. Brantley was arrested on July 2nd and charged with concealing Dontae Morris who killed two police officers which is a federal charge.

Minority Business Manager Leaves Tampa General Hospital

Ms. Tanita Montgomery was hired in January 2008 to serve as the Minority Business Relations Manager at Tampa General Hospital. She assumed the duties and responsibilities of Les Miller, Jr.

The Sentinel has learned that Ms. Montgomery has resigned from her position at the hospital.

A graduate of Troy University, Ms. Montgomery brought experience in small and minority business development and supplier diversity.

According to sources, Ms. Montgomery has already left the hospital. A telephone call to Ron Hyttof, President of Tampa General Hospital, had not been returned as of press time.
Citizens Committee Formed To Address Community Issues, Get Out The Vote

BY IRIS B. HOLTON
Sentinel City Editor

During the Primary Election in August, a minimal number of African Americans cast ballots. However, a group of concerned citizens came together to address issues that affect the community as a whole.

The second meeting took place Tuesday evening at Tampa Park Plaza, and while several concerns were identified, the issue that took priority was voting and the upcoming election.

Those in attendance agreed on the name, Citizens Committee and that the organization should remain ad hoc, as opposed to being organized as a formal entity. The committee was the brainchild of community activist Marvin Knight, who feels leaders of the community must come together to accomplish tasks. James Ransom served as the Facilitator.

Ransom said, "It would be smart of us to have people who are already involved to come together to address the issues."

Knight said, "We are not here to change any organization, but we can work together to utilize our officials and hold everyone accountable."

Ms. Ann Jenkins said, "We need to find an avenue to get people out to vote. We stand to lose a lot if certain people are elected. I think voting should be the top priority of this group. We have to get people to understand that once they register, they still have to vote."

State Sen. Arthenia Joyner pointed out that October 4th is the final day for residents to register to vote in the General Election. She stated that voting should be the first issue of the committee.

Atty. Warren Dawson said he agreed that time was limited and said that in addition to getting people registered, the group also needed to educate them about who to vote for.

Ms. Kay Andrews said, "We call all of the candidates and the Sentinel's Editorial Board conducts interviews. It is very critical that we elect the right people. It is so critical that we mobilize and we use this group to simulate the information. We print the list of recommendations in the newspaper, but we must use Facebook, Twitter, and other avenues to reach the young people."

In response to that suggestion, several methods of addressing the problem was discussed. The group decided to attack the problem of voter apathy from several angles.

Ms. Robin Lockett was chosen to head the group that would handle the telephone bank. Ms. Kim Jackson agreed to establish a Facebook page to reach young adults and Ms. Candy Love volunteered to help maintain the Facebook page and text messaging. Leon Galion and Reggie Lofton volunteered to lead neighborhood canvases.

The issues of absentee ballots and minimal alliances will be handled by Marvin Knight, Sen. Joyner, Rev. Bart Banks, and Rev. Willie Dixon.

The need to reach high school and college students was also addressed. Dr. Sam Wright Sr., agreed to send emails to students on the USF campus to help spread the word.

Ms. Carolyn Collins, President of the Hillsborough County Branch of the NAACP, addressed the issue of the most recent lists of names that the Supervisor of Elections will use to purge some voters. She said the list contained 112 pages and about 8,000 names.

It was agreed that a committee would address that issue with Dr. Earl Lennard, Hillsborough County Supervisor of Elections.

It was also determined that early and absentee voting was critical to the upcoming election and that many voters needed transportation to the polls.

A Strategy Committee of volunteers was also formed to address other issues such as health disparities, education, transportation, crime, youth development, and public safety. (Photography by BRUNSON).

Throughout his life Rev. Abraham Brown established himself in the community as someone who could offer assistance. He also established himself as one who sought to welcome others and make them feel that Tampa is a place to call home.

Rev. Brown died last Saturday at the age of 83. If one were to determine his legacy, it would be the impact he had on the lives of those he encountered.

Tony Dungy, former Coach of the Tampa Bay Buccaneers said, “Rev. Brown was one of the first people I met when I came to Tampa in 1996. He was a great inspiration and a friend to the community. He helped me and my family a lot.”

Dungy said he and his family visited First Baptist Church of College Hill while looking for a church. He said they visited the church several times and his wife actually started working in the food pantry.

During one his visits to the church, Dungy said Rev. Brown mentioned the Prison Crusade to him and invited him to accompany him. Dungy accepted his invitation.

“It was one of the most rewarding things I’ve ever done and the experience has been wonderful. I ran into people all the time who we visited.

“He was just so special. I have never been around a person who continually served other people like Rev. Brown did.”

I’m truly going to miss him,” Dungy stated.

Congresswoman Kathy Castor said, “The Rev. Abe Brown was a tremendous role model for our youth and was an inspiration to our community. From his football coaching to his educating as dean of Chamberlain High, he was a steady, constant presence in the lives of his students.

“He was a man of passion for the community and selflessly devoted his life to others. Instead of abandoning those who had lost their way, he worked tirelessly to help get them back on track. He instructed others to adhere to the philosophy to ‘Be a giver, not a taker. Live and lead by example.’ That is the life he himself led, always a giver, never a taker, and always leading by example. Abe Brown not only helped numerous individuals, he helped an entire community. My thoughts and prayers are with his family. He will be sorely missed.”

Senator Arthenia Joyner said, “Our community has suffered a tremendous loss with the passing of Reverend Brown. However, his good works will live on through his legacy in the Abe Brown Ministries and the thousands of lives he touched throughout his life.

“Personally, I will remember Reverend Brown every time I am driving and come to a stop sign. As my high school driver education teacher, he taught me that you come to a “full and complete stop” at a stop sign. “One of the many lessons I gained from Reverend “Coach” Brown that will be a constant reminder to me of his greatness and goodness.”

A Conspiracy Theory You Can Believe

W e are dismayed and alarmed that President Barack Obama's name has become a four-letter-word in current conservative election campaigns.

Certain candidates have resorted to ads that accuse other candidates of being pro-President Obama. Implications, of course, exclude voters who are angry enough with the Obama Administration will vote for conservative candidates, as a backlash. However, what we fear most is that what seems to be a grass-roots rebellion by the Republican Right is in fact, a well-run, well-planned effort.

Are such groups as the “Tea Party,” and Conservative Freedom March the results of secret meetings held between Republicans, select state governors and key corporate representatives to keep the Obama administration from succeeding? Consequently, Republicans agreed to use delay tactics and filibustering of Obama’s legislative agenda, committee strangleholds on key appointments and blaming Obama for all of the Bush administration’s goofs and gaffs.

Meanwhile, corporations agreed to use layoffs, limited hiring, and overworking of remaining employees to stoke voter anger while key state governors agreed either to refuse to use or stall available stimulus funds designed to jump-start state economies.

Is it a movie, or a nightmare? We say it's a reality, if voted upon.

A Sad Day For Education, Children And America

L ast Tuesday was a sad day in America. It was a sad day for children and education. Last Tuesday, the elected President of the United States, Barack Obama, went on a National Television to encourage children to get a good education. He spoke to teachers to inspire them to do a better job of educating our children.

President Obama, with the emphasis on president, spoke to parents about their roles in their children’s education.

Republicans. Obama haters. I had radicals combine to cast a shadow of gloom over the speech and the occasion. Pres. Obama did the same thing last year with the same UN. Long propaganda taking place.

The president tried to minimize the politicizing of his planned speech by releasing the entire speech a day earlier. But, this did no good. The Obama naysayers and their talk show mouthpieces want to work to demonize Pres. Obama’s speech. The results were that millions of students, parents and teachers failed to hear the president’s inspiring speech. And the president's speech was strictly about education. It did nothing to promote his political agenda or the Democratic Party. Likewise, the president’s message did not knock Republicans or rightwing out of the spotlight.

Instead, it stressed the importance of education and told students what they must do to get an education. Much to the disappointment of the Obama haters, and the education opponents, the President did not even mention them in his speech.

Just as shocking to this great group of Obama haters is the planned effort to try to get students to vote for anybody. All. Pres. Obama did was to try to prepare youngsters to live and work in a global world. Why would anybody want to keep children living in this complex world, from a message like this.

It was a sad day because so many children who need to hear this educational message may be the ones that didn’t. It is sad for America because it revealed in its truest form, of that racism is alive and well in America.

The fuss over Pres. Obama's speech to children was really not about children being politically indoctrinated, but rather about racism. It should be clear to all America by now the objective and political slandering of Pres. Obama is not in opposition to his policies, but rather about his race.

Parents, if you bought into this political hype by believing that you deprived your child of this inspirational message, it is your child's loss and shame on you!

The Sole-Man Speaks

W hen confronted with the loss of a celebrated individual, most people respond emotionally. "Oh, no!" they say. "I can't believe it" they may remark. But when a writer hears the unbelievable, what he or she does is sit, long and silent. I reflected, just recently, in the lone, silent room I call my memory, and I turned to the memories of many other men and women like Tampa activist Rev. Abe Brown.

According to a fellow-writer F. Scott Fitzgerald, which I would share with you.

Regarding a certain individual, Fitzgerald writes, "He smiled understandingly -- much more than understandingly. It was one of the rare smiles with a quality of eternal reassurance in it that you may come across four or five times in life. It faced -- or first is to face -- the whole external world for an instant, and then concentrated on you with an inscrutable prejudice in your favor. It understood you just as far as you wanted to be understood, believed in you as you would like to be believed -- to make that impression of you that, at your best, you hoped to convey."

Like a diamond between my fingers, I studied Fitzgerald’s quote. And finally, I said to myself, "You know who that reminds me of? It reminds me of Reverend Abraham Brown. ... Reverend Abe Brown to them who loved him. And literally everybody loved him."

Yes, this column about the Reverend Abraham Brown, who passed, on a Saturday, into a realm where we all must go some day... as he did, Reverend Abe, no doubt, was reunited with many other men and women of God who had preceded him. Men like Reverend A. Leon Lowry, Reverend Billy Graham and even the legendary Reverend Billy Sunday most certainly stood in line behind other men and women like Tampa activist Bob Gilder, renowned civil rights leader Robert Satterwhite, and the greatest coaches or mentors who ever graced a football field, or taught a class.

I have never had the singular honor of sitting down and eating with this preacher-among-preachers who caused other preachers to sit silently and wonder what this man said or didn’t say.

In a congregation of preachers and deacons, I sat, one Sunday morning, to listen while they talked, not as men and women of God, but simply as men and women of flesh and blood.

And out from the midst of idle conversation, came a voice, warm and reassuring -- like a coach at the 50 yard line, like a good friend who knew the secret to victory in the eyes of almost certain defeat. I put my cup of coffee down, and I stared into the eyes of one of the greatest coaches or mentors who ever graced a football field, or taught a class. Did you ever have the singular honor of sitting down and eating with this preacher-among-preachers who caused other preachers to sit silently and wonder what this man said or didn’t say?

Plans Being Discussed For October 2nd March On Washington

On October 2nd, the entire country is invited to join in and march with the NAACP on Washington, D.C. The NAACP is supporting the theme, "One Nation Working Together For Jobs, Justice and Education For All," as a coalition that will work to bring America together and put America back to work for its most precious resource — it’s people.

In a message from NAACP National President, Benjamin Jealous, "now is the time to get everyone off the sidelines and back on the battlefield."

"This march will unify the civil and human rights community, student activists, faith communities, immigration activists, small business leaders, and labor activists behind a common agenda for increasing opportunity in America."

The NAACP’s Area 9 Director, Pat Spencer, said they are still trying to finalize plans for the March.

"As of Tuesday night, the national office said organizations outside of a 12-hour traveling radius to Washington, D.C. are being asked to organize local activities."

"We know the AFL-CIO is going along with other union representatives, but they can’t just allow non-union people to travel with them without approval."

Ms. Spencer also said they haven’t had many people who said they’d go to the March if there was a cost.

"So far, no one said they’d commit."

Ms. Spencer also said if the other plans don’t work out, plans will be made to do something locally.

A longtime community activist is upset over the recent sentencing of two African American middle school students. Last year, four teenagers at Walker Middle School were arrested.

In May 2009, deputies arrested Lee Louis Myers, 14; Raymond A. Price Murray, 14; Diemante J. Roberts, 15; and Randall John Moye, 15, on May 6, 2009.

The boys allegedly committed sexual battery on a then-13-year-old male student using a broom and a hockey stick on several occasions. The alleged incidents all took place on the campus of Walker Middle School, over a range of two months.

According to reports, no physical evidence of sexual assault could be found. The reason the prosecutor used for dropping the sexual battery charge was the victim waited too long to be examined.

From the outset, the two African American teens were paraded into court with major news media coverage, while one of the white teens was allowed to move to another county with his father. One of the Black teens spent numerous days in jail because his family couldn’t afford the bail. Raymond Price-Murray, 16, pleaded guilty to one count of felony battery. The judge withheld adjudication. Diemante Roberts, 15, pleaded guilty to one count of felony battery. He is required to serve five years of probation. The judge withheld adjudication.

Randall Moye, 15, faced one count of felony battery. He is expected to receive juvenile sanctions.

Lee Myers, 14, faced one count of sexual battery. The charge will be dropped if he successfully completes a pre-trial intervention program.

Each of the teenagers pleaded guilty to felony battery. None of the four were convicted of sexual battery.

Clarence Fort, a community activist and retired Hillsborough County Sheriff’s deputy said, “I feel the sentencing meted out for the two Black teenagers was harsher than what was given to the other two defendants. “If four people rob a bank and only two of them had guns, they all would be arrested and face the same charges. It wouldn’t matter if the other two didn’t have a gun.”

Fort said he is very concerned because of the age of the teenagers. “Nine times out of ten, they will never make it and that’s sure prison time.”

“I think the community should be up in arms about this. I can’t sit by and see this happen. While I was a deputy, I arrested people for violating probation almost every day. Why couldn’t they be sentenced like the other two teenagers? As the investigation continues, we may ask other churches to join us.”

Fort also stated that he plans to file a complaint with the Hillsborough County Branch of the NAACP. He said anyone wishing to contact him can call the church at (813) 248-8101.

Mark Cox, spokesperson for the Hillsborough County State Attorney’s Office said he could not comment on the case because one of the defendants had not been sentenced yet.

The Fifth Annual Technology Bowl will be held on Saturday, October 23rd, at the Hillsborough Community College Brandon Campus. The event will feature students in a "Family Feud" style panel competition vying to win technology prizes.

Ralph Smith, founder and Executive Director of Computer Mentors, Inc., said as the competition nears, there is a need for volunteers to help make the event a success.

The event is scheduled to be an all day affair. Volunteers needed are: 3 to help with the registration (morning); 5 for setup (morning); 5 to help breakdown (afternoon); and a for lunch distribution from 11 a.m. to 12:30 p.m.

Smith said 2 Final Round Subject Matter Experts are needed immediately.

The competition will focus on their skills, knowledge of computers, and technology. Through a donation by Hobbs Family Foundation, the teams will be competing for $10,000 in technology prizes. Local organizations and businesses serve as sponsors for each team.

The list of celebrity moderators includes Bob McCann, Executive Vice President, The Nielsen Company; Ms. Lissette Campos, WFS News Anchor; Ms. Michelle Robinson, President of Verizon South-east Region; Jette B. Charlotte Officials: Light Rail Will Work If Done

BY Gwen Hayes
Sentinel Editor

Four members of the Sentinel Editorial Board accompanied Tampa Mayor Pam Iorio and Mayor Virginia Gantt, former mayor of Charlotte, to Charlotte, North Carolina last Friday to get a first-hand look at the pros and cons of an additional tax to improve the current transit system which includes light rail.

The Sentinel Board had met with both Davis (July) and Mayor Iorio (September), respectively, about the transit referendum. The Board expressed major concerns about the tax's burden on the African American community. Mainly because nothing has been presented policy-wise, that guarantees inclusion top to bottom.

The Black community is the biggest purchaser of consumable goods. The additional 1-cent tax will be added on to everything purchased that costs $5,000 and under, except food and medicine. Board members Kay Andrews, Gwen Hayes, Wilbert Malphrus and Attorney Warren Dawson met with Harvey Gaunt, former mayor of Charlotte and owner of an architectural firm; Anthony Fox, current mayor of Charlotte; Olaf Kinard, Charlotte Transit Communications Director; State Senator Malcolm Graham, former City Councilman (assistant to Ron Carter, President of NeighborhoodWorks, Cheryl Hampton).

Mayor Iorio and Patrick ‘Pat’ McCrory met the group at the main rail station to give his input on the rail, which was constructed while he was mayor. He pointed out the process will work if politics is left out of it. He added that it’s important for politicians to do what’s right for all the people, instead of doing what their friends request.

The Charlotte system was patterned after the system in Denver, Gaunt, who is African American, told the group. The first thing Charlotte did was to upgrade its transit bus system “to improve the quality of life for the folks on the lower end of the spectrum,” he said.

He added that the area communities worked together getting their ½ cent tax in 1998. The project cost more than initially proposed.

It’s also important that the community is educated on the importance of good transportation, Gaunt said.

Hampton added that there has to be residential input from the ground up; there has to be a concern for use of green space, bike routes, and the impact of the traffic flow on the community.

There was an effort to repeal the ½ cent tax, however, after groups learned what would happen to public transportation if the tax was pulled back, the community supported it.

The repeal was not the only drawback. Initially, there were problems with EPA.

Mayor Foxx said light rail presents different challenges. “Transit is expensive and it is controversial,” he said. Charlotte currently has a 5.6 mile rail system and is looking to add another 10 miles. He’s concerned about “stimulating growth without pushing people out.” He referenced how I-85 split the African American community. He, too, talked about the importance of educating the community.

He added that the rail should be put where people are. In Charlotte, the main rail station is a short distance from the Transportation Center, where the buses come in. Charlotte has just been awarded $25 million to develop a street car system.

The Street Car will travel through the African American neighborhood, near the HBCU campus. The controversy that surrounds the addition of this transit piece, according to Mayor Foxx is where will the first street car go? Kinard shared a Power Point presentation with the group and shared some numbers since their changes began in 1998. He stated that 80-100 permanent jobs were added with the introduction of the rail system, the bus system went from 100+ to 500+ buses; 365 drivers to 750 currently. The African American percentage of employees (drivers and mechanics) went from 74% to 76.2%. There is an additional 500 employee in rail para-transit.

Former Middleton Football Star Honored

Thanks to their junior quarterback, Deandre Presley, the Appalachian State Mountaineers are now number one in this week’s American Football Coaches association NCAA Division I FCS poll.

Off to only their second 2-0 start in 12 seasons, Appalachian State received 11 of 28 first place votes to edge out defending national champion Villanova.

Southern Pigskin.com honored Presley as its SoCon Offensive Player of the Week. Presley, a graduate of Middleton High School, recorded a career best 336 yards of total offense (285 passing, 101 rushing) and threw for four touchdowns, also a career high. He also became the first player in Mountaineer history to account for at least 300 yards of total offense in three of his first four career starts.

Presley, who was the SoCon and national Player of the Week following his 365-yard performance in Appalachian’s season opening win at Chattanooga, leads the nation in passing efficiency (190.5), total offense (375.5 yards per game) and touchdowns responsible for (9) through two weeks.

Presley has dedicated his college career to his father, Greg Presley, who passed away during his senior year at Middleton.

**Rogers Park Hosted Family Fun Day Scramble**

Last Saturday, Rogers Park Golf Course hosted a Family Fun Day Golf Scramble. The event attracted a huge crowd of men, women and children that participated in the Scramble. Twenty-eight teams participated in the 18-hole, 4 person teams. The event started at 11 a.m. with a delicious meal.

The meal consisted of barbeque brisket, chicken, pulled pork, baked beans, collard greens, garden salad, buns and cake.

The Scramble began at 1 p.m. with a shotgun tee off. It was a nice day and the golf course was in excellent shape.

The team of J. Cox, F. Fernandez, D. Watts and J. Scott took first place. The team of C. Wyatt, A. Wyatt and L. Williams finished second while D. Romero, R. Romero, T. Romero and T. Bakich claimed third place. There were prizes for just about everyone.

**Norman Koonce**, a 12-year-old middle schooler, would have impressed golf and dazzled everyone with his long, accurate drives.

It all ended from the event went to the First Tee of Tampa Bay at Rogers Park. Tampa Sports Authority's Golf Director, Jennie Sims, Rogers Park head pro, T. J. Head and First Tee officials, Lionel Ballard and Jimm Dent, Jr. did a great job at the event.

**Can The Bucs Continue The Roll?**

The Tampa Bay Buccaneers opened the season with an upset of the Cleveland Browns. The Browns won their last four games of last season and had high expectations for this season, but the Bucs beat them 17-14. The Bucs will take their 1-0 record on the road this weekend. The Tampa team will travel to North Carolina to play the 0-1 Panthers.

The Panthers have struggled as much as the Bucs, but the team should get their first win of the season anyway. The Bucs are a very young team playing their first regular season game on the road. The home field advantage ought to help Carolina prevail with a 6-point win.

If the young Bucs’ quarter­back, Josh Freeman can stay from interruptions, the Bucs young wide receivers play well and Carnell "Cadillac" Williams can provide a running game, the Bucs could come home with victory number two.

The David Price And Carl Crawford Show

The Tampa Bay Rays defeated the New York Yankees 1-0 in a battle between probably the best two teams in baseball.

Derrick Jeter, Alex Rodriguez, Robinson Canno, Evan Langoria, Carl Crawford and B. J. Upton, were all there. They may as well not have been because the show belonged to the Rays’ David Price and the Yankees C. C. Sabathia.

The two left-handed pitchers were masterful. They both pitched nine innings, allowed two hits, no runs and kept the bats of the opposite teams star­ting batting.

It was a game worth watching. The shame of it all is that neither of these Cy Young Award candidates got the win.

Bucs Go On The Road
To Face The Panthers

Coming off their 17-14 home victory over the Cleveland Browns, the Tampa Bay Buccaneers will hit the road Sunday to face the Carolina Panthers at Bank of America Stadium. Kickoff is at 1 p.m.

The two NFC South rivals will clash after both were predicted to finish at the bottom of their division.

Buc quarterback Josh Freeman and wide receiver Mike Williams look to continue their connection against the Panthers, the league’s fourth best pass defense last year.

The Panthers look to feature their ground game that has produced 739 yards and three wins in the past three meetings with the Bucs.

Because of starting quarter­back Matt Moore’s concussion, the Panthers may have to start rookie Jimmy Clausen.

All eyes will be on Panther running back DeAngelo Williams, who has enjoyed career bests against the Buccaneer defense. Also, wide receiver Steve Smith looked great last week in his team’s loss against the New York Giants.

Doug Williams
Nominated For NFL Hall Of Fame

Former Tampa Bay Buccaneer and Washington Redskin Super Bowl MVP quarterback, Doug Williams, is among 138 nominees for the Pro Football Hall of Fame Class of 2011.

Joining Williams as quarter­back nominees are former Cincinnati Bengal signal caller, Ken Anderson; two­time Oakland Raider Super Bowl quarterback Jim Plunkett; and Super Bowl MVP quarterback Phil Simms of the New York Giants.

Player Dies And Comes Back To Life

Demison’s heart was racing! But his pulse never subsided. In fact, it kept getting faster and stronger. "I was like, Coach I can’t breathe, and I asked him to get me inhaler," Hayward says.

"Steve Pyne says "he had been diagnosed with athlete’s asthma a couple years ago so thought maybe he was having an episode.” But Demison’s inhaler just made things worse. He collapsed into his coach’s arms.

Cardiac nurse Lisa Lyver just happened to be in the stands. “It sure didn’t look like asthma to me being as unresponsive as he was,” she says. Seconds later she was by Demison’s side. "He was not breathing, he didn’t have a pulse, pupils weren’t reacting to anything, everyone was shouting at him, at that point, started doing chest compressions on him,” Lyver continues.

"Demison’s heart stopped for two minutes. Lyver says he needed a defibrillator but she prayed for a miracle and then it happened. Lisa Lyver says, "you could actually feel his heart start beating right under my hands it’s amazing, it’s amazing to see somebody come back to life.”

"Hayward says, "I thank God for that and I thank Lisa Lyver for saving me.”

Demison is of course out for the season and will have heart surgery in a couple weeks. Doctors say if all goes well, he should be able to play football next school year.

Police: Gators' Star Arrested After 'Time To Die' Text

GAINESVILLE — According to Gainesville Police, Rainey sent the woman he dated on and off for the last three years a text message that read, "Time to die," after leaving her home Monday night.

Officer Jesse Bostick said the woman fell asleep and her home Monday night. "Time to die," after leaving sent the woman he dated on and off for the last three years to Gainesville Police, Rainey Officer Jesse Bostick said.

According to Officer Jesse Bostick, the woman got the to leave. The woman told Judge Denise R. Ferrero she does not fear Rainey, but was concerned about retribution from the public following all the media attention. Florida has not announced what disciplinary action it will take against Chris Rainey, not a part of our team right now.

In addition to being suspended without pay for the opener against the Browns, Talib was fined one additional game check stemming from punching a cab driver in August 2009.

The third-year pro was a first-round draft pick in 2008 and led the Bucs with five interceptions last season.

Bush Will Forfeit Heisman Trophy

NEW YORK — Reggie Bush took the unprecedented step of giving back his Heisman Trophy on Tuesday, saying the scandal over improper benefits while he was a star running back at Southern California should not "stain the dignity of this award."

Returning the trophy has no practical effect on Bush since he's already in the pros and a member of a Super Bowl championship team. However, it is the first time in the award's 75-year history that a player has returned it.

USC was hit with heavy sanctions by the NCAA this summer after it determined Bush and his family had received hundreds of thousands of dollars in gifts from two RedFlag California-based marketing agents. The NCAA ruled that Bush was ineligible for the 2005 season, which opened the possibility that the Heisman Trophy Trust would take back the award.

One of the few guidelines given to Heisman Trophy voters is that a player must be in compliance with NCAA rules to be eligible for the trophy. "The persistent media speculation regarding allegations dating back to my years at USC has been both painful and distracting," Bush said in a statement released through the Saints. "In no way should the storm around these allegations reflect in any way on the dignity of this award, nor on any other institutions or individuals."

"For the rest of my days, I will continue to strive to demonstrate through my actions and words that I was deserving of the confidence placed in me by the Heisman Trophy Trust."

Will And Jada's Daughter Signs Record Deal

Jay-Z told radio host Ryan Seacrest in an interview on Thursday that he thought Willow had a superstar career in front of her based on her first hip-hop single "Whip My Hair."

"I heard the record first before I knew that it was recorded by a nine-year-old and I was like, man that record's a smash," he said.

Chris Brown's Mom Apologizes For Michael Jackson Comment

His mother Joyce Hawkins felt the need to express her love for Michael Jackson and the anniversary of his death by tweeting:

In her brief statement, Ms. Hawkins states that she meant to express her son's love for the late icon and that she hopes that Chris Brown will carry out his legacy in music.

Bob Marley's Family Loses Case Over Hit Records

NEW YORK -- Bob Marley's family lost a lawsuit seeking the copyrights to several of the late Jamaican reggae singer's best-known recordings. U.S. District Judge Denise Cote in Manhattan said the UMG Recordings unit of Vivendi SA's Universal Music Group is the rightful owner of copyrights to five albums that Marley had recorded between 1973 and 1977 for Island Records. Marley died of cancer in 1981 at age 36.

Friday night's ruling is a defeat for Marley's widow Rita and nine children who had sought to recover millions of dollars in damages over UMG's effort to exploit what they called the quintessential Bob Marley sound recordings.

Community’s Help Needed
In Locating Missing Man

Sanford "Dr. San Man" Harper is reaching out to the community and asking for their help in locating a young man who has been missing for four days.

Dr. San Man said Xayvion Williams, 20, had been working with him on 7th Avenue in Ybor City selling flowers and performing other odd jobs.

"When I met him, he was homeless, and told me he had no family. I found him a place to live, and although he's somewhat capable of making it on his own, he's mentally challenged and I fear something may have happened to him," Dr. San Man said Williams was part of five young adults he's helped provide shelter for and a way to earn enough money to pay for a room and feed themselves. "I've helped six of these guys get into college, and Xayvion was next on my list. He calls me..."

Dr. San Man filed a missing person report with the Tampa Police Department and asked them to notify him if he's located.

Police said Henry Charles Warren, 26, and another person tried to rob a man at gunpoint in front of Warren’s apartment at Riverbrook Court near Martin Luther King, Jr. Boulevard.

Police said the victim escaped and the two men later tried carjacking a second victim. They failed again, and police said Warren and his accomplice robbed two women, getting away with a purse.

Police negotiators tried to make contact to determine if Warren and the second man were in their apartment, but found no one inside. They did report finding a gun reported stolen by the Hillsborough County Sheriff’s Office.

Police did find Warren and he was arrested and charged with armed robbery. Warren’s girlfriend, Joanne Fisher, 32, was also arrested and charged with being an accessory.

The suspect is described as a Black male, 30 years old, 5’9” tall and weighing 180 pounds.

**With Television Station’s Help, Police Arrest Bank Robber**

On September 10th at 3 p.m., Tampa police report that a man entered the Florida Bank on North Himes Avenue and approached a bank teller with a note.

The note allegedly demanded money and indicated he was armed with a handgun. The teller complied with the note and the suspect fled.

During the subsequent investigation, detectives viewed surveillance video from the bank and units searched the area for evidence and witnesses.

During the search, officers entered ABC Action News, located across the street from the bank. They learned the bank robbery suspect was in their lobby minutes before he robbed the bank. While in the lobby, the suspect reportedly complained to the receptionist about a story the station aired naming him as a suspect in a Temple Terrace arson last year.

The receptionist wrote down his name as she logged his complaint.

The suspect left the station and allegedly robbed the bank. Officers compared the bank’s surveillance video to Channel 28’s lobby video and confirmed it was the same person.

Making This Right

No oil has flowed into the Gulf for weeks. But we know this is just the beginning of our work. BP has taken full responsibility for the cleanup in the Gulf and that includes keeping you informed.

Restoring Gulf Communities
We can’t undo this tragedy. But we can help people get back on their feet. We have been working with impacted communities since day one.

Partnering with local governments and community organizations, my job is to listen to people’s needs and frustrations and find ways to help. We have 13 community centers and teams in four states, listening and helping.

Restoring the Economy
BP is here in Gulf communities with shrimpers, fishermen, hotel and restaurant owners, helping to make them whole.

More than 120,000 claim payments totaling over $375 million have already gone to people affected by the spill. We have committed a $20 billion independent fund to pay all legitimate claims, including lost incomes until people impacted can go back to work. And none of this will be paid by taxpayers.

BP has also given grants of $87 million to the states to help tourism recover and bring people back to the Gulf beaches.

Restoring the Environment
We’re going to keep looking for oil and cleaning it up if we find it. Teams will remain in place for as long as it takes to restore the Gulf Coast.

And we’ve dedicated $500 million to work with local and national scientific experts on the impact of the spill and to restore environmental damage.

Thousands of BP employees have their roots in the Gulf. We support over 10,000 jobs in the region and people here are our neighbors. We know we haven’t always been perfect, but we will be here until the oil is gone and the people and businesses are back to normal. We will do everything we can to make this right.

FAMU Student Has Bad Accident; Mom Needs Help

On Labor Day, Pebbles Morrell’s son, Tebari, and a friend of his, were on I-75 returning to Florida A&M University. According to Ms. Morrell, at 9:45 a.m. in High Springs, FL (between Gainesville and Tallahassee), a tire blew on their car, sending it airborne and causing it to flip three times. Fortunately, neither young man was seriously injured, but Ms. Morrell said being the single mother of five, she didn’t have full coverage on the car. "I praise God he came out of this alive, and that was nothing but God." "What I need help-with is finding a way for him to get back on his feet, and getting him a car to get back-and-forth in. He's an athlete and in 2007 won the MVP Gridiron Award at Middleton High School." Ms. Morrell said her son is not on scholarship at FAMU. "He's paying his own way through college. He's really trying hard, and all I want is a better life for him."

"Tebari is my first born and he wants to be a U.S. Marshal or a professional football player." Ms. Morrell said Tebari’s father, Coquone Ford, was murdered when he was two.

Anyone who wants to help Tebari should contact the Suncoast Credit Union and tell them you want to make a donation on his behalf.

Leaving the Old Ways Behind

There are many people who cannot enjoy a new way of living because they continue to revert back to their old ways. It is difficult to move forward while you remain tied to your past.

The children of Israel in this week's lesson from Exodus 32:11-20 continues to go back to their past ways of worship when in a situation. God does not want His people going back to their old familiar ways to solve a problem when they are faced with one.

When in a situation they think back to their old ways of worship, the children of Israel do not want to move forward with something that they will have to lead them. What is good is to worship something that you can create and control? The reason you worship God is because He is the creator and He has power and authority.

The people who did what was natural to them. Many people today do what is natural to them. Many people go back to their ways when they are in financial trouble, their relationship is rocky, and stress level is high. Although it is natural to rely on flesh, the people of God must resist the temptation.

What was Aaron's wrong? Although the people came to Their request. "Make us gods that will go before us." It is difficult to move forward in a situation. God does not want His people to make gods of the past.

As a spiritual leader you have an obligation to make sure that the people remain faithful to His and his commands.

God does not want His people moving back to former gods of the past. God's desire for His people is to forget the sinful ways of the past and hold on to the promises of the future. If you are going to move forward with God you must not return to the gods of the past.

Public Invited To Christian Concert

BY LEON B. CREWS
Sentinel Staff Writer

Samuel Laray is a young minister who hasn’t been in Tampa that long, but has made strides in reaching out to people in need and to young men pointed in the wrong direction.

On Saturday, October 2nd, Laray will host a Christian concert at Life Changing Baptist Church, 1804 West Waters Avenue from 5 p.m. to 7 p.m. He wants everyone to come out to what's going to be a blessed experience and the hottest concert in Tampa.

Laray is from St. Louis, Missouri. He found his passion for rapping and writing music at the age of 8.

At the age of 18, he gave his life over to Jesus Christ, coming from a life of drug dealing, smoking weed and gang banging, after dropping out of school.

"I was heading down the same deadend road as my friends. I saw what happened to them, and I didn't want to spend the rest of my life in prison or dead."

"When I was 17, a female and her brother put the word out on the street that I was not a person to be trusted. That's when I knew it was time for me to move on."

Laray said he decided to take a new path and look to God. He was baptized August 15, 2005, and being led by the spirit of God, he traveled to Portland, Oregon where he started to produce music while living in a shelter.

"I later moved to Brooklyn, New York and put the finishing touches on my first CD. It sold well in New York, California, St. Louis and Atlanta."

Late in 2008, Laray found himself in Bradenton, Florida and a few months later, moved to Tampa.

At the age of 25, Laray feels he is at the perfect stage in his life to reach out to people in need and to follow His doctrine, things will change for them as it has for me."

BY IRIS B. HOLTON

On Monday, September 20th, at 7 p.m., a well known gospel artist and Stellar Award winner will perform at Temple Terrace Church of Temple Terrace, 8718 N. 46th Street. The purpose of the free concert is to benefit the Hillsborough County Branch NAACP Freedom Fund Dinner.

Evangelist Beverly Crawford will perform popular songs she has recorded including releases from her fifth album, "Live From Los Angeles." The album contains the number one hit, "He's Done Enough," that remained on the top ten lists for more than a year.

Others slated to perform include Gospel Award in January 2009 for "Traditional Female Vocalist of the Year." She has also appeared on Black Entertainment Television.

She is married to Pastor Todd Crawford and the mother of two children, Todd, Jr. and Ariana. They are co-pastors of Gainesville Family Worship Center.

Evangelist Crawford released her most recent album, "Live From Los Angeles — Volume 2," last month.

The Hillsborough NAACP Freedom Fund Dinner will be held on Thursday, November 4th at Busch Gardens Desert Grill. Leon W. Russell, newly elected Vice Chairman of the NAACP National Board of Directors is the guest speaker.

Ms. Andrea White, of Bright House, and Ms. Deana Nelson, of Tampa General Hospital, are the honorary co-chairs. The theme this year is "NAACP One Nation, One Dream."

Earlier this week, the Hillsborough County School Board approved several adjustments to the current school year calendar, among them the elimination of Monday, June 13, as the last day of the school year for students.

**Class Reunion Meeting**

The Middleton High School Class of 1961 will meet Saturday, September 18, 2010 to celebrate their 50th Reunion. Reunion Chairperson, Ralph Rance, is requesting all classmates to attend and participate in the planning process. The meeting will be held at the home of classmate Alfredo Moragne, 3614 N. 18th St., 4 p.m.

For more information, please call (813) 248-5985.

**USF Black Alumni Network Preparing For Reunion Weekend**

"Let The Good Times Roll" is the theme the University of South Florida Black Alumni Network has selected for their 3rd Annual Alumni Reunion Weekend.

The reunion committee is preparing to "let the good times roll" for 4 days during USF’s Homecoming activities, October 7-10, 2010. "This year’s theme was voted on through an on-line contest posted on the network’s website," says Shomari Sanders, Committee Co-Chair, who co-founded the USF’s Homecoming activities, October 7-10, 2010.

"This is our way of engaging fellow alumni," she stated.

In addition to being a fun weekend, the alumni plan to do a service in the community Friday morning.

Part of the proceeds from the weekend will be used to establish a scholarship fund through the USF Alumni Association to benefit current students.

For additional information on the reunion, go to www.usfblassen.org.

School Board Approves Adjustments To Calendar

The adjustments included shifting the last day of school to Friday, June 10. Also, two previously scheduled early-release days – May 25 and June 8 – will be changed to full school days for students.

As a result of this adjustment, Hillsborough County students will attend school for 180 days for the 2010-2011 school year.

In other changes approved at the School Board meeting, February 11, 2011, currently a non-student/non-teacher day in West Hillsborough County ("Fair Day") will remain a non-student day in West Hillsborough County, but will become a planning day for teachers in that area of the county.

Also, March 7, 2011, currently a non-student/non-teacher day in East Hillsborough County ("Strawberry Festival Day") will remain a non-student day in East Hillsborough County, but will become a planning day for teachers in that area of the county.

Two days, October 29, 2010, and February, 21, 2011, will be reinstated as student days. That will help make it possible for students and teachers to have off the entire week of Thanksgiving, which was a popular feature of last year’s calendar.

Getting Mad Over Small Things

Anger is a natural emotion that sometimes can have a positive effect. Often, anger tells us we need to take action. Many civil rights activists would have looked the other way had they not been angered by the injustice they saw and experienced. Discrimination, however, is a big deal—being stuck behind a slow-moving vehicle is not. Someone who gets upset about being stuck behind a slow-moving vehicle is not. Some civil rights activists have an anger problem. Every little thing is likely to upset one who gets upset about being stuck behind a slow-moving vehicle.

Acne Prevention And Treatment

You can reduce your chances of developing adult acne and help treat breakouts by doing the following:

• Make better product choices. Use skin care and hair care products that are labeled as "non-comedogenic" or "non-acnegenic," because these products are less likely to cause acne comedones.
• Take the right birth control pill.
• Control your stress.
• Consider topical treatments. Ask a dermatologist about topical acne treatments, which can be effective in treating adult acne.
• Ask about oral medications. Certain oral medications and some birth control pills can help control the hormonal swings that often lead to adult acne.
• Practice proper skin care. Gently wash your face with a mild cleanser twice a day, followed by applying the right toner and moisturizer for your skin. In addition, protect your skin from the sun, and try your hardest to resist the urge to squeeze or pop any acne.

Aromatherapy

Aromatherapy can help you overcome little ailments and discomforts. For example—motion sickness, bug bites, digestive difficulties or general weariness can be treated by inhaling a little oil from a tissue, adding oil to a bath or drinking a drop of water.

Lemon Oil

Lemon oil is an effective antiseptic. Adding several drops per quart to your drinking water will help purify it and the water can act as a disinfectant to be used in washing fruits and vegetables. By adding lemon oil to your drinking water will stimulate the lymphatic and digestive systems, helping to alleviate that sluggish feeling that accompanies travel.

Eucalyptus Oil

Eucalyptus oil can be used to uplift and invigorate. Add to a bath, as a cold compress in cases of heat exhaustion and also to reduce fever. It may be blended with Geranium as a massage oil (3 drops Eucalyptus and 2 drops Geranium per teaspoon) to relieve heat cramps.

For congestion relief, add 1 drop Eucalyptus, 3 drops Lemon, 2 drops Thyme and 2 drops Tea Tree oils to a bath and soak while breathing deeply.

FLORIDA DEPARTMENT OF HEALTH HILLSBOROUGH COUNTY HEALTH DEPARTMENT
Flu, a.k.a., Influenza

**WHAT IS IT...**

The flu or influenza is a respiratory infection caused by a variety of flu viruses. The most familiar aspect of the flu is the way it can "knock you off your feet" as it sweeps through entire communities.

The Centers for Disease Control and Prevention (CDC) estimates that 10 to 20 percent of Americans come down with the flu during each flu season, which typically lasts from November to March.

Children are two to three times more likely than adults to get sick with the flu, and children frequently spread the virus to others.

Unfortunately, the flu, influenza and pneumonia immunization rates in African Americans are about 1.5 to 2 times lower than that of the white population.

Approximately 75% of all influenza and pneumonia deaths in African Americans occur among those 65 and over.

**TRANSMISSION**

You can get the flu if someone around you who has the flu coughs or sneezes. You can get the flu simply by touching a surface like a telephone or door knob that has been contaminated by a touch from someone who has the flu. The viruses can pass through the air and enter your body through your nose or mouth.

If you’ve touched a contaminated surface, they can pass from your hand to your nose or mouth.

You are at greatest risk of getting infected in highly populated areas, such as in crowded living conditions and in schools.

**SYMPTOMS**

The symptoms start very quickly and may include:

- Body aches
- Chills
- Dry cough
- Fever
- Headache
- Sore throat
- Stuffy nose

**PREVENTION**

The main way to keep from getting the flu is to get a yearly flu vaccine. You can get the vaccine at your doctor’s office or a local clinic, and in many communities at workplaces, supermarkets, and drugstores. You must get the vaccine every year because it changes.

In 2003, the Food and Drug Administration (FDA) approved a nasal spray flu vaccine called FluMist, which you can get from your health care provider. FDA approved it for use in healthy people aged 5 to 49 years.

You **SHOULD NOT** use FluMist if:

- You have certain lung conditions, including asthma, or heart conditions,
- You have metabolic disorders such as diabetes or kidney dysfunction,
- You have an immunodeficiency disease or are on immunosuppressive treatment,
- You have had Guillain-Barré syndrome,
- You are pregnant, or
- You have a history of allergy or hypersensitivity, including anaphylaxis, to any of the parts of FluMist or to eggs.

Children or teenagers who regularly take aspirin or products containing aspirin also should not take FluMist.

Your immune system takes time to respond to the flu vaccine. Therefore, you should get vaccinated 6 to 8 weeks before flu season begins in November to prevent getting infected or reduce the severity of the flu if you do get it.

Because the flu season usually lasts until March, it’s not too late to get it after the season has begun.

The vaccine itself cannot cause the flu, but you could become exposed to the virus by someone else and get infected soon after you are vaccinated.

**SIDE EFFECTS**

You should be aware that the flu vaccine can cause side effects.

The most common side effect in children and adults is soreness at the site of the vaccination.

Other side effects, especially in children who previously have not been exposed to the flu virus, include fever, tiredness and sore muscles. These side effects may begin 6 to 12 hours after vaccination and may last for up to 2 days.

**VACCINE RECOMMENDATIONS**

If you are in any of the following groups or live in a household with someone who is, CDC recommends that you get the flu vaccine.

- You are 50 years of age or older,
- You have a chronic disease associated with your heart, lungs or kidneys,
- You have diabetes,
- Your immune system does not function properly,
- You have a severe form of anemia,
- You will be more than 3 months pregnant during the flu season,
- You live in a nursing home or other chronic-care housing facility,
- You are in close contact with children 0 to 23 months of age.

You should not take FluMist:

- If you have had a severe reaction to any part of FluMist or to eggs.
- If you have anaphylaxis.
- You should get FluMist if you:
  - Have had Guillain-Barré syndrome or another type of neuromuscular or neurological disorder,
  - Have a history of severe allergic reaction to eggs,
  - Have had a severe reaction to any part of FluMist or to eggs.
  - You have a chronic disease associated with your heart, lungs or kidneys.

An apple a day won’t keep the flu away.

$30 Billion Credit Clears Senate Hurdle

WASHINGTON — In a win for President Barack Obama and his political allies, Senate Democrats on Tuesday won a crucial vote to clear the way for a bill to create a $30 billion government fund to help open up lending for credit-starved small businesses.

Democrats cracked a GOP filibuster of the bill with the help of two Republicans: Sens. George Voinovich of Ohio and George LeMieux of Florida.

The 61-37 tally sets the stage for a final vote later this week to return the measure to the House, which is likely to approve it for Obama's signature.

Thieves who broke into a southeast Houston, Texas, sports bar early Saturday morning were scared off by an employee with a shotgun. Bar manager Chris Franklin heard the four men when they broke into TK Sports Bar. Franklin said he wanted to teach them a lesson.

Surveillance video shows the crooks grabbing televisions, bottles of liquor and trying to pry open the register with a pair of scissors. Their caper came quickly to an end when Franklin stepped out and fired a shotgun blast into the ceiling. "I gave them a warning shot," Franklin said. "They left the van, the keys in the van, the van running with all the merchandise in the van."

Burglars Flee When Bar Manager Fires Warning Shot

WASHINGTON — President Barack Obama is taking to the nation's airwaves once again, this time to tell America's schoolchildren that nothing is beyond their reach as long as they dream big, work hard and focus on learning.

Obama will make that point Tuesday at a Philadelphia school when he delivers his second back-to-school pep talk.

"Nobody gets to write your destiny but you," Obama says in the speech, which the White House released a day early Monday so people could read the remarks beforehand and judge the contents for themselves.

"Your future is in your hands. Your life is what you make of it. And nothing — absolutely nothing — is beyond your reach. So long as you're willing to dream big. So long as you're willing to work hard. So long as you're willing to stay focused on your education," he says.

Obama Children's Book ‘Of Thee I Sing’ Out November 16

NEW YORK — Coming two weeks after Election Day, a book from President Barack Obama for some of the nation's nonvoters: inspirational stories for children about American pioneers.

"Of Thee I Sing: A Letter to My Daughters" is a tribute to 13 groundbreaking Americans, from the first president, George Washington, to baseball great Jackie Robinson to artist Georgia O'Keeffe. It will be released Nov. 16 by Alfred A. Knopf Books for Young Readers, an imprint of Random House Children's Books, which will officially announce the new work Tuesday. Knopf declined to identify the other 10 subjects.

Family Matters

A man travels the world over in search of what he needs, and returns home to find it. - George Moore

This column as we look at characteristics of a winning family, we must begin by deciding that our family will be a priority.

In fact, our family should be our first ministry. The foundation of our family is built on the quality of the relationship we have with our spouse and children. We build family relationships by communicating effectively while spending time together.

Below are some simple suggestions to fortify your family's quality time.

1. Rise and Shine early enough to prepare and eat breakfast with family before everybody goes to school or work. Take this time to pray over your meal and pray for a productive purposeful day for everyone in the family.

2. Walk your child to the bus stop or drive them to school. On the walk or drive each person can discuss things they would like to accomplish for the day. If time permits map out a plan verbally detailing the steps they are going to take it get done.

More next week.

A Profile In Injustice

PART I

Scott began using pain-killers after a sports injury when he was a teenager. After being in several car accidents, his dependence on the medication grew until he was taking over a dozen pills each day. Despite his addiction, Scott held full-time employment at a pawn shop and worked as a musician on the side. In September of 1995, Scott admitted to the emergency room for a painful diverticulitis attack. The doctor prescribed him Vicodin.

Several days later, Scott's roommate introduced him to a beautiful woman at a neighborhood bar. After getting drinks with Scott and learning of his recent hospital visit, the woman asked him if she could have some of his pills for her back pain. He liked this beautiful woman, felt sorry for her, agreed and gave her some of his own pills. Unbeknownst to Scott, the woman was an undercover police officer. Soon, she began calling Scott at home and at work, asking if he could get more pain medication for her.

Three months after meeting the woman at the bar, Scott was arrested for felony drug trafficking and conspiracy.

Scott pled guilty and received four 25-year mandatory minimum sentences, along with two 15-year sentences, all sentences to run concurrently, for a total of 25 years.

Sentencing Judge Speiser was appalled at the sentence he was forced to impose on a first-time nonviolent offender and spoke at the following in sentencing: "I have to express my deep concern about this particular situation...this punishment does not fit the crime. We are not talking about a first or second degree murder...with a great degree of reluctance I will have to sentence the defendant to 25 years minimum mandatory.

The man that supplied the painkillers to Scott served only five years on probation due to his subsequent cooperation with the police.

What is the message to this story? Mandatory minimum sentences are dumb. Florida's mandatory minimum drug sentences require our judges to put people in prison, sometimes for much longer than necessary, regardless of their need for treatment or lack of a prior criminal record.
