**The Future Of WTMP Lies In The Hands Of The Black Business Community**

**JAMES RANSOM**

Freelance Writer

Progress is reportedly being made in the return of WTMP as we knew it.

The Tampa Organization of Black Affairs has been facilitating meetings with investors to either purchase WTMP’s AM/FM dial, or enter into a Lease Management Agreement. The Lease Management Agreement would provide the option to either restore the original programming of WTMP.

TOBA representative James Ransom says talks are going well, but admits successfully reviving WTMP’s music, the Tom Joyner Morning Show and the community talk shows will only work with the help and support of the Black business community.

"We have to support the businesses that we care about and that includes any company that’s African American owned that provides goods and services. African American businesses stay in business because we support them. We have to contribute to our own success."

Ransom says if investors decide to pursue the Lease Management Agreement option, the current owners of WTMP have agreed to give the station’s call letters to the new investors.

A community meeting to further explain the developments is expected to take place sometime in October. The Florida Sentinel will continue to report any developments.

Meanwhile, TOBA is still accepting letters of interest from potential investors. Those letters should be mailed to: TOBA - Economic Development Committee, P.O. Box 3485, Tampa, FL 33602.

Drop Scam Has Far-Reaching Affect On Community

BY IRIS B. HOLTON
Sentinel City Editor

Earlier this month, police began making arrests in cases where the names, addresses, or personal information of citizens living and dead, were used to obtain federal income tax refunds. So far, the names of 49 people linked to the investigation were released.

Since publication of the names, the Sentinel has been visited by individuals, received certified letters, and telephone calls of some individuals whose names were released. However, a spokesperson for the Tampa Police Department stated that the list of names were handed down by investigating agencies and are linked to what has become known as the "Drop Scam.

The Sentinel has learned that individuals in the community ranging from the elderly to the disabled, to the deceased have been victimized. The Sentinel has also learned that the crime is being perpetrated by all age groups ranging from high school students to grandparents.

Police said the defendants in the cases utilize computers to access Turbo Tax and other internet tax programs to file the fraudulent claims. The refunds have been received through the mail, through direct deposit, and on ATM cards.

Howard McKnight, a longtime Certified Public Accountant said, "It slows down the processing of innocent person's tax returns and it decreases the return of good clients. That is the bottom line." McKnight further stated that the Internal Revenue Service (IRS) is now requiring that all tax preparers be registered with them.

Since the Tampa Police Department's "Operation Rainmaker," took place bringing the illegal practice to the forefront, U.S. Senator Bill Nelson and U.S. Congresswoman Kathy Castor have both called for stronger laws with stronger punishment for those convicted of the crimes.

Currently, tax fraud charges can only be filed by federal tax enforcement. However, local law enforcement can file charges of identity theft, use of false identification, money laundering, grand theft, and other charges while investigating cases.

Tampa Police Chief Jane Castor said the "Operation Rainmaker," investigation began nearly two years ago and some individuals were arrested last year. Chief Castor said, "This is certainly not a victimless crime because they are taking hard earned dollars out of the pockets of honest taxpayers.

"We are continuing to receive information and we are vigorously investigating this crime. There is no doubt that future charges will be leveled against those individuals who continue to commit these crimes."

Chief Castor also said investigations are underway by multiple agencies in numerous jurisdictions throughout the country. Some of the agencies conducting investigations include the United States Secret Service, the United States Postal Inspection Service, the Hillsborough County Sheriff's Office, the Tampa Police Department, the Hillsborough County State Attorney's Office, and the U.S. Attorney's Office for the Middle District of Florida.

Fight On School Bus Lands Mother In Jail

A Sulphur Springs mother was arrested earlier this week and charged with battery. She allegedly entered a school bus and struck a 10-year-old in the face after learning that her daughter had been involved in an altercation.

According to Hillsborough County jail records, Tomika Roshawn Jordan, 28, was arrested at a residence in the 9400 block of N. Mulberry Street shortly before noon on Tuesday. She was released after posting a $2,000 bond Tuesday night.

According to police, Hillsborough County School Bus #4447, driven by Ms. Elorna Commodore, was at the intersection of 14th Street and N. Annie, when the incident occurred. Two 10-year-old girls reportedly became engaged in a verbal disagreement. The two girls then pushed each other.

Ms. Commodore stopped the bus and walked to the back of the bus to intervene in the shoving between the girls. Apparently someone on the bus notified Ms. Jordan that her daughter was involved in a "fight," police said.

Ms. Jordan is said to have boarded the bus, went to the rear where the girls were, reached around the bus driver, and allegedly punched the other girl in the face with a closed fist. Police said everyone exited the bus after the incident.

Police were called to the scene and conducted an investigation. Officers then located Ms. Jordan in the 9400 block of N. Mulberry Street and arrested her without incident.

No injuries were reported in connection with the offense.

Senator Seeks To Repeal Mandatory Drug Testing Law

SENATOR ARTHENIA JOYNER

In an effort to undo the latest Republican fees leveled on the people of Florida, Senate Democratic Leader Pro Tem Arthenia Joyner (D-Tampa) announced recently that she has filed legislation, SB 284, to repeal the controversial drug testing of Temporary Assistance for Needy Families, or TANF to submit and pay for a drug test, whether or not there is a history of illegal drug use.

If the drug test comes back negative, taxpayers are on the hook for the refund. If it’s positive - and so far, only about 2 percent are testing positive - the applicant is denied assistance.

The legislation, however, was never needed in the first place. The federal government allows states to opt-out of providing TANF assistance to someone if they were convicted of a felony-level drug possession, use or distribution charge. Florida, however, never opted out of the provision and continued, with the exception of drug traffickers, to allow convicted felony drug offenders to receive TANF funds.

Peace Is Murdered in Afghanistan

Peace was killed in Afghanistan, the other morning. It was blown to bits by a bomber who swore his moral remains would be made immaterial by the taking of a life of another man. Our religion tells us the bomber was justified. Doubtless he will ride that he senseless act has caused the death of a gentle, peaceful man.

His name was Burhanuddin Rabbani (first name pronounced “Bur-ha-new-deen”). He was an Afghan college professor who had the nerve to demonstrate his wisdom on the road to unity for his people and within his country. He was cut down by a bomber mas­querading as a Taliban peace envoy. We are told, when Rabbani’s death was announced, certain sectors in secret societies cheered for glee. Let’s see if they continue to cheer in Hell; that is if they believe in Hell.

As for us Americans, we have seen our share of violence. We know about the murder of innocents, first hand. We remember their names: Abraham Lincoln, Medgar Evers, Harry and Harriet Moore, John F. Kennedy, Robert F. Kennedy, and Reverend Dr. Martin Luther King, Jr. But they, by far, have not been the only ones.

In America, our flag of peace is soaked with blood. Yet, we continue to believe that peace, unity and common sense shall indeed one day. The reason, we send our prayers to the peacekeepers in Afghanistan. Though your enemies may slay you, they cannot kill hope. They can only slay a peaceful man.

A Case For Tax Increase: Part Two

There are many reasons why President Barack Obama is pushing the GOP to support his Jobs Creation Plan and to raise taxes while examining the reforming of the United States Tax Code. Indeed, there are 69 million reasons the 69 million Americans who will pay no federal income taxes for 2010. If you’re rich, you may be one of them.

A study by the Government Accountability Office (GAO) reveals nearly two-thirds of American companies (1.5 billion to be exact) and 68 percent of corporate Americans (38,000) did not pay federal income taxes between 1998 and 2005. In spite of 40 percent of the federal budget being funded by income tax revenue, nearly 40 percent of Americans pay no federal income tax. Indeed, at least 1.5 million Americans received more cash from the IRS than they contributed in federal income and pay­roll taxes due to refundable credits. (Are you following us?)

But another reason for raising taxes is a middle class crisis. Welfare must pay payroll taxes on all of his or her earnings while a millionaire stops paying payroll taxes after earning more than $106,800. Check your wallet.

One celebrated historian recently commented that President Obama, by placing controls on millionaire non­tax payment, was trying to do the same thing FDR had done in the fledgling years of his administration. However, of all his successes, laying hands on rich people’s money was not one of them. Will President Obama succeed where President Roosevelt failed? Our historian doubts it. Nevertheless, we live in a realm of miracles. Who knows? The GOP may still choose America’s welfare over the notoriety of its own party and the wallets of its rich friends.

President Obama Can’t Do It Alone

Democrats, Independ­ents talking heads and loyal supporters were be­ginning to sour on President Barack Obama.

They said he wasn’t show­ing any leadership skills, he had no plans for creating jobs and improving the economy.

They said he was weak and would melt at the sight of a Re­publican.

They all said that this was not the Obama that they got to know on the campaign trail as a candidate for the presi­dency.

But, today the real Pres. Obama is looking good. He has come up with solid plans to create jobs and improve the economy.

The Republicans are united in criticizing everything that President Obama is trying to do. They lie, stretch the truth and defy the president’s efforts in every negative way that they can.

In the meantime, Pres. Obama is doing the best he can to carry out his plan and his message all over the United States.

In the interim, the Demo­crats are sitting back waiting and watching to see what will happen. It is now the president against the Republican propa­ganda machine.

Now is a time for the De­mocrats to circle the wagon and join the president’s all-out attempt to reduce unemploy­ment, reduce the debt ceiling and restore the economy.

Where is Waters, Biden, Durbin, Hoyer, Clayburn, Shummer, Nelson, Boxer, Geithier, Clever, Lewis and a host of other Democrats? In­stead of silently hiding in some back room, all of these Demo­crats should be spread out all over the country pitching the president’s plan.

They should use every op­portunity to get America­ans publically over their obstructionist role and their efforts to look out for the wel­fare of the rich, big corp­orations and Wall Street.

The silence of the Demo­crats reminds me of the health­care debate. While the Republicans criticized and at­tacked the Plan at every oppor­tunity, Democrats went into hiding, rather than standing. The Healthcare Plan and did ab­solutely nothing to promote the plan. It was all Pres. Obama by himself.

Will somebody find the Demo­crats and tell them that the president can’t do it all by him­self. Tell them he needs their help. Let them know that their fate is tied to the fate of the president.

The president and the Demo­cratic Party need to define and control the issues and not let the Republicans define the agenda and the debate. To do this, the president needs all the Democrats to be out and about publicly and visibly ap­pealing to the American people: how the plan is good for them.

Black college or university in his or her community. And, why, you can imagine the fever pitch of last week’s game between historically Black Florida A&M University and the formerly predominantly white University of South Florida. Though many Black fans didn’t happen to win, what they did expect was a fight they could be proud of.

Unfortunately, when the final bell was rung, both the (USF-70, FAMU-17) was not worthy of a basketball game. Who had won? Both had won. But what seemed to have happened, in the eyes of many, was a catastrophe they never thought they’d see.

The sole man who had a fight they could be proud of. Jackie Robinson proved it the way the immortal Muhammad Ali proved it. So, we had Black colle­giate America was given the opportunity to prove its equal­ity on the football field, its football team expanded by thousands of students. Its team grew to include campus pro­fessors, campus workers, custo­dians, cooks, security guards, students and the parents of every student as well as any­one who wanted to participate in a catastrophe they never thought they’d see.

Then, crucial questions present themselves. Given modern technology, intercampus recruiting, and scarce econ­omy, can Black colleges and their universities measure up to the challenge? Does a defeat on the foot­ball field signify a defeat in the classroom? Furthermore, what happens when the highest Black college or university plays a formerly pre­dominately white university who has as many Black players as it does its Black counterpart? Which is the “Blacker team”?

Even though FAMU walked away with a reported $26,000 in scholarships and money worth the humiliation? What did we see, last Sat­urday? Did we do our duty? What did we say? We Black folk need to sit down and talk.
The GOP War On Voting: Republicans Are Working To Prevent Millions of Democrats From Voting Next Year

As the nation gears up for the 2012 presidential election, Republican officials have launched an unprecedented, centrally coordinated campaign to suppress the elements of the Democratic vote that elected President Barack Obama in 2008. Just as Dixiecrats once used poll taxes and literacy tests to bar Black Southerners from voting, a new crop of GOP governors and state legislators has passed a series of seemingly disconnected measures that together have made it harder for groups like the League of Women Voters to register new voters.

Republicans have long tried to drive Democratic voters away from the polls. "I don't want everybody to vote," the influential conservative activist Paul Weyrich told a gathering of evangelical leaders in 1980. "As a matter of fact, our leverage in the elections quite candidly goes up as the voting populace goes down." But since the 2010 election, thanks to a conservative advocacy group founded by Weyrich, Republican's effort to disrupt voting rights has been more widespread and effective than ever. In a systematic campaign orchestrated by the American Legislative Exchange Council - and funded in part by David and Charles Koch, the billionaire brothers who bankrolled the Tea Party - 38 states introduced legislation this year designed to impede voters at every step of the electoral process.

All told, a dozen states have approved new obstacles to voting. Kansas and Alabama now require would-be voters to provide proof of citizenship before registering. Florida made it harder for groups like the League of Women Voters to register new voters. Maine repealed Election Day voter registration, which had been on the books since 1973. Five states - Florida, Georgia, Ohio, Tennessee and West Virginia - cut short their early voting periods. Florida and Iowa barred all ex-felons from registering to disenfranchise thousands of previously eligible voters. And six states controlled by Republican governors and legislatures - Alabama, Kansas, South Carolina, Tennessee, Texas and Wisconsin - will require voters to produce a government-issued ID before casting ballots. More than 10 percent of U.S. citizens lack such identification, and the numbers are even higher among constituencies that traditionally lean Democratic - including 18 percent of young voters and 25 percent of African-Americans.

Together, such measures could significantly dampen the Democratic turnout next year - perhaps enough to tip the outcome in favor of the GOP.

To help Republicans tell us, they are waging a virtuous campaign to crack down on rampant voter fraud - a curious position for a party that managed to seize control of the White House in 2000 despite having lost the popular vote. After taking power, the Bush administration declared war on voter fraud, making it a "top priority," for federal prosecutors. In 2006, the Justice Department fired two U.S. attorneys who refused to pursue trumped-up cases of voter fraud in New Mexico and Washington, and Karl Rove called illegal voting "an enormous and growing problem." The Republican effort, coordinated and funded at the national level, has focused on disenfranchising voters in four key areas:

**EX-FELONS:** The most sweeping tactic in the GOP campaign against voting is disenfranchising former prisoners. Of states requiring a criminal background check for voter registration, 16 now have conservative Republican governors who want everybody to vote, that's why. "Why should we disenfranchise people they've paid their price?" Brad Miller asked during his speech in July. "Because most of them in Florida were African-Americans and Hispanics and white people won't be allowed to vote after serving their time." Republican support for early voting vanished after Pres. Obama utilized it as a key part of his strategy in 2008. Nearly 30 percent of the electorate voted early that year, and they favored Mr. Obama over McCain by 10 points. The strategy proved especially effective in Florida, where Blacks outnumbered whites by two to one among early voters, and in Ohio, where Mr. Obama received fewer votes than McCain on Election Day but ended up winning by 263,000 ballots, thanks to his advantage among early voters in urban areas like Cleveland and Columbus. That may explain why both Florida and Ohio - which now have conservative Republican governors - have dramatically curtailed early voting. Next year, early voting will be cut from 14 to eight days in Florida and from 35 to 11 days in Ohio, with limited hours on weekends. In addition, both states banned voting on the Sunday before the election - a day when Black churches historically mobilized their constituents. Once again, there appears to be nothing to justify the changes other than pure politics.

**PHOTO IDS:** By far the biggest change in election rules for 2012 is the number of states requiring a government-issued photo ID, the most important tactic in the Republican war on voting. In April 2008, the Supreme Court upheld a photo-ID law in Indiana, even though state GOP officials couldn't provide a single instance of a voter committing the type of fraud the new ID law was supposed to stop. Emboldened by the ruling, Republicans launched a nationwide effort to implement similar barriers to voting downstate.

**DISENFRANCHISING EX-FELONS:** The sweeping tactic in the GOP campaign against voting is simply to make it illegal for certain voters to cast ballots in any election. As the Republican governor of Florida, Charlie Crist restored the voting rights of 154,000 former prisoners who had been convicted of nonviolent crimes. But in March, after only 30 minutes of public debate, Gov. Rick Scott overturned his predecessor's decision, instantly disenfranchising 97,491 felons and prohibiting another 154,000 from casting ballots. By 2012, half of all voters could be disfranchised.

**BARRIERS TO REGISTRATION:** In January, six states have introduced legislation to impose new restrictions on voter registration drives run by groups like Rock the Vote and the League of Women Voters. In May, the GOP-controlled legislature in Florida passed a law requiring anyone who signs up new voters to hand them over to the state board of elections with 48 hours of collecting them, and to comply with a barrage of onerous, bureaucratic requirements. Those found to have submitted late forms would face a $1,000 fine, as well as possible felony prosecution.

**CUTS TO EARLY VOTING:** After the recount debacle in Florida in 2000, allowing voters to cast their ballots early emerged as a popular bipartisan reform. Early voting not only meant shorter lines on Election Day, it has helped boost turnout in a number of states - the true measure of a successful democracy. But Republican support for early voting vanished after Pres. Obama utilized it as a key part of his strategy in 2008. Nearly 30 percent of the electorate voted early that year, and they favored Mr. Obama over McCain by 10 points. Rick Scott overturned his predecessor's decision, instantly disenfranchising 97,491 felons and prohibiting another 154,000 from casting ballots. By 2012, half of all voters could be disfranchised.
Georgia Inmate Executed; Supporters Claim Injustice

JACKSON, GA - Strapped to a gurney in Georgia's death chamber, Troy Davis lifted his head and declared one last time that he did not kill police officer Mark MacPhail. Just a few feet away behind a glass window, MacPhail's son and brother watched in silence.

Outside the prison, a crowd of more than 500 demonstrators cried, hugged, prayed and held candles. They represented hundreds of thousands of supporters worldwide who took up the anti-death penalty cause as Davis' final days ticked away.

"I am innocent," Davis said moments before he was executed Wednesday night. "All I can ask ... is that you look deeper into this case so that you really can finally see the truth. I ask my family and friends to continue to fight this fight."

Davis was scheduled to die at 7 p.m., but the hour came and went as the U.S. Supreme Court apparently weighed the case. More than three hours later, the high court said it wouldn't intercede.

Hundreds of thousands of people signed petitions on Davis' behalf and he had prominent supporters. His attorneys said seven of nine key witnesses against him discredited all or parts of their testimony, but state and federal judges repeatedly ruled against him - three times on Wednesday alone.

When asked Thursday on NBC's "Today" show if he thought the state had executed an innocent man, civil rights leader the Rev. Al Sharpton said: "I believe that they did, but even beyond my belief, they clearly executed a man who had established much, much reasonable doubt."

Davis was convicted in 1991 of killing MacPhail, who was working as a security guard at the time. MacPhail rushed to the aid of a homeless man who prosecutors said Davis was bashing with a handgun after asking him for a beer. Prosecutors said Davis had a smirk on his face as he shot the officer to death in a Burger King parking lot in Savannah.

No gun was ever found, but prosecutors say shell casings were linked to an earlier shooting for which Davis was convicted.

Witnesses placed Davis at the crime scene and identified him as the shooter, but several of them have recanted their accounts and some jurors have said they've changed their minds about his guilt. Others have claimed a man who was with Davis that night has told people he actually shot the officer.

The National Association for the Advancement of Colored People, which helped lead the charge to stop the execution, said it considered asking President Obama to intervene, even though he cannot grant Davis clemency for a state conviction.

Dozens of protesters outside the White House called on the president to step in, and about 12 were arrested for disobeying police orders.

Davis was not the only U.S. inmate put to death Wednesday evening. In Texas, white supremacist gang member, Lawrence Russell Brewer with Billie Jo Stovall, the 1998 dragging death of a Black man, James Byrd Jr., one of the most notorious hate crime murders in recent U.S. history.

On Thursday, Alabama is scheduled to execute Roderick Mason, who was convicted in the 1994 shooting death of convenience store clerk, Angela Cagle.

Dungys Launch New Partnership In Education With National PTA

Troy Dungy, former Buccaneers and Colts Coach and current NBC Sports commentator, and his wife, Lauren, announced a partnership between National PTA and Family First earlier this week. The couple made the announcement while reading to third grade students at Oak Grove Elementary, 6315 N. Armenia, Wednesday morning.

Family First is a national not for profit organization based in Tampa. The organization reaches thousands of parents through its primary programs, All Pro Dad, iMOM, and Family Minute.

Family First and the National PTA are developing programs to increase parental involvement in education.

The Dungys have been involved with Family First and its programs for the past 15 years.

"All Pro Dad and iMOM both have breakfast programs at 1,600 schools all over the country, where parents and children have a special time together on a monthly basis. I come from a family of educators and we know that the more involved parents are in their children's lives, the more likely they are to succeed," Dungy said.

Accident Referral Services Gives Thanks To The Community

The Michelle B. Patty Accident Attorney and Medical Referral Services celebrates 12 successful years of service to the community. This unique service is a true testament that African Americans can be astonishing business people. We as a people must believe in God "The Almighty," have trust and belief in our own talents, and do business with each other.

Ms. Michelle B. Patty decided to go into business for herself after being victimized by a television lawyer. Since then, it has been her mission to assist others and make sure they are not victimized twice after being involved in a car accident.

Her business is not a business that believes in getting rich off of the community, and her business actually gives back to the community. Ms. Patty has assisted children who have been unjustly expelled from school back into the school system. She has sponsored many sporting activities, the Sickle Cell Foundation, TOBA, church organizations, sororities, The Woods and Wanton Chapter of the Buffalo Soldiers, and many others. She has also been innovative in creating a referral service specializing in school and public transportation accidents.

This outstanding service is growing to new heights to help others by adding new components to the business, such as estate planning, and probate and elder law.

"I just want to say, thank you, to all who support my business and that includes all of you who placed a banner on your property or business," said Ms. Patty.

"It is because of you I was able to reach out and help so many people.

Models Needed For 3rd Annual ‘Essence Of True Beauty’ Fashion Show

BY IRIS B. HOLTON
Sentinel City Editor

Mrs. Sherrie Coon Collins knows that all women are not a size 5, but when one thinks of models, that is who most people think about. She set out to change that opinion by focusing attention on women who look like models, but who find their sizes a little further on the clothes rack.

Two years ago, Mrs. Collins introduced to the Tampa community the first Annual “Miss Big, Bold & Beautiful Presentation and Fashion Show.”

She is currently accepting applications for those full figured women who would like to take part in the third annual show in November. The fashion show is open to women between the ages of 18 and 45 and there is no registration fee. The women will compete for a grand prize of $1,000 in cash and prizes.

Women hoping to compete will receive pageant coaching, have an opportunity to attend pageant workshops, and along with individual training.

Mrs. Collins, Pageant Director and Founder said, “We are encouraging full figured women to participate in this exciting event. We believe that divas come in all sizes and every woman wants to look her best. Men are also invited to participate in this exciting event.”

In March of this year, inclement weather resulted in hundreds of thousands of dollars in damage to Progress Village. Next week, several organizations will begin the rebuilding process in the community.

The national leading non-profit organization, Rebuilding Together will partner with the Rebuilding Together Tampa Bay, Lowe's Charitable and Educational Foundation, and Carter's Kids. On Monday, September 26th, the organizations will build a new playground for the Simmons Bowers Park.

Volunteers will also renovate four homes in Progress Village damaged during the inclement weather earlier this year. The project is called "Keeping Progress in the Village."

The project serves as a milestone for Rebuilding Together Tampa Bay. The organization has helped the Progress Village community complete renovations on more than 40 homes since April. The residential repairs and rehabilitation services were possible as a result of a partnership with the organization and the Hillsborough County Board of Commissioners.

On Wednesday, September 26th, a ribbon cutting ceremony will take place at p.m., at 5208 86th Street South, in Progress Village.

The Tampa Boyz is a group of young men who love the Lord and gospel music. “Our vision is to reach and minister to others through gospel music,” says Tyrell Pittman, spokesperson for the group, and strive to live for Jesus Christ through our musical journey.”

This national recording group has ministered across the country. “We try to do something in our hometown at 2-3 times a year,” he says.

The group will be hosting its Triple Single Release Concert on Sunday, September 25, 2011, 5 p.m. at the College Hill COGIC Conference Center, 1002 E. Dr. Martin Luther King, Jr. Blvd. Doors open at 4 p.m.

The Tampa Boyz came together in 2003 as the Sensational Brothers. At the time there were 4 members, teenage friends. As they became known throughout the city and increased in numbers, the group changed its name in 2006 to the Tampa Boyz. “We wanted to represent our city wherever we went,” Tyrell stated.

Although many may not know it, the Tampa Boyz has its influence from Tony Pittman, Sr., lead singer for the Harmony Winds and father of some of the Tampa Boyz. Influence also comes down from the grandparents, original singers of the Harmony Winds, T. C. and Ethel Pittman (parents of Tony Pittman, Sr.).

Members of the Tampa Boyz are in some way musically involved in their churches – Potter’s House Deliverance, Springhill M. B. Church, First Baptist Church of Seffner, New Dawn, Risen Church and assistant manager, Mary Grace and Johnnie Mae Capheart, are members of Mt. Olive M. B. Church and Greater Hope M. B. Church.

This weekend’s program will be the first for the group’s newest member, DeAndre Jacobs, who’s excited about his debut.

The Triple Single CD Release Concert will feature releases from the Harmony Winds, The Tampa Boyz and new solo artist, Crystal Capheart, who started singing in her family’s group, Tony Pittman and the Harmony Winds at the age of 12. Also performing will be Poo Wee Callins of Plant City, Cepeda McKay and No Limits, Simply Redeemed, Micheal Walker and the Love Ensemble, Mighty Sons of Zion and the Original Florida Spiritualizers.

Members of the Tampa Boyz other than Tyrell and DeAndre are: Marquay Ellington, Tony Pittman, Jr., Justin Capheart, Nelson White, Joseph Butler, Charles Cody, Jr. and Demetrius Bailey. Norris

Funeral Planned For Soldier
Killed In Afghanistan

BY IRIS B. HOLTON
Sentinel City Editor

U. S. Army Spc. Christophe J. Marquis was injured on August 29th during an attack. He and his unit were in Kandahar Province, Afghanistan, when the attack took place. Spc. Marquis was taken to Landstuhl Regional Medical Center, in Germany, where he later died from the injuries he sustained on September 4th.

Funeral services will be held on Saturday, September 24th, at 11 a.m., at Springhill M. B. Church.

Spc. Marquis moved to Tampa in July 2008 and opened a business in downtown Tampa. He had plans for his business, the 902 Sports Café, located in downtown Tampa.

Later that same year, the Strasbourg, France native met his future wife and she said it was an instant attraction. Mrs. Brittany Marquis said it seemed too good to be true.

In less than a year, the couple married on August 31, 2009 and decided to live in Tampa. And, she later learned that they were going to be parents. Their son, Christopher, celebrated his 2nd birthday on September 14th.

However, Mrs. Marquis said she last saw her husband in March of this year before he was deployed to Afghanistan. However, she said she did talk to him on their second anniversary. She later learned that he couldn’t hear her, though.

Mrs. Marquis, 22, described her husband as an individual who enjoyed nature, long walks and extreme sports such as bungy jumping and sky diving.

He was the son of Mrs. Francine Soucat and Joel Marquis. Spc. Marquis also had a sister and 3 brothers. His wife had met his mother and sister earlier. They were planning for her and their son to meet his father and brothers in January after he returned from Afghanistan. She met her father-in-law and brothers-in-law after her husband died.

Mrs. Marquis said that when they met, she thought he was just too good to be true. Although he was older than she, he wasn’t married and didn’t have any children. But she soon had a change of heart. “I knew it was meant to be.”

Spc. Marquis will be laid to rest on Monday at the Florida National Cemetery in Bushnell, Florida.

Mrs. Marquis and family will receive friends from 6 p.m. to 7 p.m. at Wilson’s Funeral Home, 3000 N. 29th Street, on Friday, Wilson’s Funeral Home is in charge of handling arrangements.
Mother, you never run out of ways to be a wonderful mother. We hope we never run out of ways to say thank you. Happy birthday.

Love, all nine of your children, twenty-two grandchildren and twenty-one great grandchildren.

A big birthday bash “Friday” at her house.

Earlier this week, a federal judge agreed to delay the bribery trial of a former Hillsborough County Commissioner facing bribery charges. The trial was scheduled to begin next week.

Federal Judge James D. Whittmore granted the request of Attorney Grady Irvin, Jr., to change the trial date until October 315 to provide more time for preparation in the trial of Kevin White.

Attorney Irvin, Jr., who is court appointed to represent White, told Judge Whittmore that in light of recent revelations about co-defendant George Hondrellis' mental condition could change the course the defense may take.

Last week, Hondrellis was ordered to undergo a mental health evaluation. The evaluation could take up to 30 days. A sealed report alleges that Hondrellis has a preliminary diagnosis of paranoid schizophrenia.

In June of this year, a 10-count indictment against White was filed in federal court alleging bribery, conspiracy, wire fraud, mail fraud and lying to an FBI agent. Hondrellis was indicted on 9 of the same charges. Hondrellis was not charged with lying to the FBI.

In the indictment, prosecutors allege that White, who was the Public Transportation Commission Chairman, and his father, the late Gerald White, Sr., collected cash bribes, and a vehicle, a 2003 Lincoln Navigator.

Freeman Earning Label Of Comeback Kid; Will Be Ready For Falcons

Josh Freeman and the Tampa Bay Buccaneers are notoriously slow starters who are developing a reputation for being strong closers. The NFL's youngest team rallied from a 27-point deficit to beat the Minnesota Vikings 24-20, with its overtime for the eighth time in 27 career starts on Sunday.

It's the league-leading sixth comeback win for Freeman since the start of the 2010 season. The eight overall since becoming the Bucs starter midway through his rookie year are the most so early in a career, surpassing Jake Plummer's seven in 25 starts and Peyton Manning's seven in 31 games.

"Josh is the man obviously. He's earned the label comeback kid," said running back LeGarrette Blount, who scored a pair of second-half touchdowns against the Vikings, including the winning score in the final minute.

Freeman said he will be ready for the Atlanta Falcons Sunday at Raymond James. The game starts at 4 p.m.

"Hopefully, we can establish a running game early to keep their high-powered offense off the field."

Bryant who lived in Italy as a youth while his father played pro ball there, would be a huge attraction for Virtus Bologna.

The team's owner, Claudio Sabatini told an Italian blog on Nov. 13 when the Italian League hoops season opens. The deal would have NBA opt-out for when the stateside League hoops season opens.

DUNTA ROBINSON

NEW YORK – Dunta Robinson will pay for his D a g r -r n t hit on the Eagles' Jeremy Maclin. He won’t be suspended.

The NFL on Monday fined the Falcons cornerback $40,000 for the hit in which he led with his helmet and crashed into Maclin in the third quarter of Atlanta's 35-31 win over Philadelphia on Sunday night. Robinson was penalized 15 yards for unnecessary roughness. The league did not suspend Robinson although it has said hits like the one he put on Maclin could lead to such action. Robinson is a repeat offender, having been fined $25,000 last year for a similar hit on the Eagles' DezEnde Jackson that left both play­

ers with concussions.

In a letter sent to Robin­

son, NFL vice president of football operations Merton Hanks noted that “future offenses will result in an esca­

lating of fines up to and including suspension.”

Commissioner Roger Goodell was advised of the decision, and said “we felt this was the appropriate disci­

pline.”

PACKERS S Collins Out For Season With Neck Injury

GREEN Bay, Wis. - It's a new season but the same old problem for the Green Bay Packers: Pro Bowl safety Nick Collins was ruled out for the season on Monday because of a neck injury, a continuation of the wave of injuries the team dealt with on its run to the Super Bowl.

Collins was carried off the field on a stretcher after sus­

taining a frightening neck injury in the fourth quarter of Green Bay's victory at Carolina on Sunday. Collins spent the night in the hospital and returned to Green Bay on Monday afternoon to meet with the team's medical staff.

Agency Says Man Masquerading As QB Vince Young

If a man contacts you and says he is the third-string quarterback for the Philadelphia Eagles, be suspi­

cious.

Someone is impersonating Vince Young, according to the agency that represents the veteran NFL quarterback. "I heard that he has been taking money, taking pictures with little kids at hospitals," Young said on Monday. "It's been real sick."

EAG Sports Management company said in an email that it had become aware of a man posing as the quarterback in the D.C. area. According to EAG Sports Management agency, since June the man was collecting money for appearances as the quarter­

back, "coming unsuspecting women and some men into believing his scam."

The impostor struck several times in the past week or so, according to the Vince Young Foundation — the non-profit for which the impostor has said he is taking money.

Tiger Narrowly Qualifies For His Own Event

WMONT, Ill. - Tiger Woods was among the win­

ners after the BMW Championship, even though he didn’t play.

Woods slipped to No. 49 in the world ranking Sunday, meaning he will be eligible for the Chevron World Challenge, the tournament he hosts in Southern California in December.

The Chevron World Challenge was allowed two years ago to offer ranking points, provided it have only two sponsor exemptions and both were among the top 50 in the world. Woods was at No. 46 going into the week, and was passed by Geoff Ogilvy, Sergio Garcia and Bill Haas.

The tournament could have asked the PGA Tour for a change in criteria to allow Woods to play, although it might not have been able to award ranking points.

The tournament will be played Dec. 1-4 at Sherwood Country Club.

Russell Simmons Planning To Buy Television Network

Following in the footsteps of Oprah Winfrey, Hip-Hop mogul Russell Simmons is planning to buy his own television network. The Wall Street Journal reports that Uncle Russell is looking into purchasing a TV network that focuses on diversity, unlike the Black Entertainment Television network, which focuses on bad television programming.

"I am going to buy a TV network," Mr. Simmons said during an interview at a charity event in Hong Kong. Simmons is also looking to start a network that crosses ethnic lines saying that mainstream television’s idea of “diversity,” actually means that “they mean segregation. ‘Let’s do some more black TV.’ Instead, there’s all these cultures that should be more integrated properly.” Instead of giving Paris Hilton a show, for example, you could do one with Amber Rose," he said. “You’d be better off. One is hot, the other is not. Networks are a little slow in how mainstream culture is shifting. There’s a lack of integration in Hollywood, and I want to address that.”

50 Cent Sued Over Assault At Connecticut Mansion

50 Cent is facing a lawsuit from a woman that claims she was assaulted at the Queens rapper’s Connecticut mansion.

The alleged victim, Vasti Ortiz, filed the lawsuit in Superior Court of Hartford, Connecticut.

Ortiz says she and her friends were invited to 50’s mansion around 3:30 A.M. After arriving at the home, Ortiz claims she was accosted by McKenzie with “awkward sexual requests.” When she refused and attempted to leave, Ortiz claims McKenzie ordered a woman, Michelle Krzykowski, to attack her.

Ortiz says she was only able to escape after pepper spraying McKenzie and Krykowski.

She was then rushed to the hospital where she needed nearly a dozen stitches to close a head wound she received during the altercation.

An anonymous complaint has resulted in the arrest of a 15-year-old high school student. The incident took aboard a Hillsborough County School bus Wednesday morning.

According to the Hillsborough County Sheriff's Office, School Security received information that a student riding a bus had a stun gun. School Security located the bus that was en route to King High School, on Orient Road across from Tampa Bay Technical High School.

School Security officers reportedly located the student named by the caller and removed him from the bus. Police said that during a search, the student had a stun gun in his possession and four small plastic bags of marijuana. The student, reported to be a male, 15 years old, was taken to the Juvenile Assessment Center.

The Tampa Police Department is currently seeking three men who allegedly robbed three University of Tampa students this past weekend. Two of the men reportedly used one of the victim's credit card at a convenience store about an hour after the robbery.

According to police, around 10:30 a.m., Sunday, Dillon Maag, Courtney Lofus, and Esteban Roman were at the intersection of North Blvd., and Ross Avenue. The three were walking home from a party when two men jumped from behind telephones.

One of the men pointed a gun at the victims and the other punched one of the victims. The men took their wallets and fled the scene possibly in an older model dark colored sedan. The victims described the assailants as black men between the ages of 19 and 25. One suspect was about 5'10", weighed 160 pounds, and was wearing a grey v-neck tee shirt and dark jeans. He also had short hair and a diamond earring.

The second suspect was about 5'11", weighed about 165 pounds. He was also wearing jeans, a mask, and was armed with a gun. Police said about an hour after the robbery, the first suspect and a white male described as being about 5'9", 150 pounds, wearing jeans, a plaid shirt, and a black and white hat entered a 7-11 Store at 2302 West Waters Avenue.

At one point, one of the men is shown on the video yelling at the store clerk about being overcharged. Police are asking the public for any information about the robbery.

A 15-year-old girl reported to police that she was the victim of a sex crime on Tuesday afternoon. The attack took place on a pedestrian footpath between 34th and 35th streets in the 4600 block.

According to the St. Petersburg police detectives are investigating the sexual assault took place about 3 p.m. The victim told police that she had exited a PSTA bus on 34th Street, South and was riding her skateboard east bound on the path heading towards 31st Street. While under the interstate overpass she was grabbed from behind by a male suspect who pulled her down to the ground and committed the offense.

A 31-year-old woman told police that she was the victim of a sex crime on Monday, July 20. She was walking on her bike in a park near a cemetery when a man grabbed her, forced her to the ground, and sexually assaulted her.

Detectives are asking anyone with information to contact Detective Paul Harner, St. Petersburg Police Department, at 727-893-7780 or call the Tip Line at (727) 892-5000.

USF Bulls Successfully Defend Winning Streak Against Rattlers

On Saturday, September 17th, THE University of South Florida Bulls took on the Florida A & M University Rattlers. Many believed that USF would win big, but not 70-14. USF is 3-0 and ranked #18 in the AP polls. (Photographs by Toby Scott).

Biegler “BT” Thompson and Gath Mihon were on hand to support the Rattlers against the USF Bulls.

Allen Thompson, Eddie Brown, Edwin Narain, Cedric McCray, Anthony Smith and Victor Anderson, members of the Kappa Alpha Psi Fraternity, Inc., had a good time at the tailgating party before the game.

Johnnie Jones, Sr., and Johnny Jones, Jr., threw up the Bulls’ sign. Johnnie Jones was a major contributor to USF football from 2001-2004.

Stephen Johnson, Adrian Green, Jeffrey Belle, Felicia Jenrette, Dante’ Martin, James Jackson, Antonio Williams and Carlos Saffold, of the “Marching 100,” are all from Hillsborough County.

Eddie Stewart of Verizon Wireless, showed off some new products at the game between the USF Bulls and the FAMU Rattlers.

Members of Rivers of Life Church Ministries, of Brandon, enjoyed themselves before the game.

Members of the Florida A & M University 2011-2012 Cheerleading Squad were on hand to support their football team.

USF Sun Dolls, Bethany Hemmans, Allison Martin, Baranese Miller and Brittany Figlon were ready to cheer for the #20 ranked Bulls.

Recently, the children of Percy and Maria Hodges and some 150 guests celebrated their 60th wedding anniversary. The event was held at the Cuban Hall Patio, where the guests of honor met some 62 years ago.

Guests enjoyed Cuban cuisine, a musical program, and tributes from family and friends. The highlight of the evening, however, was a letter of congratulations from President Barack Obama as well as a letter from Mayor Bob Buckhorn.

Stop And Think!

There are millions of decisions being made daily that have the ability to change the course of a person’s life. When making decisions it is important to think rationally and with wisdom. A person must be able to step back and take full examination of a situation and discern what is good and right before making a decision.

This week’s lesson from Proverbs 25:1-28 draws a contrast between heaven and earth and God and man. The writer records the proverbs of Solomon that have been preserved by King Hezekiah (vs. 1). He records that God will conceal a thing; but it is glory of kings to search out a matter (vs. 2).

This verse shows the difference between God and man. God has already figured it out, worked it out, and kept it from you. Man on the other hand is still trying to figure it out. Man is trying to find what God has hidden. You can save yourself a lot of heartache and headache when you go through difficulties and trials if you learn how to trust God. Life will be better when you realize that God has the solution while you are still trying to figure out the problem.

Verse three paints the picture by saying, “As the heavens are high and the earth is deep, so the hearts of kings are unreachable.” God wants humanity to know that you can search far and wide on this earth to find your answer and try to get understanding and still come up empty. Your true understanding is not in the earth, but it is in Him. Just as the people did not understand the Wisdom of Solomon in his days, neither will people understand you when you make decisions based on the wisdom of God.

Verse four and five are to be considered together. Wisdom is saying if you get the impurities out, then righteousness will be left; once righteousness is established you can be established.

There is a particle in silver that must be removed before it can be pure. In order for a king to rule in righteousness, evil must be taken away. In life, there are impurities that must be removed so that righteousness can be established. If you are going to make wise choices in your life you separate yourself from foolishness.

Do not exalt yourself and do not claim a great place; but let them invite you up; for it is better than being humiliated (vs. 6, 7). Do not make yourself big or place yourself on a pedestal. You do not have to exalt yourself. If you do what is right and walk in wisdom, people will blow your horn for you. People will start looking upon you for guidance and seek you out.

Verses eight, nine, and ten give direction about handling issues between neighbors and friends. Wisdom says be careful how you deal with issues between you and someone else and make sure you don’t involve a third person. Because there is mess, does not mean you have to be messy.

In any situation you want to guard your reputation. Wisdom says do not betray a person’s trust. When you do, they can bring you to shame. Once the truth comes out, you can look bad and your reputation will be tarnished. When people hear of it you may not lose your bad reputation (vs. 10).

Do not hastily make decisions that can have a negative outcome. Make decisions based on principles of wisdom. Seek God for direction and understanding. While you are trying to figure it out, God has already worked it out.

Sweet Advice
Yogurt is good for you, but keep an eye on the sugar. Look for a brand that contains 16 grams of sugar or less per serving.

Organic Foods
Help Kids’ Health
Children’s major source of pesticide exposure is from food. A study found that kids with higher-than-average pesticide levels in their urine were twice as likely to have attention deficit hyperactivity symptoms. However, children given organic produce have significantly lower residues of pesticides in their bodies.

Feel Young
By Sleeping
Sleeping for a normal (6-9 hrs.) duration every night is linked to a better quality of life and a lower risk for depression. Although most people’s sleep needs vary, most adults need about 7-8 hours of sleep every night to feel well rested.

Soothing Help
For Hay Fever
If you’re among the 1 in 5 people who suffer from hay fever, try a soothing solution to reduce your sneezing, alleviate sinus pressure, runny noses and congestion.

Soothing Sprays
Moistening the nasal passage with saline sprays or washes can provide relief. They help to liquefy secretions, eliminating buildup. They also reduce inflammation, decrease post nasal drip and flush mucus and allergens.

Cut Your Risk Of Stroke With Coffee
A large study from Sweden finds that drinking coffee may lower a woman’s risk of stroke. Women who drank at least one cup of coffee per day had a 22-25% lower risk of stroke.

Women who drank little or no coffee had a slight increase in stroke risk. Drinking more than a cup a day did not result in further risk reduction.

The researchers believe that coffee intake may reduce inflammation or improve insulin resistance.
Take Your Vitamins

Small deficiencies of certain nutrients may lead to serious health conditions. Diseases associated with aging, such as cancer, heart disease and dementia may be the consequences of mechanisms the body has developed to preserve vitamin- and mineral-dependent reproductive functions during times of shortage. A modest shortage would result in the nutrients being used only for the 'essential' functions at the expense of others, leading to 'insidious metabolic damage' that over time accelerates aging.

Taking a multivitamin supplement will ensure that you have an adequate nutrient intake as you age.

See Your Way To A Visibly Brighter Future

Here are a few ways to increase the chances that your vision stays clear and sharp as you age.

- Get regular eye exams and an eye disease screening at age 40. Exercise and eat a balanced diet.
- Beta Carotene (a form of Vitamin A), Vitamins C and E and the mineral zinc are all important nutrients for healthy eyes.
- Omega-3 fatty acids, found in fish, flaxseed, canola and walnut oils, may lower the risk of cataracts and prevent the progression of macular degeneration.
- Supplements with antioxidants and anti-inflammatory properties such as lutein and zeaxanthin which are the natural red, yellow, orange and green pigments found in fruits and vegetables can help reduce symptoms of visual fatigue and improve vision, particularly contrast sensitivity in people who spend long hours in front of a computer screen. They can also help protect your eyesight into the future.

Fiber Leads To Longevity

Fiber consumption is linked to lower risk of death from cardiovascular, infectious and respiratory diseases.

Fiber Consumption Should Consist Of

- For Men - the average range should be 13-29 grams per day.
- For Women - the average range should be 11-26 grams per day.

Whole grains were the best source of getting fiber; however, fruits and vegetables are also high in fiber.

Try Calcium For Weight Loss

Taking calcium supplements can contribute to weight loss and fat reduction. Calcium supplementation generates small, yet significant weight loss in overweight and obese people. Taking 1,000 milligrams of calcium per day results in a yearly loss of about 4 pounds of fat.

Detox Your Skin

Here are a few lifestyle steps you should take to help detox and cleanse your skin.

- Stop smoking!
- Don’t drink alcohol or drink in moderation.
- Drink plenty of water.
- Drinking water stimulates your kidneys, liver and your digestive functions. It boosts your metabolism and accelerates the elimination of toxins and fat. It not only delivers nutrients to our cells and keeps our kidneys functioning well, but also aids in eliminating wastes and toxins. For glowing and healthy skin, drink at least 6-8 glasses of water every day.
- For even deeper cleansing, add a few slices of naturally-cleansing lemons.
- Exercise! Sweat helps rid the pores of harmful toxins and activity, of course, helps to keep your body looking right, too.
- Eat healthy by eating organically-grown foods, fruits and vegetables, which are easily assimilated by your body and help in eliminating waste and reduce cravings for sugar.

Detox Baths

Have a detox bath once a week to eliminate toxins. Add the following to warm bath water: 1 cup baking soda (to help neutralize the acids in the toxiic), 1 cup Epsom salts (to draw more fluids and toxins out of the skin), 5 drops lavender essential oil (gentle antiinflammatory), 5 drops chamomile essential oil (anti-inflammatory and antifungal) and 5 drops lemongrass essential oil (skin revitalizer). Don’t use lemongrass essential oil, if you have sensitive skin.

**SKIN NEEDS PROTECTION, NO MATTER WHAT COLOR**

USF’s Dr. George Cohen specializes in skin of color.

People of color represent one of the fastest growing segments of cosmetic therapy, yet few physicians specialize in treatments for these consumers and are unable to provide them with expert care.

George Cohen, MD, assistant professor in the USF Department of Dermatology and Cutaneous Surgery, specializes in skin of color and hears from patients every day their frustrations for finding someone who understands their unique needs.

“Many blacks, Asians, and Latinos have concerns about their skin and appearance and would like to have their specific problems treated, but are not sure if treatment is safe or where to turn.” Dr. Cohen said. “They have been told for years that they cannot have laser and other cosmetic procedures when, in fact, they can. The key is finding the expert who knows their skin.”

Dr. Cohen is certified by the American Board of Dermatology and has published several articles in medical journals on dermatologic issues affecting ethnic skin. He specializes in the key issues affecting people of color, such as keloids, vitiligo, unwanted facial hair, and dark spots.

Obama Endorses Ending 1 Day Of Mail Delivery

WASHINGTON — Pres. Barack Obama said Monday the U.S. Postal Service should be allowed to reduce mail delivery to five-days-a-week to help cut its massive losses. The Postal Service lost $8.5 billion last year and is facing even more red ink this year as the Internet siphons off large amounts of first-class mail and the weak economy reduces advertising mail. While the post office has cut more than 100,000 workers in the last few years it needs to cut more, close offices and find other ways to reduce costs to keep operating.

In his economic growth and debt reduction plan unveiled Monday, Pres. Obama endorsed the idea of dropping one day of mail delivery — it is expected to be Saturday — and urged other changes in postal operations.

Top Natural Hair Salon Owners Discuss Industry’s Explosive Growth

One doesn’t have to look far for evidence that wearing natural hair is still unacceptable to many in the mainstream. Only four short years ago, a Glamour magazine editor presented a slide show on proper corporate fashion during which she declared the afro "a real no-no" and dreadlocks "truly dreadful." Despite such negative feedback, more and more African-Americans are falling in love with their natural hair and seeking salons that cater to this interest.

Leaders of natural hair care salons nationwide have shared some of their insights into this growing market with us - and their favorite products - highlighting the exciting expansion of this beauty revolution.

As more black women (and men) explore their natural hair options in droves, this new aesthetic will become more common in the workplace. Corporate America might have to adjust to our new standard of beauty, as the growth described by these natural hair care salon owners is certain to continue.

White House Rejects Pardon For Marcus Garvey

The White House isn’t letting Marcus Garvey off the hook even after his demise. Donovan Parker, a Jamaican attorney in Florida, who has been writing to the U.S. President every week requesting a posthumous presidential pardon for Garvey was denied.

"It is the general policy of the Department of Justice that requests for posthumous pardons for federal offenses not be processed for adjudication," Ronald Rogers, White House pardon attorney told Parker in a letter.

Garvey was convicted in the 1920s of mail fraud and was incarcerated for almost three years before he was released and deported to Jamaica.

Cornel West Leads Liberal Search For Obama Challenger

An online community known as the New Progressive Alliance (NPA) is looking for a primary challenger to President Obama.

"President Obama has to be accountable to his base. The progressive party got him elected," said the Brooklyn native. Jasmin once supported Pres. Obama and volunteered as a deputy field organizer during Pres. Obama’s presidential campaign in North Carolina and South Carolina.

The NPA expects a nominee to fully support the organization’s comprehensive progressive platform ratified in August. Platform tenets include full employment at a living wage, environmental sustainability, social welfare and fair trade.

And while the NPA is trying to make headway, one of its members is also rallying for a similar cause.

Swiss Bank Swindled Out Of $2 Billion

An alleged trading scheme at UBS AG went undetected for three years before it was finally discovered, triggering a $2 billion loss, U.K. authorities indicated Friday as they charged a 31-year-old trader at the Swiss bank with fraud.

Flanked by a newly hired lawyer from a top London firm, Kweku Adoboli briefly gaped at reporters at his court hearing and said little beyond providing his birth date and address.

Mr. Adoboli, who didn’t enter a plea, dabbed his eyes with a tissue during a roughly 30-minute hearing at the City of London Magistrates’ Court in London’s financial district.

KWEKU ADOBOLO

The charges came as an early picture began to emerge of lapses inside one of the world’s largest banks that allegedly allowed a young trader on a small stock desk to cause huge losses over three years, a much longer period than initially suspected.

LEGAL NOTICE

Hillsborough County Public Schools, in conjunction with the Planning Commission and Supervisor of Elections Office, will host 5 meetings throughout the community to provide information and receive public input on alternatives to change the voting districts for School Board members in Districts 1, 2, 3, 4, and 5. This process is required by Florida law to occur in the year after the U.S. Census is taken. After the public has had a chance to review and comment on the alternatives, the School Board will meet to adopt the new member voting districts. The public is invited to attend the community meetings and the public hearing to provide comments to the School Board on the proposed changes in voting member district boundaries. The proposed changes to the Board member districts will modify the geographic areas from which five of seven School Board members are elected. THE MODIFICATIONS WILL NOT CHANGE WHICH SCHOOLS STUDENTS ATTEND. NOR WILL THEY CHANGE BUS STOPS OR THE AVAILABILITY OF TRANSPORTATION TO PARTICULAR SCHOOLS.

Public Community Meetings

Five additional community meetings have been added to the schedule to allow the public the opportunity to review changes in the alternative maps. One additional map has been added, Alternative "D."
