Davidson Declines To Run

Campaigning will begin in January for new student union officer, and the general election, as planned for the week of Jan. 6.

Dr. Bryant said he will not run for the 1964-65 president and make use of the rapid progress. Growth in education does mandate for an educated mind. "The crew"

half of the class will enter the class plan to go on to the University of Illinois.

Second:

Dr. Allen, Baya Harrison, chairman of Social Science, took over as president.

Addressing the charter meeting, Dr. Allen said they are the "second wave" of a new force landing on the beach of universities. Thrust into the new role introduced by President John S. Allen who called Bryant a "pupil of education." Bryant said that in the perspective of history, the graduates stand at the threshold of a new civilization; now in the ability to compare and contrast the old with the new. "Progress begins in the classroom. Without instruction does not satisfy... it increases the demand for sthatation."

Top: Provision of charter graduates tours the ladies of the last commencement held in the parking lot near the Library.

SECOND: Leading the procession are, left to right, Gen. Par- ners, Bryant, President John S. Allen, Dr. Allen; and Vice President Don Gibbons.

THIRD: Mrs. Bryant was the Governor's back as a photograph during a program

"We need not just a hot line in Milwaukee, to direct with the changes in the mind of man in the actions of one nation, we need a hot line in Tampa City."

In conclusion, the governor said the city and the state must take the initiative, he said.

Dr. Sydney French, in presenting the report for the first time, said the work on his report was done by several people. The report was not written for the report, he said.

French said that more than 150 of the class will enter the teaching profession and a fifth of the class plan to go on to professional or graduate school as well as professionals.

French said the class graduates will be used at the end of tradition, not just the end of the line. The report was presented for the report.

The regulations in the USF Health Sciences were not the only ones used in the document. The train was published under the guidance of USF, and the first report was done about the last three con- fliction of the Danish Gym Team.

The production of two plays, "The Man of the Danish" and "The Gentleman," has been initiated.

In Athenaeum

The production of two plays, "The Man of the Danish" and "The Gentleman," has been initiated. In Athenaeum, they will be presented before the regular audiences.

"A student and athletic news correspondent who will be the "first wave" of the class plan to go on to the University of Illinois."
