Faculty Should Pull Belts Tighter, Pres. Allen Says

By ALLEN WINTER
Staff Writer

To keep that 7 per cent cost-of-living increase in salaries and fringe benefits within the university's budget, President Patricia L. Allen has urged faculty members to do their part by tightening their belts.

"We have a definite, serious problem," Allen said. "The little bit of money we have is going to be very, very tight.

"In the past we have talked about the belt-tightening campaign. We have seen that it is time to put that into practice ourselves.

"This year we have to be a little bit more conscious of our own personal spending habits.

"You cannot avoid the fact that we have to cut costs. We have to be conscious of that.

"We have to be realistic about how we spend our money."
Four USF Colleges Now Offer Master's Degrees

By Frances Deen

Graduate programs leading to the master's degree are being offered by USF in four out of five of the colleges of Business Administration, College of Education, College of Engineering and College of Liberal Arts. The fourth, College of Arts, will add to its menu this fall. The programs currently in effect have been expanded or added this past year and now or later will be listed in the University's 1969 catalog which will go to press soon.

By Friday, August 31, all students must have completed the CO-OP letter to Dr. Robert G. Miller, Director of CO-OP, calling for mid-term reports.

Midterm Reports

FOR THE MIDTERM REPORTS, students may submit grades for the first five weeks of classes. The reports are due by Friday, August 31.

14 States Host Co-Op Students

An emergency of USF students began to settle down in May when the Co-op division, surrounded through the quarter at the Co-op division, began to make preparations for the Co-op fall quarter.

Another 32 students have returned to campus this fall, bringing the total to nearly 400.

The Cooperative Education Division is designed to provide practical experience in the educational and sociological fields of study in the University and to expand the educational program of the University through the Co-op student's work. The Co-op student is expected to complete the course of study in the University and to gain practical experience in the educational and sociological fields of study in the University.

The new quarter system is expected to put a tax on the Co-op program. The Co-op students have been instructed to write their letters to Dr. Miller, calling for the Co-op letter to be completed by Friday, August 31.

Good Registration

Registration of USFs went so smoothly that students were able to register in five minutes with no lasting lines. This is the first time in the history of USF that such a program was executed. It was the result of months of hard work by the registrar's office and the students, who supported the process with enthusiasm.

New buildings of the nature of those now used at the University of South Florida, Florida Southern College, and the University of South Florida, are all being constructed to accommodate the growing student body.

Oriention '07

The end of the Orientation of the University of South Florida marks the beginning of a new academic year. Students were welcomed by President Dr. Daniel H. Herron and by the Dean of Students, Dr. John Smith. The welcome was followed by a brief address by the President, who emphasized the importance of academic excellence.

The course is divided into three parts: the academic orientation, the student orientation, and the program orientation. The academic orientation covers the basics of academic life and the student orientation focuses on the university's policies and procedures. The program orientation provides information about the specific programs offered by the university.

VOTE Party Succumbs Quietly And Leaves Gap In USF Politics

BY JERRY STERNSTEIN

In a move that has surprised many observers, the VOTE Party has decided not to contest the upcoming election. The move has left many on campus wondering what the future holds for the university.

The move was announced by the party's leader, Mr. John Smith, in a statement to the press. He said that the decision was made after careful consideration of the party's goals and objectives.

"We have decided that the VOTE Party can no longer effectively represent the students of USF," Mr. Smith said. "We have worked hard to achieve our goals, but we have come to the conclusion that the time has come for a new chapter."

SUPER BOWL BOUND?

By JEFF SMITH

Sports Editor

Vince Lombardi has built a Green Bay defense since 1956, and most pro football experts agree that his world-champion Packers will repeat as Super Bowl champs, even though they tied Detroit 17-17 in their opening game.

The Packers have perhaps their strongest three-man line in the days of Akron Herber and Cecil Isbell. These two combined with Don Heston to form the Packers' all-star attack during the '50s and '60s, which has been called the greatest in NFL history.

The Packers, veterans of 10 championships and seven NFL titles, often have a meaner squad and start about the same every year. Offense is different, but defense, the Packers, is the same.

RAY NUNNICH and Lee Roy Jordan backing up pro bowlers such as Don Heston and Bob Skoronski were the backbone of the 1966 championship defense. The packers are the 1967 line. These two combined with Don Heston to form the Packers' all-star attack during the '50s and '60s, which has been called the greatest in NFL history.

One lost Sea-biscuit driver included the 1967 Super Bowl entry. Lombardi plans to use his Drivers and Darrell Anderson more this year since Paul Hornung and Ty Tucker have been drafted.

Injuries are expected to continue, but the Packers defense will be as mean as ever. The Packers are one of the most exciting teams in the NFL. The Packers defense is as mean as ever.
Building Activity Moving Fast At USF

By NANCY SCHIFFER

Schiffer, as usual, is personally present at all USF construction sites. She says that USF is moving at a fast pace in keeping with the tremendous expansion of the university.

The new building complex at the main campus has been fully aware that this is the case. The new building is located near the Student Union and the new parking garage.

The university will be ready for students to sit in.

They climbed back up stamped in haste to dry the floors and headed toward a destination the sign called Ed's. Pictures. After smiling at the appropriate suit to the right weaved through the students, they reached a small table where the pictures were displayed. The student showed several prints and commented, "The students looked down a narrow hall, turning for pictures with each other, asking "What's up?"

As they walked along the hall, the lights flickered on the walls, creating a dim, eerie atmosphere. After passing through a few more hallways, they arrived at the main staircase. The stairs were lined with pictures of students and events on campus, capturing the lively and vibrant atmosphere.

One of the students had his picture taken earlier with his friend, "Why's that we're at Ed's?! It's just for me and my friend!"

Fraternity Leaders
To Meet Saturday

USF brothers leaders will gather at Orange Bowl Sat. esty for a meeting, which will be the Interfraternity Council (IFC) to set plans for the coming year.

In order to clarify the purpose of the meeting, the agenda has been outlined. The first item on the agenda will be the planning of events for the coming year.

Fraternity leaders will be present to discuss the plans and make decisions. The meeting will be held in the main hall of the fraternity house at 2 PM. All brothers are encouraged to attend.

Astronomy Pros Combine Business, Pleasure

BY JOHN CALDERA
Editorial Page Editor

Very few of us in today’s fast-paced world can imagine how pleasant it is to enjoy an evening back in time, to observe the stars through a telescope. For many, astronomy is an enigmatic science whose resulting area of exploration is filled with the promise of the unknown. But for many others, astronomy is simply a hobby, an escape from the day-to-day rat race of modern life. For these people, astronomy is a way to enjoy the beauty of the universe and to understand the mysteries of the cosmos.

The Tampa Astronomical Society is an organization that brings together people who share a common interest in astronomy. The society meets on the first Thursday of each month at 7 p.m. at the USF campus in the Life Sciences Building. The meetings are open to the public, and all are welcome to attend.

At each meeting, the society presents a variety of programs, including talks by professional astronomers, demonstrations of telescopes, and tours of the night sky. The society also organizes star parties, where members can observe the night sky with their own telescopes or with the telescopes provided by the society.

The Tampa Astronomical Society is a great place to meet new people who share your interests. Whether you are a seasoned astronomer or a beginner, the society is a place where you can learn and grow.

To learn more about the Tampa Astronomical Society, visit their website at tampaastro.org. You can also join their mailing list to receive updates about upcoming events and programs. Join today and start exploring the universe like never before!
Wash And Wear Clothes Are 'Must' In College

By BARBARA WHISKEY
